

ANNUAL REPORT

CALIFORNIA TEQUILA, INC.

30012 Aventura, Suite A
Rancho Santa Margarita, California 92688
Phone: 310-427-9779

In this Annual Report the term “California Tequila”, “we”, “us”, “our”, or “the Company” refers to California Tequila, Inc.

The company, having offered and sold Class B Non-Voting Common Stock pursuant to Regulation Crowdfunding under the Securities Act of 1933, as amended (the “Securities Act”) is filing this annual report pursuant to Rule 202 of Regulation Crowdfunding for the fiscal year ended December 31, 2021. A copy of this report may be found on the company’s website at WWW.Atequila.com.

FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements and information relating to, among other things, the company, its business plan and strategy, and its industry. These forward-looking statements are based on the beliefs of, assumptions made by, and information currently available to the company’s management. When used in this report, the words “estimate,” “project,” “believe,” “anticipate,” “intend,” “expect” and similar expressions are intended to identify forward-looking statements, which constitute forward looking statements. These statements reflect management’s current views with respect to future events and are subject to risks and uncertainties that could cause the company’s actual results to differ materially from those contained in the forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. The company does not undertake any obligation to revise or update these forward-looking statements to reflect events or circumstances after such date or to reflect the occurrence of unanticipated events.

Business

Corporate History

The issuer, California Tequila, Inc. was incorporated under the laws of California on April 27, 2020. Prior to incorporation of California Tequila, Inc. the Company had been conducting operations under California Tequila, LLC since its organization in California on May 2, 2002. All operations and assets of California Tequila, LLC were transferred to California Tequila, Inc. upon its incorporation. California Tequila, Inc. filed a Fictitious Business Name Statement with Orange County, CA permitting the Company to use the name “AsomBroso Tequila”.

The previous entity, California Tequila, LLC, was formed in 2002 by Richard Gamarra as its sole managing member. It was the vehicle through which the AsomBroso tequila brand was created, imported and marketed domestically. Until 2006 Mr. Gamarra was its sole employee. In January 2006 Andrew Ulmer was engaged by Mr. Gamarra to serve as the entity COO and Vice President. However, he was never a member of the limited liability company. Through the early years the limited liability company provide tax shelter to offset Mr. Gamarra's other earned income.

In anticipation of the Company's Regulation CF raise, it was deemed advisable that the limited liability company merge into a C-Corporation providing optimum flexibility for the issuance of additional equity. Accordingly, in 2020 California Tequila, Inc. was formed by Mr. Gamarra to accomplish this reorganization. The Company has two authorized classes of stock one voting and one nonvoting. Thereafter, on or about June 9, 2020, pursuant to a Certificate of Merger, and Agreement and Plan of Merger between the parties, California Tequila LLC merged into California Tequila Inc. the surviving entity. By operation of law, California Tequila, LLC's history, operation, assets and liabilities were subsumed into California Tequila, Inc. and its legal existence permanently extinguished. Pursuant to the terms of the merger Mr. Gamarra interest in the limited liability company was converted into 100% of the authorized and outstanding common voting stock of California Tequila Inc.

Introduction

The Company is principally engaged in the business of importing, marketing, and selling ultra-premium tequila products under its “AsomBroso” brand. AsomBroso is the cognate of the Spanish word for “amazing.” The Company offers AsomBroso Tequila products across the entire price point spectrum of the ultra-premium tequila category from its AsomBroso Silver (USA MSRP \$40.00/bottle) to its state of the art 12-year-aged Collaboration Extra Anejo (USA MSRP \$1,800.00/bottle). The Company has also begun to market other spirits, specifically flavored whiskeys under its “Knucklenoggin” brand.

The Company's tequila products are manufactured at Tequila Selecto Distillery, situated within Jalisco, Mexico – a province renowned for the production of a Mexican national resource, agave tequila. AsomBroso has been certified by the province of Jalisco to use the geographic distinctions of “Tequila” and/or “Tequila 100% De Agave” and continues to maintain such standards. See “Intellectual Property” for further details.

The Company currently has distribution of AsomBroso tequilas in twenty-five states and three foreign countries, with the intention to expand into new territories. See “Distribution” for further details.

Products

Since 2002, we believe that AsomBroso tequila has gained the reputation within the tequila industry (and amongst tequila aficionados) as one of the best, if not the best, tequila brand on the market. AsomBroso tequilas have products that span the price range of ultra-premium tequilas.

The Company currently distributes, markets, and sells ten ultra-premium tequilas marketed under the “AsomBroso” brand. Additionally, the Company has recently released a new salted caramel-flavored whiskey under the “Knucklenoggin” brand. The following product descriptions are the currently marketed spirits sold by the Company:

TEQUILA	PRICE RESTING PERIOD % OF SALES	DESCRIPTION AND AWARDS
<p>El Platino Silver</p> 	<p>USA MSRP: \$40.99</p> <p>16% of Product Mix (Approx.)</p>	<p>Crafting El Platino with specially selected 100% blue agave in our proprietary multiple distillation and filtration process, we have found the perfect balance of preserving the taste while eliminating the harsh finish that may be present in many other tequilas.</p> <p>El Platino is the sophisticated foundation for all of our unique tequilas and is perfect for sipping straight or mixing with your favorite drinks.</p> <p>This tequila was voted the “Top Tequila” and awarded “Double Gold” at the San Francisco World Spirits competition in 2008.</p>
<p>La Rosa Reposado</p> 	<p>USA MSRP: \$47.99</p> <p>30% of Product Mix (Approx.)</p>	<p>La Rosa begins with the El Platino Silver. Once the final filtration is completed, the tequila is then “rested” (reposado) for 3 months in French oak casks previously used for fine Bordeaux wine.</p> <p>We created this resting process which imparts the natural pink color from the wine and gives our reposado a subtle sweet finish resulting in, what we believe to be, an unparalleled taste experience.</p> <p>This tequila was awarded the “Gold Medal” at the San Francisco World Spirits Competition in 2008.</p>

TEQUILA	PRICE RESTING PERIOD % OF SALES	DESCRIPTION AND AWARDS
Cristalino Extra Anejo 	USA MSRP: \$99.99 Rested 3 years 1% of Product Mix (Approx.)	A triple barreled tequila. It is a unique, clear Extra Anejo.
Gran Reserva Extra Anejo 	USA MSRP: \$99.99 Rested 5 years 44% of Product Mix (Approx.)	<p>The Gran Reserva, is carefully aged five years in premium French oak barrels. By aging through this unique aging process, our Extra Anejo is given full-bodied taste that critics have compared to a sophisticated Cognac or Armagnac.</p> <p>It was voted "Best of the Best" by the prestigious Robb Report magazine in June 2009 and adorned with the "Double Gold Medal" by the San Francisco World Spirits competition in 2008.</p>
El Carbonizado Extra Anejo	USA MSRP: \$169.99 Aged Over 6 years 1% of Product Mix (Approx.)	A double-barreled creation. We begin with the Gran Reserva Extra Anejo, and then barrel the tequila a second time in premium medium charred oak casks previously used to house Irish Whiskeys. The results from this over 6-year aging process is a smooth tequila, with just enough southern charm to please both tequila and whiskey drinkers alike.

TEQUILA	PRICE RESTING PERIOD % OF SALES	DESCRIPTION AND AWARDS
<p>Especial de Rouge Extra Anejo</p> 	<p>USA MSRP: \$399.99</p> <p>Aged 10 Years</p> <p>1% of Product Mix (Approx.)</p>	<p>The Especial De Rouge tequila is rested in fine crafted French oak barrels previously used to host one of the world's most famous French Cognacs, Grand Marnier®. The Especial De Rouge is aged to properly infuse itself.</p> <p>We measure the content religiously to ensure the essence of both the mild oak and buttery orange blossom notes to take hold of this unique and marvelous tequila.</p>
<p>Vintage 11 Year Extra Anejo</p> 	<p>5% of Product Mix (Approx.)</p> <p>USA MSRP: \$699.99</p> <p>Aged 11 Years</p>	<p>A smooth Extra Anejo tequila.</p> <p>The process begins with the El Platino, resting it for 11 years in new French Oak Barrels. This tequila has been described as the "Nectar of the Gods" It is bottled in a beautiful decanter designed after the Bellagio Hotel's famous "Fiori de Como" Chihuly chandelier.</p> <p>Sold in Costco locations, packaged in an elegant display, polished hardwood humidor with a custom laser engraved pedestal.</p>
<p>Diosa 12 Year Extra Anejo</p>	<p>USA MSRP \$1,200.00</p> <p>Aged 12 Years</p> <p>1% of Product Mix (Approx.)</p>	<p>It is rested for 12 years in premium Napa Valley American Oak barrels.</p> <p>The Diosa is housed in a beautiful stained-glass decanter, accented with three elegantly-tied rope rings.</p>

