Report of Independent Registered Public Accounting Firm

To the Member of XTX Execution Services LLC
and the Directors of XTX Holdings Limited

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of XTX Execution Services LLC (the Company) as of December 31, 2023 and the related notes (the “financial statement”). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company at December 31, 2023, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

This financial statement is the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the Company’s auditor since 2020.

NOTES TO THE FINANCIAL STATEMENT

1 ORGANIZATION AND NATURE OF BUSINESS

XTX Execution Services LLC (the ‘Company’) is a U.S. registered broker and dealer under the Securities Exchange Act of 1934. The sole member of the Company is XTX Holdings LLC, a limited liability corporation registered in Delaware. The Company was organized for the purpose of trading securities and operating a single dealer platform (SDP), utilizing a proprietary electronic trading model. Clients of the SDP are registered broker-dealers, and beginning in October 2023 included institutional clients where the Company acted as an introducing broker. Through the SDP the Company offers Indication of Interest (IOIs) to clients, which they can either accept or reject. The U.S. dollar is the functional currency of the Company. The Company became registered as a securities broker-dealer with the Securities and Exchange Commission (“SEC”) and a member of the Financial Industry Regulatory Authority (“FINRA”) on December 23rd, 2020. The Company both trades on its own account and interacts with other registered broker-dealers and institutional clients as an executing broker-dealer in operating a single dealer platform.

The Company is a member of the Securities and Investor Protection Corporation (‘SIPC’). Its designated examining authority is FINRA. It trades via sponsored access on various equities exchanges and equities Alternative Trading Systems (‘ATS’, a regulated electronic trading system with registered broker-dealers that match buy and sell orders). The Company does not trade any derivative or debt products.

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The financial statement of the Company have been prepared in accordance with accounting principles generally accepted in the United States (‘US GAAP’). The financial statement is presented in U.S. Dollars.

Use of Estimates

The preparation of the financial statement in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Management believes that the estimates utilized in preparing its financial statement are reasonable and prudent. Actual results could differ from those estimates.

Financial Instruments Owned

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

Amounts payable for securities transactions that have not reached their contractual settlement date are recorded gross on the statement of financial condition under “Payable to broker-dealers and clearing organizations”. Securities are recorded at fair value in accordance with FASB ASC 820, Fair Value Measurement.

Other assets

Other assets consist primarily of prepayments for other expenses and accrued income, which are recognized at initial value of consideration given, and are subsequently amortized over the period of the underlying contract.

NOTES TO THE FINANCIAL STATEMENT – continued

2 SIGNIFICANT ACCOUNTING POLICIES - continued

Cash and cash equivalents

Cash and cash equivalents consists of deposits with banks and highly liquid investments, with maturities of three months or less, that are not segregated and deposited for regulatory purposes. The Company did not hold any cash equivalents during the period.

Foreign currency transactions

Items included in the financial statement are measured using the currency of the primary economic environment in which the Company operates (the functional currency). The financial statement is presented in U.S. Dollars, which is the Company's functional currency.

Assets and liabilities denominated in non-U.S. Dollar currencies are remeasured into United States dollar equivalents at spot foreign exchange rates prevailing on the date of the Statement of Financial Condition, while revenue and expense accounts are remeasured at the actual foreign exchange rate on the date the transaction occurred.

Financial instruments sold not yet purchased

The Company has sold securities that it does not currently own and therefore may be obligated to purchase such securities at a future date. The Company has recorded these obligations of \$48,135 in the financial statement as of December 31, 2023 at fair value which is the market value of the related securities. Such obligations have market risk to the extent that subsequent market fluctuations may require the Company to repurchase the securities at prices in excess of the market value reflected in the statement of financial condition.

Impact of recent accounting pronouncements

The FASB issued Accounting Standards Update No. 2020-04, Reference Rate Reform, codified as ASC 848. In response to concerns about structural risks of interbank offered rates (IBORs), and, particularly, the risk of cessation of the London Interbank Offered Rate (LIBOR), regulators in several jurisdictions around the world have undertaken reference rate reform initiatives to identify alternative reference rates that are more observable or transaction based and less susceptible to manipulation.

The amendments in this Update provide optional expedients and exceptions for applying generally accepted accounting principles (GAAP) to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. The guidance is effective for all entities and generally can be applied through December 31, 2024. The expedients and exceptions provided by the amendments do not apply to contract modifications made and hedging relationships entered into or evaluated after December 31, 2024, except for hedging relationships existing as of December 31, 2024, that an entity has elected certain optional expedients for and that are retained through the end of the hedging relationship.

