Pitch

The online dating business is slated to be worth \$12 BILLION worldwide, and continuously rising every year!

Did you know Match gave Tinder a valuation of \$3.4 billion back in 2012?!

If you're looking for:

- Great return on your investment
- A unicorn
- A positive social enterprise that makes money!

I invite you to learn a little more about the company we started last year - [Love The Network](#).

More than 70% of online daters believe that dishonesty is a pervasive issue on these platforms. [\(In 2019 alone Americans were 'Love Scammed' out of 201 Million dollars!\)](#) We saw this dissatisfaction as a chance to innovate, improve, and lead the online dating industry. Not only does [Love The Network](#) have a positive mission, but we also have a competitive edge that gives us the opportunity to rise to the top of this multi-billion dollar industry as a most trusted brand.

We are the *first and only* dating app focused on educating others about [healthy dating](#) and happy relationships, requiring all members to pass a background check- resolving so many concerns around online predators, 'catfishing', fake accounts, and scammers.

Anyone convicted of harassment, stalking, domestic violence, or sexually motivated crimes is not granted access to our App. Future plans include a new web app, in-app video chatting, improved screening/registration/login capabilities, educational content, VR integration, scale the US market, and begin approaching international markets.

We wish we could easily capture the hundreds of people that have reached out us to encourage us to keep going with this project. With your help, we could turn it into millions.

Be part of the growing revolution!

Crowdfunding is a relatively new and evolving method of using the internet to raise capital to support a wide range of ideas and ventures. An entity or individual raising funds through crowdfunding typically seeks small individual contributions from a large number of people. Individuals interested in the crowdfunding campaign - members of the "crowd" - may share information about the project, cause, idea or business with each other and use the information to decide whether to fund the campaign based on the collective "wisdom of the crowd."