TEQUILA	PRICE RESTING PERIOD % OF SALES	DESCRIPTION AND AWARDS
<p>Del Porto Extra Anejo</p> 	<p>USA MSRP \$1,200.00</p> <p>Aged Over 12 Years</p> <p>1% of Product Mix (Approx.)</p>	<p>This complex tequila begins with the Vintage 11-year Extra Anejo, then the tequila is double barreled for an additional fourteen months in hand chosen port wine barrels imported from Portugal.</p> <p>This beautiful tequila is then adorned in a meticulously crafted crystal decanter.</p> <p>This work of art is then displayed in our custom engraved polished cedar humidor.</p>
<p>"The Collaboration" Extra Anejo</p> 	<p>USA MSRP: \$1,999.99</p> <p>Aged Over 12 Years</p> <p>1% of Product Mix (Approx.)</p>	<p>A double barrel rested tequila combining the Vintage 11-year Extra Anejo with the esteemed Silver Oak Cellars Cabernet Sauvignon American oak barrels and re-rested for a minimum of additional twelve months.</p> <p>We believe that this process has produced one of the world's most luxurious and taste-provoking tequilas in the world.</p> <p>Each decanter housing "The Collaboration" is handcrafted and displayed in a finely polished, custom-engraved cedar humidor. The Collaboration makes an exquisite gift for the tequila aficionado.</p> <p>This tequila has received a rating of "96" by The Tasting Panel Magazine in October 2015. As of the date of this report it is the highest rated tequila in the world.</p>

NON-TEQUILA PRODUCTS	PRICE % OF SALES	DESCRIPTION AND AWARDS
Knucklenoggin Salted Caramel Whiskey 	USA MSRP \$25.99 New Product (Product mix % not available)	Knucklenoggin Whiskey is a fun, easy to drink flavored whiskey designed to be enjoyed straight, on the rocks or in a mixed drink. We believe Knucklenoggin is simply delicious! Made from a blend of aged American Whiskeys and infused with the sweet taste of rich creamy caramel - imparting creamy smooth notes that perfectly complement our stunningly bold whiskey.

Tequila Market

The domestic and global tequila market has exploded within the past four years. The global tequila market reached a value of US \$13 Billion in 2021 and the market is expected to reach US\$ 27.7 Billion by 2027. This included a comparable growth in the high-end/ultra-premium segment of the tequila market. The Company predicts the growth trend of the high-end/ultra-premium tequila segment to continue for the foreseeable future, correlating with the greater tequila market trends. The Company believes that it is particularly well-positioned to capitalize on this segment's growth due to the already high reputation of AsomBroso tequilas in the ultra-premium tequila category.

Customer Profiles

The Company's internal research indicates the AsomBroso customer base has the following attributes:

- Gender: 55% Male and 45% Female
- Age: 35-55 years old
- Average Household Income: \$150,000+
- Marital Status: Married with a Family
- Education: College Educated, bachelor's degree (or higher)

Manufacturing, Importing and Distribution

Background

On April 27, 2020, the Company and Tequila Selecto Distillery entered into the EJR Agreement. The EJR Agreement is valid for 10 years. Pursuant to the EJR Agreement, the Company is an importer/ distributor of the finished products and the Tequila Selecto Distillery manufactures the products.

Until June 23, 2021, the EJR Agreement did not accurately describe the business relationship between the Company and Tequila Selecto Distillery. On July 1, 2021 the Company and Tequila Selecto Distillery entered into the Addendum to accurately reflect the business relationship between the parties. Further, as of June 24, 2021, the Company received a certificate of good standing from Tequila Selecto Distillery stating that the Company is in good standing with Tequila Selecto Distillery pursuant to their agreed upon terms.

The Process

The Company imports 10 tequilas. Tequila Selecto Distillery distills each tequila. The process is outlined below:

- Tequila Selecto Distillery distills tequila.
- The tequila is rested (for a certain period of time) in one barrel.
 - o Some of the Company's tequilas are further rested in a second barrel for an additional period of time (the "Double Barrel Process").
- All tequila is paid for by the Company when it has finished resting in the first barrel.
- Once the tequila has finished the applicable resting period, at the direction and under the supervision of Richard Gamarra, Tequila Selecto Distillery blends the product.
- The product is then bottled by the Tequila Selecto Distillery.
- The product is imported by the Company.
- The Company distributes the product to applicable distributors across the United States and internationally so that the products are sold.

Manufacturing

California Tequila, Inc. imports and distributes AsomBroso products, while the Tequila Selecto De Amatitan S.A DE C.V distillery (“Tequila Selecto Distillery”) manufactures the AsomBroso products. The process of manufacturing, includes but is not limited to the following, and is performed by the staff at Tequila Selecto Distillery:

- Manufacturing,
- Barrel resting
- Inventory management,
- Blending,
- Sourcing raw bottles,
- Labeling, and
- Packaging

The Entailment and Joint Responsibility Agreement between the Company and Tequila Selecto Distillery, dated April 27, 2020 is valid for 10 years. Pursuant to that agreement, the Company is a distributor of the finished products.

Brand Image

The Company has crafted the AsomBroso brand, including its reputation and brand image, to target a tequila consumer who has the following customer profile: (1) indulges in luxury; (2) enjoys travel; (3) active in business community as a leader or an owner; and (4) appreciates a lifestyle centered around relaxation and “taking it easy”.

Commercial Customer Profile

A significant portion of the Company’s sales are business-to-business sales (“B2B”). The Company currently sells to commercial clients including businesses in hospitality, hotels, restaurants, retail establishments, private clubs, and the like. The Company has adopted a philosophy of direct and indirect marketing to the beverage managers of these businesses.

The Company has and will continue to target the above establishments but will focus most of its sales and marketing efforts to such places that are characterized as “modern”, “upscale”, in both suburban commercial and city locations, and in single and chain model establishments.

Marketing Programs

Since the Regulation A Offering, the Company has hired the PR firm Ileana International to build U.S. brand awareness. The Company will be using its extensive in-house capabilities to brand and market our product. With a combination of various advertising media, guerrilla marketing techniques, special events, telemarketing, on-site promotions, press and media coverage. The Company has created and tested a comprehensive and targeted marketing and branding strategy that rivals or exceeds the big brands, at a much lower cost per million dollars. AsomBroso has positioned itself to utilize non-traditional forms or exposure, such as in-house custom designed graphics allowing us to place maximum expose at a minimal cost. Our brands reputation for high quality and innovative products will become the de facto leader of the ultra-premium segment. The growth is expected to exceed the industry past and projected growth rate as nationwide marketing and distribution plans take effect.

Business-to-Consumer Marketing Strategy

Since the Regulation A Offering, the Company has expanded its marketing efforts directly to consumers. The marketing effort utilizes traditional and modern techniques including social media marketing and search engine optimization. The Company has conducted such marketing efforts both in house and through contracted third-party marketing/advertising firms. The overarching focus of the business-to-consumer (“B2C”) marketing campaign has been focused on the flagship products Gran Reserva 5-year Extra Anejo and La Rosa Reposado. The Company will also promote its luxury and innovative products when such become available for sale through limited releases.

The Company intends to increase marketing through its website Atequila.com (the “Website”) to drive sales to retailers. One major aspect of the Company’s direct sales marketing campaign over its Website derives from the Company’s “Agave Club” mailing list. The mailing list sign-up portal is provided on the Company’s website. As of the date of this report, the Company has approximately 30,000 AsomBroso Agave Club Members.

The Company currently markets to consumers in 37 different states directing them to its website to purchase products from third party retailers. The Company has engaged a third-party marketing company to execute a comprehensive sales and marketing strategy, including bi-weekly emails to Agave Club members. The direct sales social media strategy will direct dollars to the 37 states the third-party retailers may ship to directly from the Website purchase page.

Business-to-Business Marketing Strategy

The same marketing agency engaged for B2C marketing and advertising has also execute a comprehensive B2B marketing strategy to help build AsomBroso product awareness amongst potential and current commercial clients such as hospitality, hotels, restaurants, liquor retailers, and private clubs. Initial B2B marketing campaigns have been focused on the top United States tequila markets.

Sales Representatives

Since the Regulation A Offering the Company has hired and employed a sales team covering the Top 10 US tequila states. The Company's salesforce is engaged to spread marketing message and brand awareness, conduct brand tasting and product placement via distributor partners to restaurants and retailers.

Competition

The tequila market is one of the most robust alcohol markets both in gross sales size and number of brands. The categorization of the AsomBroso brand as an ultra-premium tequila brand does limit the scope of actual competing brands, since the AsomBroso customer is more likely to pick a high-end/ultra-premium tequila. The closest nationally distributed, or widely distributed competing brands are Don Julio, Patron, Casamigos, Clase Azul, and Adictivo Extra Aged Cristlino. The table below provides a comparative MSRP price point table for AsomBroso products as compared to the closest competing products from the above-named competitors.

Name of Competitor	AsomBroso						AsomBroso	AsomBroso
	AsomBroso	AsomBroso	AsomBroso	Gran	AsomBroso	AsomBroso		
Tequila (MSRP)	El Platino (\$40.99)	La Rosa (\$47.99)	Cristalino (\$99.99)	Reserva Extra Anejo (\$119.99)	El Carbonizado (\$169.99)	Especial De Rouge (\$399.99)	Vintage Extra Anejo (\$699.99)	Del Porto Extra Anejo (\$1,899.99)
Don Julio	\$ 39.99	\$ 42.99	-	\$ 126.99	\$ 126.99	\$ 126.99	\$ 359.99	-
Patron	\$ 39.99	\$ 42.99	-	\$ 45.99	-	-	-	-

Employees

The Company currently has twelve full-time employees, including a controller, including a Director of Marketing, bookkeeper and seven sales representatives.