The Company does not have any material exposures to LIBOR or other reference rates either via its trading book activities or back office contracts and therefore does not expect this update to have a material impact on the results presented in future accounting periods.

No additional FASB Accounting Standards updates are expected to impact XTX Execution Services LLC.

Taxes

In early 2023, the Company filed an election for US Federal income tax purposes to be disregarded as a separate entity from its parent, a disregarded entity ("DRE"). This election is retroactive to January 1, 2023. As a DRE, the Company is treated as a division of its sole member and will not be subject to tax on a stand-alone basis in all jurisdictions in which it currently operates. Pursuant to ASC 740, *Income Taxes*, an entity

NOTES TO THE FINANCIAL STATEMENT – continued

2 SIGNIFICANT ACCOUNTING POLICIES - continued

is not required to allocate the consolidated amount of its parent's income tax provision to the separate financial statement of a legal entity that is both not subject to tax and disregarded by the taxing authority.

3 CASH AND CASH EQUIVALENTS

All amounts presented on the Statement of Financial Condition was unrestricted. The Company did not hold any cash equivalents during the period.

4 FAIR VALUE HIERARCHY

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3. Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

There were no transfers between different levels of the fair value hierarchy within the period.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

A description of the valuation techniques applied to the Company's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Exchange-Traded Equity Securities. Exchange-traded equity securities are valued based on quoted prices from the exchange. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy; otherwise, they are categorized in level 2 or level 3 of the fair value hierarchy.

The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of December 31, 2023. As required by this standard, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular

XTX EXECUTION SERVICES LLC**Statement of Financial Condition as at December 31, 2023 (expressed in U.S. dollars in thousands****unless otherwise stated)****NOTES TO THE FINANCIAL STATEMENT – continued**

input to the fair value measurement requires judgement and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

	Level 1	Level 2	Level 3	Total Fair Value
Financial instruments owned, at fair value:				
Equity securities	\$49,836	-	-	\$49,836
Total financial instruments owned, at fair value	\$49,836	-	-	\$49,836
Financial instruments sold, not yet purchased, at fair value:				
Equity securities	\$48,135	-	-	\$48,135
Total financial instruments sold, not yet purchased, at fair value	\$48,135	-	-	\$48,135

Short term assets and liabilities carry a maturity of less than one year or are bearing market interest rates and accordingly are carried at amounts approximating fair value, and are as set out below:

	Level 1	Level 2	Level 3	Total Fair Value
Cash and cash equivalents	\$14,707	-	-	\$14,707
Deposits with clearing organizations and others	\$33,292	-	-	\$33,292
Receivable from broker-dealers and clearing organizations	-	47	-	\$47
Total assets	\$47,999	\$47	-	\$48,046
Payable to broker-dealers and clearing organizations	-	\$191	-	\$191
Total liabilities	-	\$191	-	\$191

5 DUE FROM/TO BROKER-DEALERS AND CLEARING ORGANIZATIONS AND DEPOSITS WITH CLEARING ORGANIZATIONS AND OTHERS

The Company clears its proprietary transactions through other broker-dealers. As of December 31, 2023, the Company had deposits due from these broker-dealers and clearing organizations of \$33,292, receivables from broker-dealers and clearing organizations of \$47 and amounts due to broker-dealers and clearing organizations of \$191. Included in deposits with clearing organizations and others are deposits, margin, and unsettled transactions. Amounts due to broker-dealers and clearing organizations consist of exchange and clearing fees payable as well as amounts due in respect of unsettled transactions.

6 RELATED PARTIES

The Company is a fully owned subsidiary of XTX Holdings LLC, a company domiciled in the US and US tax resident.

Amounts due among related parties are interest free and repayable on demand. There have been no guarantees received from related parties or provided to related parties.

During the year, the Company received two capital contributions from XTX Holdings LLC totalling \$24,000 to help support business growth.

The Company attributes profits to XTX Markets Technologies Limited, an affiliate of the Company, in respect of net profits initially booked within XTX Execution Services LLC but where management consider

XTX EXECUTION SERVICES LLC**Statement of Financial Condition as at December 31, 2023 (expressed in U.S. dollars in thousands****unless otherwise stated)****NOTES TO THE FINANCIAL STATEMENT – continued**

that the value-added activities in respect of the profits are provided by employees of XTX Markets Technologies Limited. These amounts are derived using a profit split calculation that reallocates profits and costs (comprising administrative, general and operating expenses) among affiliated entities based on the value-added activities performed globally.

