

TaskCause

Giving by Doing™

Why?

People want to be involved in their community but face a difficult time participating due to the barriers and limitations in life.

No money to donate

Can't attend volunteer events

(schedule conflicts, etc)

COVID19 = dangerous for people to be in confined areas

Solution: Giving By Doing™ with TaskCause™

Nonprofits give their supporters a new tool called TaskCause.

People are now able to do local tasks for people in their community to support nonprofit causes.

Dog Walking

Furniture Assembly

Lawn Mowing

And More!

How It Works

1. We help nonprofits onboard volunteers onto TaskCause and help find people who need local tasks done.

2. People pay to get local tasks done and learn about the nonprofit cause by connecting with volunteer fundraisers.

3. After completion of each task, the entire proceeds are sent directly to the nonprofit cause.

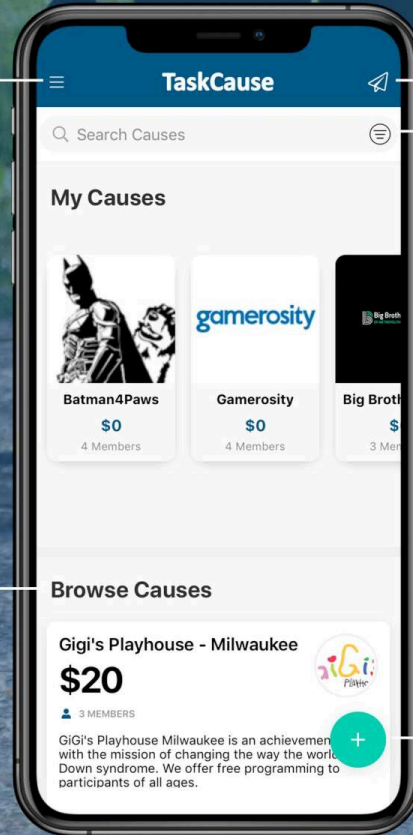

How It Works

Menu Bar

- Request Task
- My Tasks
- Search Tasks
- Transactions
- Settings

Browse Nonprofit Organizations

- Mission
- Members
- Contact information

Messages

Current location to see available task requests nearby

Add / Request a task to be done.

A group of people are gathered around a table, creating greenery wreaths. One person is holding a small glass, and another is using scissors. The scene is indoors, with a patterned tablecloth and a blue sofa in the background.