Intellectual Property

The Company owns the following trademarks:

MARK	OFFICE	TRADEMARK TYPE
"Asombroso"	USPTO	Word Mark
"Asombroso Ultrafino"	USPTO	Word Mark
"Knucklenoggin"	USPTO	Word Mark
Knucklenoggin	USPTO	Design Mark
"Asombroso"	China	Word Mark
"Fine Tequilas" "100% Blue Agave"	Patent	
	Office	

The Company has permission to use the following geographical indication:

- The State of Jalisco has certified that AsomBroso is permitted to use the geographical indication "Tequila" and "Tequila 100% De Agave"

- Tequila” and or “Tequila 100% De Agave” is a geographical indication for a distilled beverage made from the blue agave plant, primarily in the area surrounding the city of Tequila in the Jalisco Highlands of the central western Mexican state of Jalisco. Tequila is the national spirit of Mexico along with one of Mexico’s largest exports. As such “Tequila” was recognized by the EU in 2019 and placed on the EU geographical indications register.

Legal Proceedings

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of December 31, 2021, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company’s operations.

Description of Property

As of December 31, 2021, the Company’s inventory was \$1,061,875 (finished goods and work in progress) compared to \$705,171.00 for the year ended December 31, 2020.

In addition, as of December 31, 2021 and 2020 the Company had a total of \$7,600 and \$259,011 in tequila barrel inventory, which consists of tequila resting in barrels, which the Company categorizes as a long-term asset on its balance sheet compared. This long-term asset is located in Mexico at our third-party distillery, Tequila Selecto Distillery, and is subject to our two-barrel resting procedure. The Company pays the Tequila Selecto Distillery for the barreled tequila when the tequila is moved from the first barrel to the second barrel to “rest.” However, the Company notes that title to the prepaid inventory remains with distillery, pursuant to the EJR Agreement, until delivered to the Company, in bottles, after completion of the resting period.

During 2021 and 2020, the Company paid month to month rent for an office space to Tangar 1, LLC located at 30012 Aventura Rancho Santa Margarita CA 92688. Rent expense for the fiscal years 2021 and 2020 was \$24,925 and \$26,088, respectively.

Founder/Chairman/CEO Richard Gamarra is the father of Jarrett Gamarra, the Marketing Director of the Company.

Provisions In Bylaws For Change In Management

The management of the Corporation is vested in its Board of Directors as elected by the Class A Voting Common Stock Shareholders in accordance with the Corporation's Bylaws. The Board may elect Officers as set forth in the Bylaws to manage the day-to-day operations of the Corporation.

INTEREST OF MANAGEMENT AND OTHERS IN CERTAIN TRANSACTIONS

- From March 5, 2019, until the date of this annual report, Richard Gamarra, who is a member of California Tequila LLC, owns 50% of WCCS, a California licensed Spirits distributor that not only distributes AsomBroso Tequila in the state of California but also distributes over 550 other brands. At WCCS AsomBroso Tequila has the same margin as all other brands. During fiscal year 2021, the sales amounted to \$1,020,782.51 and the outstanding receivable was \$720,333.84 as of December 31, 2021.
- In September 2016, the Company entered into a loan agreement with a certain lender for \$100,000. The loan was guaranteed by Richard Gamarra, at that time, the sole member of the Company. The loan incurs interest at 10% per annum and was originally due on March 31, 2017, however, terms have been extended and the note is presently due on demand. In 2019, an aggregate of \$30,000 in repayments were made by Richard Gamarra on behalf of the Company. The principal balance was reduced by product sales made to a customer owned by the noteholder. As of December 31, 2021, the principal balance of \$37,727 was fully repaid.

RISK FACTORS

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as cyber-attacks and the ability to prevent those attacks). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

The Company's financials were prepared on a "going concern" basis

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred losses from operations and has accumulated deficit of \$4,229,602 as of December 31, 2021. The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. During the next twelve months, the Company intends to fund its operations through debt and/or equity financing. There are no assurances that management will be able to raise capital on terms acceptable to the Company. If it is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of its planned development, which could harm its business, financial condition, and operating results. The accompanying financial statements do not include any adjustments that might result from these uncertainties.

There is no current market for any shares of the Company's stock

Investors should be prepared to hold their investment for several years or longer. More importantly, there is no established market for these securities and there may never be one. As a result, if an investor decides to sell these securities in the future, you may not be able to find a buyer. Investors should assume that they may not be able to liquidate their investment for some time, or be able to pledge their shares as collateral.

Any valuation of the company at this stage is difficult to assess

The valuation for the Regulation CF Offering was established by the company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

The Company may not have enough capital as needed and may be required to raise more capital.

The Company anticipates needing access to credit in order to support our working capital requirements as it grows. Although interest rates are low, it is still a difficult environment for obtaining credit on favorable terms. If Company cannot obtain credit when needed, it could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If Company is unable to find additional investors willing to provide capital, then it is possible it may cease sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if the Company is not forced to cease its sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

The Company relies on third parties to provide services essential to the success of our business

The Company relies on third parties to provide a variety of essential business functions for it, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that Company will experience delays, defects, errors, or other problems with the third party's work that will materially impact Company's operations and may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect Company's business. As a result, your investment could be adversely impacted by Company's reliance on third parties and their performance.

The Company has been substantially affected by the coronavirus pandemic

In late 2019, a novel coronavirus (COVID-19) surfaced, reportedly, in Wuhan, China. The World Health Organization declared a global emergency on January 30, 2020, with respect to the outbreak and many states and countries, including the United States, have initiated significant restrictions on business operations. We face uncertainty as the ongoing pandemic causes significant disruption to U.S and global markets and business. The overall and long term impacts of the outbreak are unknown and evolving.

This pandemic has already adversely affected our business and this or another pandemic, epidemic or outbreak of an infectious disease in the United States or in another country may adversely affect our business. The spread of a disease could lead to unfavorable economic conditions, which would adversely impact our operations. The extent to which the coronavirus impacts our business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat its impact, among others.

The effects of such a widespread infectious disease and epidemic has already caused and may continue to cause or may cause in the future an overall decline in the U.S. and world economy as a whole. The actual effects of the spread of coronavirus or of another pandemic are difficult to assess as the actual effects will depend on many factors beyond the control and knowledge of the Company. However, the spread of the coronavirus, if it continues, and any future similar occurrence may cause an overall decline in the economy as a whole and therefore may materially harm our Company long term.

As of the date of this report there is uncertainty as to what long-term restrictions or other effects will occur in the restaurant, bar and hotel business, as well as to distilling and distribution operations in general. There is also uncertainty as to what will happen to in this regard should another health-related outbreak occur in the future.

All of these risks, and many others known or unknown, related to this outbreak, and future outbreaks, pandemics or epidemics, could materially affect the long-term business of the Company and your investment.

The Company is dependent upon its management, founders, key personnel and consultants to execute the business plan, and many of them will have concurrent responsibilities at other businesses such as WCCS

The Company's success is heavily dependent upon the continued active participation of the Company's current executive officers as well as other key personnel and consultants. Many of them will have concurrent responsibilities at other entities such as WCCS. Loss of the services of one or more of these individuals could have a material adverse effect upon the Company's business, financial condition or results of operations. Further, the Company's success and achievement of the Company's growth plans depend on the Company's ability to recruit, hire, train and retain other highly qualified technical and managerial personnel. Competition for qualified employees among companies in the industries in which the Company participates is intense, and the loss of any of such persons, or an inability to attract, retain and motivate any additional highly skilled employees required for the expansion of the Company's activities, could have a materially adverse effect on it. The inability to attract and retain the necessary personnel, consultants and advisors could have a material adverse effect on the Company's business, financial condition or results of operations.

Changes in employment laws or regulation could harm the Company's performance

Various federal and state labor laws govern the Company's relationship with our employees and affect operating costs. These laws may include minimum wage requirements, overtime pay, healthcare reform and the implementation of various federal and state healthcare laws, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act. This risk of changes in labor laws or regulation also applies to the producers and partner distillery of AsomBroso tequilas in Mexico.

The Company's bank accounts will not be fully insured

The Company's regular bank accounts each have federal insurance that is limited to a certain amount of coverage. It is anticipated that the account balances in each account may exceed those limits at times. In the event that any of Company's banks should fail, the Company may not be able to recover all amounts deposited in these bank accounts.

The Company faces significant competition in the United States

The Company faces significant competition in the United States tequila marketplace. According to the Consejo Regulador del Tequila (The Tequila Regulatory Council) located in Mexico, there are 1,462 tequilas certified to use the geographic indication "Tequila" see "Intellectual Property" below. Though some of these may not be imported to domestic markets, the number of tequilas imported and sold in the United States surely is close to such number. The result of this is a highly-saturated and competitive market. The Company may have difficulty increasing market share for AsomBroso tequilas, which may adversely affect revenues.

A disruption in distillation or importation activities could have a material adverse effect

A prolonged disruption to distillation or importation activities (e.g., due to fire, industrial action, adverse importation issues, or any other cause) at its distillation site(s) could have a material adverse effect on the Company's ability to produce its products. This could have a material adverse effect on the Company's consolidated financial results and on your investment.

The Company and its distributors could have licensing, legal or regulatory problems

The Company or its distributors could lose their licenses to import or sell alcoholic beverages or have their hours of operation curtailed as a result of hearings of the licensing boards in jurisdictions where they are located or as a result of any changes in legislation governing licensing in the various jurisdictions with a material adverse effect on the Company's consolidated financial results and on your investment.