Additionally, the Company pays amounts to XTX Markets Technologies Limited in respect of bespoke I.P. and execution activities, and costs recharged as described above between XTX Execution Services LLC and these affiliated entities to ensure that each legal entity accurately bears its share of costs incurred. These costs include administrative, general and operating expenses, including employee compensation and benefits. Operating expenses mentioned above consist of a combination of trading and back office I.T. costs including exchange connectivity, market data and back office subscription costs.

Related party charges shall not be viewed as the solicitation of services and/or sale of tangible personal property. Charges incurred by XTX Execution Services LLC are solely costs of the entity and related party charges are generated to allocate the reimbursement of these costs.

No formal settlement terms exist for settlement of any associated related party receivables or payables although a master netting agreement is in place that allows for net settlement of intercompany payables and receivables. Balances are typically settled on a monthly basis.

The following table sets forth the Company's related party assets and liabilities as of December 31, 2023:

	Due to related party as of 31-Dec-23	Due from related party as of 31-Dec-23
XTX Markets Technologies Limited	\$2,920	\$0
	\$2,920	\$0

7 CREDIT RISK, FINANCING RISK AND MARKET RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfil their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Financing risks include the exposure the Company has to margin requirements in place with clearing brokers and counterparties. Changes in margin requirements, including the related changes in fair value of investments, may result in the Company having to pledge additional margin or to sell securities to meet required margin. These activities may take place when market conditions are not optimal and may result in a realized loss on securities transactions and additional margin requirements with clearing brokers and counterparties.

Market risk is the potential for changes in the value of financial instruments. Categories of market risk include, but are not limited to, exposure to equity prices, interest rates, commodity prices, credit prices and currency prices. Market risk is directly impacted by volatility and liquidity in the markets. As a trading firm operating a single dealer platform, the Company's trading levels may vary significantly on an intraday basis as a result of changing market and economic conditions. End of day positions may not be representative of trading levels conducted by the Company during the trading day.

The Company relies on service providers that are integral to its revenue generating activities. A disruption of services provided such as connectivity may have an impact on the financial results of the Company.

NOTES TO THE FINANCIAL STATEMENT – continued

The Company may invest directly in non-US currencies or securities that are denominated in non-US currencies. Currency rates may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by government entities, central banks or supranational entities, or by the imposition of currency controls or other geopolitical developments.

8 CONTINGENCIES

In the normal course of business, from time to time, the Company may be involved in legal or regulatory proceedings and/or inquiries concerning matters arising in connection with the conduct of its operations. One current regulatory matter impacting the industry is the SEC's approval for industry members to contribute to the funding of the Consolidated Audit Trail (CAT), including historical cost.

Given the inherent difficulty of predicting the outcome of regulatory matters and the surrounding unknowns, including the outcome of the litigation against the SEC's approval, the applicable fee rate that will be charged on the eligible securities, the time period for the backpay, and the allocated portion to the Company, the Company cannot estimate costs for such matters and therefore has not recorded an associated estimated liability. It is not presently possible to determine the ultimate exposure to this matter. However, it is the opinion of management, based on information currently available, the ultimate outcome of this matter will not have a material adverse impact on the business, financial condition or operating results of the Company, although it might be material to the operating results for any particular reporting period.

In the Company's opinion, there are no other matters that may ultimately result from such legal and regulatory actions which are expected to have a material adverse effect on the financial position, results of operations, or liquidity of the Company. The Company may enter into agreements with indemnifications in the normal course of business.

9 REGULATORY REQUIREMENTS

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital.

During 2020, the Company applied for, and received permission from FINRA to adopt the alternative treatment for calculating capital requirements. Therefore, during 2023 the capital requirement of the Company has been \$250 and it has remained in compliance with its minimum net capital requirement through the date of the financial statement and had net capital of \$33,544, which was \$33,294 in excess of its required net capital of \$250.

The Company is subject to the Customer Protection Rule (SEC Rule 15c3-3), promulgated under the Securities Exchange Act of 1934, as amended. However, at December 31, 2023, and throughout the period, the Company did not carry security accounts for customers or perform custodial functions related to customer securities. Consequently, at December 31, 2023, there are no amounts required to be reserved in accordance with SEC Rule 15c3-3.

10 SUBSEQUENT EVENTS

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2023, and through February 27, 2024.

There have been no material subsequent events that occurred during such period that would be required to be recognized in the financial statement as of December 31, 2023.