The Company's expenses could increase without a corresponding increase in revenues

The Company's operating and other expenses could increase without a corresponding increase in revenues, which could have a material adverse effect on the Company's consolidated financial results and on your investment. Factors which could increase operating and other expenses include, but are not limited to (1) increases in the rate of inflation, (2) increases in taxes and other statutory charges, (3) changes in laws, regulations or government policies which increase the costs of compliance with such laws, regulations or policies, (4) significant increases in insurance premiums, (5) increases in borrowing costs, and (5) unexpected increases in costs of supplies, goods, materials, construction, equipment or distribution.

The Company is reliant on its third-party distillery to maintain an amicable relationship, craft products pursuant to exact specifications and protect trade secrets

The Company has executed an agreement with its third-party distillery in Mexico and will be reliant on a positive and continuing relationship with this distillery. Termination of this agreement, variations in its terms or the failure of this distillery to comply with its obligations under this agreement (including if the distillery were to become insolvent) could have a material adverse effect on the Company's consolidated financial results and on your investment.

In addition, the Company, at the direction and under the supervision of Richard Gamarra, relies on its third-party distillery, Tequila Selecto Distillery, to craft its Asombroso tequilas pursuant to blending techniques provided by the Company. The Company trusts that the Tequila Selecto Distillery will (i) craft its Asombroso tequilas exactly as directed so that the integrity and taste of the products are maintained and (ii) use reasonable efforts to protect these trade secrets. On balance, the Company cannot assure you that Tequila Selecto Distillery will (i) produce products that are uniform in taste and (ii) not unintentionally or willfully, disclose the Company's trade secrets to competitors or other third parties. Variations in the blending techniques or failure of the distillery to maintain trade secrets could have a material adverse effect on the Company's consolidated financial results and on your investment.

Finally, until June 23, 2021 the Entailment and Joint Responsibility Agreement ("EJR Agreement") did not accurately describe the business relationship between the Company and Tequila Selecto Distillery. On July 1, 2021 the Company and Tequila Selecto Distillery entered into a Retroactive Addendum dated April 27, 2020 (the "Addendum") to accurately reflect the business relationship between the parties. Further, as of June 24, 2021 the Company received a certificate of good standing from Tequila Selecto Distillery stating that the Company is in good standing with Tequila Selecto Distillery pursuant to their agreed upon terms.

Increased costs could affect the Company

An increase in the cost of raw materials, including agave, or energy could affect the Company's profitability. Commodity and other price changes may result in unexpected increases in the cost of raw materials, glass bottles and other packaging materials used by the Company. This includes the proprietary decanters in which AsomBroso tequilas are housed. The Company may also be adversely affected by shortages of raw materials or packaging materials. In addition, energy cost increases could result in higher transportation, freight and other operating costs. The Company may not be able to increase its prices to offset these increased costs without suffering reduced volume, sales and operating profit, and this could have an adverse effect on your investment.

Inability to maintain and enhance product image

It is important that the Company maintains and enhances the image of its existing and new products. The image and reputation of the Company's products may be impacted for various reasons including litigation, complaints from regulatory bodies resulting from quality failure, illness or other health concerns. Such concerns, even when unsubstantiated, could be harmful to the Company's image and the reputation of its products. From time to time, the Company may receive complaints from customers regarding products purchased from the Company. The Company may in the future receive correspondence from customers requesting reimbursement. Certain dissatisfied customers may threaten legal action against the Company if no reimbursement is made. The Company may become subject to product liability lawsuits from customers alleging injury because of a purported defect in products or sold by the Company, claiming substantial damages and demanding payments from the Company. The Company is in the chain of title when it distributes products, and therefore

is subject to the risk of being held legally responsible for them. These claims may not be covered by the Company's insurance policies. Any resulting litigation could be costly for the Company, divert management attention, and could result in increased costs of doing business, or otherwise have a material adverse effect on the Company's business, results of operations, and financial condition. Any negative publicity generated as a result of customer complaints about the Company's products could damage the Company's reputation and diminish the value of the Company's brand, which could have a material adverse effect on the Company's business, results of operations, and financial condition, as well as your investment. Deterioration in the Company's brand equity (brand image, reputation and product quality) may have a material adverse effect on its consolidated financial results as well as your investment.

The tequila segment of the spirits industry is subject to both state and federal regulatory authorities

The tequila segment of the spirits industry is subject to both state and federal regulatory authorities. Since the Company's products are imported from Mexico, there is risk of vulnerability if stringent trade or tariffs materially interrupt the Company's business model. The probability of such occurring is low due to the recently enacted United States-Mexico-Canada Trade Agreement, set to expire in 2036. Trade tensions between the United States and China have affected the Cost of Goods Sold for some AsomBroso Tequila products due to an increased cost for decanter importation – however, even if trade from China to the United States is fully prohibited, the Company could still produce decanters domestically.

Regulatory and legal hurdles

The operation of a distillery and spirits importer, wholesale and retail distribution of spirits will be subject to obtaining a liquor license or other licensure in the countries and states in which such operations take place. An unanticipated delay or unexpected costs in obtaining or renewing such licenses, or unanticipated hurdles which have to be overcome or expenses which have to be paid, could result in a material adverse effect on the Company's business plan and consolidated financial results and on your investment.

Government and other campaigns and laws could reduce demand

Government-sponsored campaigns and campaigns by other third parties against excessive drinking, licensing reforms relating to the sale of alcoholic beverages and changes in drunk driving laws and other laws may reduce demand for the Company's products and any change in the brewing legislation and other legislation could have an impact upon present and future products which the Company may produce, which could have a material adverse effect on the Company's financial results and on your investment.

The Company may be unable to manage their growth or implement their expansion strategy

The Company may not be able to expand the Company's products offerings, the Company's markets, or implement the other features of the Company's business strategy at the rate or to the extent presently planned. The Company's projected growth will place a significant strain on the Company's administrative, operational and financial resources. If the Company is unable to successfully manage the Company's future growth, establish and continue to upgrade the Company's operating and financial control systems, recruit and hire necessary personnel or effectively manage unexpected expansion difficulties, the Company's consolidated financial condition and consolidated results of operations could be materially and adversely affected.

The Company relies upon trade secret protection to protect its intellectual property; it may be difficult and costly to protect the Company's proprietary rights and the Company may not be able to ensure their protection

The Company currently relies on trade secrets for its product recipes. While the Company uses reasonable efforts to protect these trade secrets, the Company cannot assure that its employees, consultants, contractors or advisors will not, unintentionally or willfully, disclose the Company's trade secrets to competitors or other third parties. In addition, courts outside the United States are sometimes less willing to protect trade secrets. Moreover, the Company's competitors may independently develop equivalent knowledge, methods and know-how. If the Company is unable to defend the Company's trade secrets from others use, or if the Company's competitors develop equivalent knowledge, it could have a material adverse effect on the Company's business. Any infringement of the Company's proprietary rights could result in significant litigation costs, and any failure to adequately protect the Company's proprietary rights could result in the Company's competitors offering similar products, potentially resulting in loss of a competitive advantage and decreased revenue. Existing patent, copyright, trademark and trade secret laws afford only limited protection. In addition, the laws of some foreign countries do not protect the Company's proprietary rights to the same extent as do the laws of the United States. Therefore, the Company may not be able to protect the Company's proprietary rights against unauthorized third-party use. Enforcing a claim that a third party illegally obtained and is using the Company's trade secrets could be expensive and time consuming, and the outcome of such a claim is unpredictable. Litigation may be necessary in the future to enforce the Company's intellectual property rights, to protect the Company's trade secrets or to determine the validity and scope of the proprietary rights of others. This litigation could result in substantial costs and diversion of resources and could materially adversely affect the Company's future operating results.

The Company needs to increase brand awareness

Due to a variety of factors, the Company's opportunity to achieve and maintain a significant market share may be limited. Developing and maintaining awareness of the Company's brand name, among other factors, is critical. Further, the importance of brand recognition will increase as competition in the Company's market increases. Successfully promoting and positioning the Company's brand, products and services will depend largely on the effectiveness of the Company's marketing efforts. Therefore, the Company may need to increase the Company's financial commitment to creating and maintaining brand awareness. If the Company fails to successfully promote the Company's brand name or if the Company incurs significant expenses promoting and maintaining the Company's brand name, it would have a material adverse effect on the Company's consolidated results of operations.

The Company faces competition in the Company's markets from a number of large and small companies, some of which have greater financial, research and development, production and other resources than does the Company

In many cases, the Company's competitors have longer operating histories, established ties to the market and consumers, greater brand awareness, and greater financial, technical and marketing resources. The Company's ability to compete depends, in part, upon a number of factors outside the Company's control, including the ability of the Company's competitors to develop alternatives that are superior. If the Company fails to successfully compete in its markets, or if the Company incurs significant expenses in order to compete, it would have a material adverse effect on the Company's consolidated results of operations.

A data security breach could expose the Company to liability and protracted and costly litigation, and could adversely affect the Company's reputation and operating revenues

To the extent that the Company's activities involve the storage and transmission of confidential information and/or personally identifiable information ("confidential information"), the Company and/or third-party processors will receive, transmit and store confidential customer and other information. Encryption software and the other technologies used to provide security for storage, processing and transmission of confidential customer and other information may not be effective to protect against data security breaches by third parties. The risk of unauthorized circumvention of such security measures has been heightened by advances in computer capabilities and the increasing sophistication of hackers. Improper access to the Company's or these third parties' systems or databases could result in the theft, publication, deletion or modification of confidential customer and other information. A data security breach of the systems on which sensitive account information is stored could lead to fraudulent activity involving the Company's products and services, reputational damage, and claims or regulatory actions against us. If the Company is sued, in connection with any data security breach, the Company could be involved in protracted and costly litigation. If unsuccessful in defending that litigation, the Company might be forced to pay damages and/or change the Company's business practices or pricing structure, any of which could have a material adverse effect on the Company's operating revenues and profitability. The Company would also likely have to pay fines, penalties and/or other assessments imposed as a result of any data security breach.

SECURITY OWNERSHIP OF MANAGEMENT AND CERTAIN SECURITYHOLDERS

The following table displays, as of December 31, 2021, the voting securities beneficially owned by (1) any individual director or officer who beneficially owns more than 10% of any class of the Company's capital stock, (2) all executive officers and directors as a group and (3) any other holder who beneficially owns more than 10% of any class of the Company's capital stock:

Title of Class	Name of beneficial owner	Address	Amount and nature of beneficial ownership (Shares)	Amount and nature of beneficial ownership acquirable	Percent of Class	Percent of All Classes of Shares
Class A Voting Common Stock	Richard D Gamarra Living Trust	30012 Aventura Rancho Santa Margarita, CA 92688	9,020,988 Shares of Class A Voting Common Stock	0	100%	96%

RECENT OFFERINGS OF SECURITIES AND OUTSTANDING DEBT

The Company has evaluated subsequent events through April 11, 2022, the date the financial statements were available to be issued.

- As of August 14, 2020, California Tequila, Inc. successfully completed its Regulation CF raise in the amount of \$1,067,653 and sold 306,603 shares of Class B Non-Voting Common Stock on StartEngine Capital, LLC. The proceeds from that offering were used to market products, fund operating capital, expand operations domestically and expand operations internationally. The Company relied on Section 4(a)(6) of the Securities Act.
- On April 19, 2020, California Tequila, Inc., received an SBA Loan in the amount of \$416,500 with an interest rate 3.75%. The monthly payment is \$2,030, including principal and interest. The balance of principal and interest will be payable 30 years from the date of the promissory note. As of December 31, 2020, the current amount outstanding is \$416,600. The Company notes that this loan is not eligible for forgiveness.
- In 2021, the Company initiated a Regulation A+ offering and issued 290,546 shares of Class B non-voting Common Stock at a price of \$8.00 per share. As of December 31, 2021, the Company has received net proceeds of \$1,488,871 after offering costs and has a subscription receivable of \$90,973 pertaining to this offering, which was received in 2022. In February 2022 the Company closed its Regulation A+ offering

DESCRIPTION OF CAPITAL STOCK

General Description

The following description summarizes important terms of the Company's capital stock. This summary does not purport to be complete and is qualified in its entirety by the provisions of the Certificate of Amendment to the Articles of Incorporation and its Bylaw. For a complete description of the Company's capital stock, you should refer to its Certificate of Amendment to the Articles of Incorporation, Bylaws, and applicable provisions of the California General Corporation Law.

The Company's authorized capital stock consists of two classes of common stock, 20,000,000 shares of Class A Voting Common Stock, at no par value per share, and \$15,000,000 shares of Class B Non-Voting Common Stock, at no par value per share.

As of December 31, 2021, the Company had 8,150,000 shares and 597,149 shares of Class A and Class B Common Stock issued and outstanding, respectively.

Class A Voting Common Stock

Dividend Rights: The Board does not anticipate distributions of any kind. If the Board does make a distribution, the Board shall specify the amount of the distribution to the Shareholders. The distribution to each Shareholder will be made to the Shareholder in proportion with the pro-rata percentage of ownership of the Company by the Shareholder. If there are additional details regarding the distribution, those details will be addressed by the Board before or at the time of distribution.

Voting Rights: Each share of Class A Voting Common Stock will be entitled to one vote per share.

Class B Non-Voting Common Stock

Dividend Rights: The Board does not anticipate distributions of any kind. If the Board does make a distribution, the Board shall specify the amount of the distribution to the Shareholders. The distribution to each Shareholder will be made to the Shareholder in proportion with the pro-rata percentage of ownership of the Company by the Shareholder. If there are additional details regarding the distribution, those details will be addressed by the Board before or at the time of distribution.

Voting Rights: No voting rights are attached to the Class B Non-Voting Common Stock of the Company offered through this Offering.

Liquidation Rights: Class B Non-Voting Common Stock do not have prioritized liquidation rights. Generally secured creditors have the highest liquidation rights, followed by general creditors, and finally common stockholders, like Class B Non-Voting Common Stock Shareholders.

Preemptive Rights: Class B Non-Voting Common Stock have no preemptive rights to securities made through future offerings.

Conversion Rights: Class B Non-Voting Common Stock do not have conversion rights.

Redemption Provision: Class B Non-Voting Common Stock are not redeemable.

Sinking Fund Provisions: Sinking fund provisions do not apply to the Class B Non-Voting Common Stock.

Liability to Further Calls or Assessment by the Issuer: Class B Non-Voting Common Stock are not subject to additional capital calls or assessment by the Company.

Cumulative Voting: Class B Non-Voting Common Stock do not have cumulative voting rights.

Restrictions on Alienability: Shares of the Company's stock will be uncertificated, as provided under California law, and shall be entered in the books of the Company and registered as they are issued.

Within a reasonable time after the issuance or transfer of uncertificated shares, the Company shall send to the registered owner thereof a written notice (which may be in electronic form) that shall set forth the name of the Company, that the Company is organized under the laws of the State of California, the name of the Shareholder, the number and class (and the designation of the series, if any) of the Shares represented, and any restrictions on the transfer or registration of such Shares imposed by the Company's articles of incorporation, Bylaws, any agreement among shareholders or any agreement between Shareholders and the Company. Such notice shall further set forth the identity of the person responsible for recording the ownership of the uncertificated Shares and the contact details for such person. These disclosures shall be displayed conspicuously on the document. Pursuant to California Corporations Code Sec. 417 (c).

Provisions Discriminating Against Shareholder Owning a Substantial Amount of Securities: There are no provisions discriminating against a Class B Non-Voting Common Stock Shareholder owning a substantial amount of Class B Non-Voting Common Stock.

Rights of Shareholders That May Be Modified Otherwise Than By A Vote of A Majority or More of the Shares of Outstanding, Voting as a Class. Class B Non-Voting Common Stock Shareholders have no voting rights. A majority of the Class A Voting Common Stock is entitled to vote, either in person or by proxy, at any meeting of the voting Shareholders constitutes a quorum for the transaction of business of the Company, except as otherwise provided by the statute.

Provisions Relating to Shareholder Liability - Dissolution of the Company

Cal. Corp. Code Sec. 2011(a)(1)(B) states that causes of action against a dissolved corporation, whether arising before or after the dissolution of the Company, may be enforced against Shareholders if any of the assets of the dissolved corporation have been distributed to Shareholders, to the extent of their pro rata share of the claim or to the extent of the Company's assets distributed to them upon dissolution of the Company, whichever is less.

A Shareholder's total liability under this section may not exceed the total amount of assets of the dissolved Company distributed to the Shareholder upon dissolution of the Company.

Cal. Corp. Code Sec. 2011(a)(2) states that except as set forth in subdivision (c) below, all causes of action against a Shareholder of a dissolved corporation arising under the California Corporations Code are extinguished unless the claimant

commences a proceeding to enforce the cause of action against that Shareholder of a dissolved corporation prior to the earlier of the following:

(A) The expiration of the statute of limitations applicable to the cause of action.

(B) Four years after the effective date of the dissolution of the corporation.

Cal. Corp. Code Sec. 2011(a)(3) states that as a matter of procedure only, and not for purposes of determining liability, Shareholders of the dissolved corporation may be sued in the corporate name of the corporation upon any cause of action against the corporation. This section does not affect the rights of the corporation or its creditors under Section 2009, or the rights, if any, of creditors under the Uniform Voidable Transactions Act, which may arise against the shareholders of a corporation.

Annual Report to Shareholders. The Board of Directors will cause an annual report to be sent to the shareholders not later than 120 days after the close of the fiscal year adopted by the Company. This report will be sent at least 15 days (if third-class mail is used, 35 days) before the annual meeting of shareholders to be held during the next fiscal year and in the manner specified in the Bylaws. The annual report will contain a balance sheet as of the end of the fiscal year and an income statement.

What it means to be a minority holder

In our company, the class and voting structure of our stock has the effect of concentrating voting control with a few people along with a small number of shareholders. As a result, these few people collectively have the ability to make all major decisions regarding the company. As a holder of the common stock, you will grant a proxy to the CEO for your voting rights, therefore you will have no voting rights. You will hold a minority interest in the company and the founders combined with a few other shareholders will still control the company. In that case, as a minority holder you will have limited ability, if at all, to influence our policies or any other corporate matter, including the election of directors, changes to our company's governance documents, additional issuances of securities, company repurchases of securities, a sale of the company or of assets of the company or transactions with related parties.

Dilution

An investor's stake in a company could be diluted due to the company issuing additional shares (including upon the conversion of convertible securities). In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as the Regulation A Offering, an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock.

If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

The type of dilution that hurts early-stage investors most occurs when the company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings. An example of how this might occur is as follows (numbers are for illustrative purposes only):

- In June 2017 Jane invests \$20,000 for shares that represent 2% of a company valued at \$1 million.
- In December the company is doing very well and sells \$5 million in shares to venture capitalists on a valuation (before the new investment) of \$10 million. Jane now owns only 1.3% of the company but her stake is worth \$200,000.
- In June 2018 the company has run into serious problems and in order to stay afloat it raises \$1 million at a valuation of only \$2 million (the "down round"). Jane now owns only 0.89% of the company and her stake is worth \$26,660.

Valuation

The Company determined the share price of its Class B Non-Voting Common Stock in its Regulation CF offering based on its own assessment of the company's current and future value, as well as relative risk for investors investing in similarly situated companies.

Transfer Restrictions – Regulation Crowdfunding

Securities purchased through a Regulation Crowdfunding offering, including any securities into which they convert, are not freely transferable for one year after the date of purchase of the securities, except in the case where they are transferred:

1. To the company that sold the securities
2. To an accredited investor
3. As part of an offering registered with the Commission
4. To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser, or in connection with the death or divorce of the purchaser.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Annual Report. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled "Risk Factors" and elsewhere in this Annual Report.

Overview

For the year ended December 31, 2021, Compared to December 31, 2020

Financial Condition

You should read the following discussion and analysis of the Company financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Circular. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled "Risk Factors" and elsewhere in this Offering Circular.

Results of Operations

Revenues for the year ended December 31, 2020, were \$2,574,189 compared to \$1,379,225 for the year ended December 31, 2020, an increase of \$1,194,964 or 87%. The increase in revenues was primarily due to the increase in global tequila consumption, in spite of the ongoing pandemic and less availability for on-premises events. See "Trends" for additional information.

Cost of goods sold are the cost of our Tequila and Whiskey goods, supplies and materials, shipping and materials related to our revenues. Cost of goods sold for the year ended December 31, 2021, was \$1,893,398 compared to \$825,366 for the year ended December 31, 2020, an increase of \$1,068,032, or 129%. The increase resulted from the increase in production to prepare for Q4 demand that is the highest of the year due to the holidays. The COVID-19 pandemic restrictions also affected manufacturing and transportation time related to cost of goods sold, causing it to increase. Additionally, the increased global demand of agave resulted in increased agave costs effecting cost of goods sold to increase. The Company's wholesale distributor product price increase did not become effective until 2022. As a percentage of total revenues for the year ended December 31, 2021, costs of goods sold was 74% compared to 60% for the year ended December 31, 2020.

SG&A expenses consist primarily of wages and salaries, payroll expenses, insurance, legal and professional services, including consulting, legal, and accounting fees, rent, utilities, office supplies plus travel expense and other general corporate expenses. Advertising and Marketing expenses for the year ended December 31, 2021, were \$254,790 compared to \$114,442 for the year ended December 31, 2020, a 123% increase of \$140,348. The spike in advertising and marketing expenses was caused by the Company adapting to the new normal caused by the pandemic by spending to increase its online presence and sales. In addition, \$46,534.73 was spent on marketing expenses related to the Regulation A offering.

General and administrative (G&A) expenses for the year ended December 31, 2020 were \$4,733,258 compared to \$658,930 for the year ended December 31, 2020, an increase of \$4,074,328. The increase was due primarily to the weighted-average grant date fair value of warrants issued in 2021 at \$7.22 per share. Stock-based compensation expenses for warrants that vested in 2021 were \$3,177,522, which was included in general and administrative expenses.

Our net loss for the year ended December 31, 2021, was \$(4,323,230) compared to \$(232,259) for the year ended December 31, 2020. The increase in net loss was due to stock-based compensation expenses for warrants that vested in 2021 which was \$3,177,522.

Liquidity and Capital Resources

Our total current assets at December 31, 2021 were \$1,990,892, which included accounts receivable in the amount of \$852,910. As of December 31, 2020, total current assets were \$1,273,014 which included accounts receivable in the amount of \$541,424. The Company also receives loans from its founder from time to time to meet operational needs.

Operating Activities

For the year ended December 31, 2021, cash used in operating activities was in the amount of \$(4,323,230) compared to \$(232,259) for the year ended December 31, 2020. The increase in cash used in operating activities was mainly due to an increase in stock-based compensation. The increase in cash used in operating activity was also caused by an increase in a bad debt expense, i.e. writing off receivables that were deemed uncollectible, increasing from \$38,048 for the year ended December 31, 2020, to \$147,287 for the year ended December 31, 2021.

Investing Activities

For the year ended December 31, 2021, cash used in investing activities increased to \$46,470 from \$32,906 as of the year ended December 31, 2020. The majority of the increase in cash used in investing activities was due to the Company purchasing property and equipment.

Financing Activities

For the year ended December 31, 2021, cash provided by financing activities increased to \$1,544,134 from \$1,167,258 for the year ended December 31, 2020. The increase in cash provided by financing activities was a result of the Regulation A Offering.

In 2020, the Company completed a Regulation CF offering and issued 306,603 shares of Class B non-voting Common Stock for gross proceeds of \$1,067,653 at a price of \$3.95 per share. As of December 31, 2020, the Company has a subscription receivable balance of \$92,989 pertaining to this offering, which was received in 2021.

In 2021, the Company initiated a Regulation A offering and issued 290,546 shares of Class B non-voting Common Stock at a price of \$8.00 per share. As of December 31, 2021, the Company has received net proceeds of \$1,488,871 after offering costs and has a subscription receivable of \$90,973 pertaining to this offering, which was received in 2022. In February 2022 the Company closed its Regulation A offering. As of the date of this report, the Company has received proceeds of \$1,544,695.77 and issued 297,525 shares of Class B non-voting Common Stock.

In September 2016, the Company entered into a loan agreement for \$100,000. The loan was guaranteed by Richard Gamarra, the previous sole member of the Company. The loan incurs interest at 10% per annum and was originally due on March 31, 2017, however, terms have been extended and the note is presently due on demand. In 2019, an aggregate of \$30,000 in repayments were made by Richard Gamarra on behalf of the Company. As of December 31, 2021, and 2020, the amount due to related party is \$30,000. In 2021, the loan to Richard was netted with advances made to him. The principal balance was reduced by product sales made to a customer owned by the noteholder. As of December 31, 2021, the Company had \$37,727 of the principal balance outstanding, which was fully repaid in 2021.

On April 19, 2020, the Company received an SBA Loan in the amount of \$416,500 with an interest rate 3.75%. The monthly payment is \$2,030, including principal and interest. The balance of principal and interest will be payable 30 years from the date of the promissory note. As of December 31, 2021, amount outstanding is \$414,470, of which \$24,360 was included as a current liability. The Company notes that this loan is not eligible for forgiveness.

Plan of Operations

The Company currently operates and sells its products in a limited fashion within prominent US states, specifically those containing the highest annual tequila consumption markets. Even with the limited distribution of AsomBroso products relative to the national domestic tequila market, the Company has had consistent year-over-year case sale growth and consistent corporate profits growth.

One of the most exciting developments has been the recent product placement of AsomBroso tequilas in national retail chains Kroger, Total Wine & More, BevMo, and Costco locations. Since Costco has started carrying AsomBroso tequilas, the sales numbers for the Costco-carried products has steadily increased.

In late 2018, the Company repositioned the price point of Gran Reserva Extra Anejo (lowering MSRP from \$199.99 to \$89.99) to compete head-to-head with Don Julio 1942. The modification of the price point caused Gran Reserva Extra Anejo to be one of the Company's two flagship products along with La Rosa Reposado. Together, these two products account for approximately 74% of the Company's product mix as of the date of this Offering Circular.

The Company plans on continuing marketing and sales efforts – focusing on the highly profitable Gran Reserva Extra Anejo product.

The Company has entered into a National Alliance Distribution Agreement with Republic National Distribution Company ("RNDC") and intends to expand its distribution network, to 20 new states by the third quarter of 2022. The Company intends to expand to Canada, Europe, Asia and Australia over the next 12 months. The Company also intends to expand awareness and consumer interest via social

media marketing, consumer tasting, trade tasting, and in-person marketing events. Below is a comprehensive plan for employee expansion and increased distribution.

Employee Expansion Plan

Further, the Company intends to continue to expand its employee-base. The goal of this expansion is to rapidly expand product distribution and awareness throughout the various domestic markets/states. The company has hired and completed its first round of employee expansion with current regional sales teams covering the top ten U.S. tequila markets. The second round of hiring will bolster the existing salesforce in the penetrated top markets and expanded sales teams in unrepresented domestic markets. With each round of salesforce expansion and as demand for AsomBroso tequilas increases, the Company intends to hire persons necessary to support increased sales volumes.

Projected Employee Hiring Schedule

Year 1

- Chief Financial Officer
- Florida Sales Market Manager - South
- Texas Sales Market Manager - North
- Arizona/Nevada Sales Director
- Canada Sales Director
- Control State Sales Director
- Company Brand Manager

Year 2

- North East Regional Sales Director
- South East Regional Sales Director
- Mid-West Regional Sales Director
- Southwest Regional Sales Director
- Rocky Mountain Regional Sales Director

Distribution of Company Spirits

The Company imports AsomBroso tequilas from Jalisco, Mexico and sells to wholesalers who commercialize the Company's products in the United States through retailers. The AsomBroso brand is at an expansion stage with proven market and account penetration. The Company currently has its products distributed in thirty states and five foreign countries. Distribution of alcohol is traditionally done through regional distributors who are licensed in their respective jurisdictions. These distributors in turn sell to the retail establishments including retail liquor stores and restaurants.

Domestic Distributors

AsomBroso is currently sold in national chain stores such as Kroger, Costco, Total Wine & More, and BevMo!, with an average 85% reorder rate. The Company has purchase orders and opportunities to sell its products in many off-premise chains such as Ralph's, Safeway, Vons, Albertson's and Pavilions. AsomBroso has the potential to compete on a national level and to attract national distributors in our future markets. The Company utilizes sister-company WCCS for all California distribution of Company products. Richard Gamarra is a minority shareholder of WCCS. Mr. Gamarra and Mr. Ulmer serve as CEO and President of WCCS, respectively. In addition to AsomBroso tequilas, WCCS distributes over 250 unaffiliated brands.

As of the date of this report, the Company utilizes the domestic distributors as stated in the table below.

Name of Distributor	State(s)
West Coast Craft Spirits, Inc.	CA
Moon Distributors	AR
Johnson Brothers	NV, IN, MN, NY, NJ
Speakeasy Beverage	KS, MO
RNDC	AZ, AL, CO, FL, GA, IA, LA, MT, NE, NM, NC, TX, WY, NC
Southern/Gazers	OR, ME
Empire Distributors	TN

Wisconsin Wine	WI
Speakeasy Distribution	KS
Eder Brothers/AS Goodman	CT, RI

International Distribution

The Company currently distributes its products in five international markets (not including the country from which it is imported, Mexico), Germany, Japan, South Korea, Dominican Republic and the United Kingdom. The Company intends to expand distribution of its spirits into Canada with in the next twelve months.

Name of Distributor	Country
Casa Tequila	Germany
Ezo Beer of Japan	Japan
The Whiskey World	United Kingdom
Infantina Ltd. South Korea	Venezia Distributors, LLC. Dominican Republic

Upon purchase of a product on the AsomBroso Tequila website, the Company utilizes another company, Great American Craft Spirits, to facilitate the sale as and shipment of the product to the purchaser.

Special Characteristics of the Company's Operations

AsomBroso Tequila is the Company's flagship brand and carries special weight within the domestic tequila market. Though the tequila market is highly competitive, AsomBroso Tequila will continue to distinguish itself as an ultra-premium tequila. The Company will continue to drive the AsomBroso Tequila brand in such a manner to ensure retention of its top position in the ultra-premium tequila category. The Company will continue to maintain its intellectual property, minimizing the risk of expiration and loss of value. Furthermore, the design patents with the China Patent Office and the United States Patent and Trade Office ("USPTO") mitigate the risk of infringing or substantially similar decanters (containing lower quality tequila) from degrading the brand quality and value.

Trend Information

In spite of the ongoing pandemic and less availability for on-premises events, Tequila consumption continues to surge to new heights. Specifically:

- For the year ended December 31, 2021, tequila sales volume increased to 26.7 million (9 liter) cases up from 22.7 million cases.
- Tequila's largest-selling premium labels have seen an influx of 100% blue agave extensions, which have carved out a significant share in a space once reserved for mixtos, the less expensive (not 100% agave) tequilas.
- Tequila shipments from Mexico to the U.S. increased 13.4% in the year-to-date through November 2021, with 100% blue agave offerings comprising over two-thirds of that volume—up from less than 60% in 2020—according to the Consejo Regulador del Tequila. Year-to-date Tequila volumes in control states rose 22.7% through October 2021, according to NABCA.
- Tequila and mezcal was the second-fastest growing spirits category in 2021, trailing only premixed cocktails. Agave-based spirits saw sales climb 30.1% compared with the prior year to \$5.2 billion, according to the Distilled Spirits Council of the U.S.
- Tequila could soon overtake vodka as America's favorite liquor, fueled by consumers' desire for pricey bottles of agave-based spirits.
- Tequila is the second-largest category by revenue behind No. 1 vodka, which has been the top-selling spirit in the U.S. since the 1970s. At \$7.3 billion in revenue, vodka is still selling roughly \$2 billion more annually than tequila and mezcal, but agave-based spirits could be on track to outstrip it in just a few years.

Due to the aforementioned factors, the Company believes that increased consumption of tequila will continue to grow and shape the tequila market domestically and globally.

REGULATORY INFORMATION

Disqualification

No disqualifying events have been recorded with respect to the company or its officers or directors.

Regulation A filings

The company also makes filings under Regulation A under the Securities Act. You can find those filings, including exhibits such as corporate documents and material contracts, at www.sec.gov.

Notes to Financial Statements	6

INDEPENDENT ACCOUNTANT'S REPORT

To the Board of Directors
California Tequila, Inc.
Rancho Santa Margarita, California

Opinion

We have audited the financial statements of California Tequila, Inc., which comprise the balance sheets as of December 31, 2021 and 2020, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of California Tequila, Inc., as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of California Tequila, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about California Tequila, Inc.'s ability to continue as a going concern for period of twelve months from the end of the year ended December 31, 2021.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of California Tequila, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about California Tequila, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

CALIFORNIA TEQUILA INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019

1. NATURE OF OPERATIONS

California Tequila LLC was formed on May 20, 2002, in the state of California. The financial statements of California Tequila LLC, (which may be referred to as the “Company”, “we”, “us”, or “our”) are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters is located in the Rancho Santa Margarita, California.

California Tequila was created to import and distribute Ricardo’s AsomBroso brand tequila, a high-end ultra premium tequila made in the Jalisco region of Mexico. Products are distributed worldwide. We have been awarded multiple honors from the Robb Report’s “Best of the Best” and “Top Tequila” in the San Francisco World Spirits Competition.

On April 27, 2020, the Company converted from a LLC to a California C corporation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). The accompanying unaudited financial statements do not include all the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the unaudited financial statements for the years presented have been included.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Significant estimates inherent in the preparation of the accompanying financial statements include inventory and cost of goods sold, equity transactions and contingencies.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

CALIFORNIA TEQUILA INC.**NOTES TO FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019**

The Company had certain customers whose revenue individually represented 10% or more of the Company's total revenue. For the years ended December 31, 2021, and 2020, one customer accounted for 39% and 64% of revenue, respectively. As of December 31, 2021, and 2020, one customer accounted for 68% and 88% of accounts receivable.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks. The Company's cash are deposited in demand accounts at financial institutions that management believes are creditworthy.

Accounts Receivable

Accounts receivable due from customers are uncollateralized customer obligations due under normal trade terms requiring payment on receipt of invoice or within fifteen days from the invoice date. Accounts receivable are stated at the amount billed to the customer. Payments of accounts receivable are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change. During the years ended December 31, 2021, and 2020, the Company recorded bad debt expense of \$147,287 and \$38,048, respectively, to write off receivables deemed uncollectible.

Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined on an average cost basis. Inventory includes finished goods and work in progress.

Property and Equipment

Property and equipment are stated at cost. Normal repairs and maintenance costs are charged to earnings as incurred and additions and major improvements are capitalized. The cost of assets retired or otherwise disposed of, and the related depreciation are eliminated from the accounts in the period of disposal and the resulting gain or loss is credited or charged to earnings.

Depreciation is computed over the estimated useful lives of the related asset type using the straight-line method for financial statement purposes. The estimated service lives for property and equipment ranges from five to seven years. Leasehold improvements are amortized over the lesser of the useful life of the asset or the lease term.

Impairment of Long-lived Assets

Long-lived assets such as property and equipment are periodically evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We look for indicators of a trigger event for asset impairment and pay special attention to any adverse change in the extent or manner in which the asset is being used or in its physical condition. Assets are grouped and evaluated for impairment at the lowest level of which there are identifiable cash flows, which is generally at a location level. Assets are reviewed using factors including, but not limited to, our future operating plans and projected cash flows. The determination of whether impairment has occurred is based on an estimate of undiscounted future cash flows directly related to the assets, compared to the carrying value of the assets. If the sum of the undiscounted future cash flows of the assets does not exceed the carrying value of the assets, full or partial impairment may exist. If the asset carrying amount exceeds its fair value, an impairment charge is recognized in the amount by which the carrying amount exceeds the fair value of the

CALIFORNIA TEQUILA INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019

asset. Fair value is determined using an income approach, which requires discounting the estimated future cash flows associated with the asset.

Income Taxes

Income taxes are provided for the tax effects of transactions reporting in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of receivables, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all the deferred tax assets will not be realized.

There is a 100% valuation allowance against the net operating losses generated by the Company on December 31, 2021. The Company is taxed as a "C" Corporation as it converted from a LLC in April 2020.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of December 31, 2021, the unrecognized tax benefits accrual was zero. The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred.

Revenue Recognition

ASC Topic 606, "Revenue from Contracts with Customers" establishes principles for reporting information about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts to provide goods or services to customers.

Revenues are recognized when control of the promised goods or services are transferred to a customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those goods or services. The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its agreements:

- 1) Identify the contract with a customer
- 2) Identify the performance obligations in the contract
- 3) Determine the transaction price
- 4) Allocate the transaction price to performance obligations in the contract; and
- 5) Recognize revenue as the performance obligation is satisfied.

The Company generates revenues by selling liquor products. The Company recognizes revenue from product sales when the goods have been delivered to the customer and the Company has satisfied its performance obligation.

Advertising

The Company expenses advertising costs as they are incurred.

CALIFORNIA TEQUILA INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments included in current assets and current liabilities (such as cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value due to the short-term nature of such instruments.

The inputs used to measure fair value are based on a hierarchy that prioritizes observable and unobservable inputs used in valuation techniques. These levels, in order of highest to lowest priority, are described below:

Level 1—Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2—Observable prices that are based on inputs not quoted on active markets but corroborated by market data.

Level 3—Unobservable inputs reflecting the Company's assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Subsequent Events

The Company considers events or transactions that occur after the balance sheets date, but prior to the issuance of the financial statements to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through April 11, 2022, which is the date the financial statements were issued.

Recently Issued and Adopted Accounting Pronouncements

In February 2019, FASB issued ASU No. 2019-02, leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than twelve months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In June 2019, FASB amended ASU No. 2019-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In August 2019, amendments to existing accounting guidance were issued through Accounting Standards Update 2019-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

CALIFORNIA TEQUILA INC.**NOTES TO FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019**

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

3. INVENTORY

Inventory was comprised of the following items:

As of December 31,	2021	2020
Finished goods	\$ 800,898	\$ 647,714
Work in progress	260,977	57,457
Inventories, net	\$ 1,061,875	\$ 705,171

As of December 31, 2021, and 2020, the Company had \$7,600 and \$259,011 in tequila barrel inventory, which consists of tequila product held in barrels for several years before being sold. As such, the amounts are included in non-current assets on the balance sheets.

4. PROPERTY AND EQUIPMENT

As of December 31, 2021, and 2020, property and equipment, net consist of:

As of December 31,	2021	2020
Office and warehouse equipment	\$ 39,025	\$ 36,167
Machinery	5,478	-
Property and equipment, at cost	44,503	36,167
Less: Accumulated depreciation	(13,273)	(1,485)
Property and Equipment, Net	\$ 31,230	\$ 34,682

Depreciation expenses for property and equipment for the years ended December 31, 2021, and 2020 were \$11,788 and \$1,485, respectively.

5. LOAN PAYABLE**Loan Payable**

In September 2016, the Company entered into a loan agreement for \$100,000. The loan was guaranteed by Richard Gamarra, the previous sole member of the Company. The loan incurs interest at 10% per annum and was originally due on March 31, 2017, however, terms have been extended and the note is presently due on demand.

In 2019, an aggregate of \$30,000 in repayments were made by Richard Gamarra on behalf of the Company. As of December 31, 2021, and 2020, the amount due to related party is \$30,000. In 2021, the loan to Richard was netted with advances made to him.

CALIFORNIA TEQUILA INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019

The principal balance was reduced by product sales made to a customer owned by the noteholder. As of December 31, 2021, the Company had \$37,727 of the principal balance outstanding, which was fully repaid in 2021.

SBA Loan

On April 19, 2020, California Tequila Inc., received an SBA Loan in the amount of \$416,500 with an interest rate 3.75%. The monthly payment is \$2,030, including principal and interest. The balance of principal and interest will be payable thirty years from the date of the promissory note. As of December 31, 2021, \$414,470 was outstanding, of which \$24,360 was included as a current liability.

6. CAPITALIZATION AND EQUITY TRANSACTIONS

On June 30, 2020, the articles of incorporation were amended and California Tequila, Inc. is authorized to issue a total of 20,000,000 Class A voting Common Stock shares and 1,500,000 Class B non-voting Common Shares, both at a par value \$0.01.

In 2020, the Company completed a Regulation CF offering and issued 306,603 shares of Class B non-voting Common Stock for gross proceeds of \$1,067,653 at a price of \$3.95 per share. As of December 31, 2020, the Company has a subscription receivable balance of \$92,989 pertaining to this offering, which was received in 2021.

In 2021, the Company initiated a Regulation A+ offering and issued 290,546 shares of Class B non-voting Common Stock at a price of \$8.00 per share. As of December 31, 2021, the Company has received net proceeds of \$1,488,871 after offering costs and has a subscription receivable of \$90,973 pertaining to this offering, which was received in 2022.

As of December 31, 2021, the Company had 8,150,000 shares and 597,149 shares of Class A and Class B Common Stock issued and outstanding, respectively.

During the year ended December 31, 2020, and 2019, the Company issued dividend payments (distributions as a LLC) of \$89,208.

7. STOCK-BASED COMPENSATION

During 2021, the Company entered into employment and board of director agreements with members of management, pursuant to the agreements, the Company granted Common Stock warrants as a form of compensation.

The Company granted an aggregate of 766,100 warrants to purchase shares of Class A Common Stock in 2021. Of this amount, 440,100 warrants vested immediately, 163,000 warrants will vest in January 2022 and 163,000 warrants are subject to performance-based conditions which were not yet met in 2021.

The warrants have an exercise price of \$1.00 per share and expire in ten years. The warrants were valued using the Black-Scholes pricing model with a range of inputs indicated below:

CALIFORNIA TEQUILA INC.**NOTES TO FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019**

As of December 31,	2021
Expected life (years)	5.00
Risk-free interest rate	0.89%
Expected volatility	75%
Annual dividend yield	0%

Expected volatility - There is currently no active external or internal market for the Company's shares of Common Stock. The Company uses the volatility of a publicly traded peer group to estimate the volatility assumption used in the Black-Scholes option pricing model. The volatility is estimated for a period consistent with the expected term of the warrants.

Expected Dividend Yield - The Company has assumed a 0% dividend yield because management does not anticipate the Company will pay regular dividends.

Expected term - The expected term for employee stock options or warrants represents the period that the awards are expected to be outstanding. As the Company does not have sufficient history to estimate the expected life based upon past experience, giving consideration to contractual terms and vesting provisions of the stock-based awards, the expected term was determined utilizing the shortcut method in Staff Accounting Bulletin Topic 107 which is basically the average of the vesting term and the contractual life for the warrant granted.

Risk-free interest rate - The Company based the risk-free interest rate used on the implied yield currently available on U.S. Treasury zero-coupon issued with a remaining term equivalent to the expected term of the stock options.

The weighted-average grant date fair value of the warrants issued in 2021 was \$7.22 per share. Stock-based compensation expenses for warrants that vested in 2021 were \$3,177,522, which was included in general and administrative expenses in the statements of operations.

8. INCOME TAXES

Significant components of the Company's deferred tax assets and liabilities on December 31, 2021 and 2020 are as follows:

As of Year Ended December 31,	2021	2020
Net Operating Loss	\$ 261,868	\$ 53,086
Valuation Allowance	(261,868)	(53,086)
Net Provision for income tax	\$ -	\$ -

As of Year Ended December 31,	2021	2020
Net Operating Loss	\$ 314,954	\$ 53,086
Valuation Allowance	(314,954)	(53,086)
Total Deferred Tax Asset	\$ -	\$ -

Management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets. On the basis of this evaluation, the Company has determined that

CALIFORNIA TEQUILA INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019

it is more likely than not that the Company will not recognize the benefits of the federal and state net deferred tax assets, and, as a result, full valuation allowance has been set against its net deferred tax assets as of December 31, 2021. The amount of the deferred tax asset to be realized could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased.

As of December 31, 2021, the Company had net operating loss ("NOL") carryforwards of approximately \$1,378,000. Utilization of some of the federal and state NOL carryforwards to reduce future income taxes will depend on the Company's ability to generate sufficient taxable income prior to the expiration of the carryforwards. Under the provisions of the Internal Revenue Code, the NOLs and tax credit carryforwards are subject to review and possible adjustment by the IRS and state tax authorities. NOLs and tax credit carryforwards may become subject to an annual limitation in the event of certain cumulative changes in the ownership interest of significant stockholders over a three-year period in excess of 50%, as defined under Sections 382 and 383 of the Internal Revenue Code, as well as similar state provisions. This could limit the amount of tax attributes that can be utilized annually to offset future taxable income or tax liabilities. The amount of the annual limitation is determined based on the value of the Company immediately prior to the ownership change. The Company has not performed a comprehensive Section 382 study to determine any potential loss limitation with regard to the NOL carryforwards and tax credits.

The Company recognizes the impact of a tax position in the financial statements if that position is more likely than not of being sustained on a tax return upon examination by the relevant taxing authority, based on the technical merits of the position. As of December 31, 2021, and 2020, the Company had no unrecognized tax benefits.

The Company recognizes interest and penalties related to income tax matters in income tax expense. As of December 31, 2021, and 2020, the Company had no accrued interest and penalties related to uncertain tax positions.

The Company is subject to examination for its US federal and California jurisdictions for each year in which a tax return was filed.

9. COMMITMENTS AND CONTINGENCIES

Operating Leases

The company pays month-to-month rent for an office space to Tangar 1 LLC.

Rent expenses for the years ended December 31, 2021, and 2020 were \$24,925 and \$26,088, respectively.

Contingencies

The Company's operations are subject to a variety of local and state regulations. Failure to comply with one or more of those regulations could result in fines, restrictions on its operations, or losses of permits that could result in the Company ceasing operations.

Litigation and Claims

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of December 31, 2021, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations.

CALIFORNIA TEQUILA INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2020 AND DECEMBER 31, 2019

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through April 11, 2022, which is the date the financial statements were available to be issued.

In February 2022, the Company closed its Regulation A + offering of Class B non-voting shares on StartEngine.

There have been no other events or transactions during this time which would have a material effect on these financial statements.

11. GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred losses from operations and has accumulated deficit of \$4,229,602 as of December 31, 2021.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results.

Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. During the next twelve months, the Company intends to fund its operations through debt and/or equity financing.

There are no assurances that management will be able to raise capital on terms acceptable to the Company. If it is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of its planned development, which could harm its business, financial condition, and operating results. The accompanying financial statements do not include any adjustments that might result from these uncertainties.
