Form F-1 filed October 7, 2020

Business

Our Loan Products, page 168

1. We note the inclusion of the table showing loan principle at origination and early repayment information on page 170. Based on the information presented, it is unclear how the outstanding balance of loans facilitated, as disclosed on page 104, is rolling forward. For example, we note that the Company facilitated RMB 493.7 billion of loans during 2019 with a weighted average contractual tenor of approximately 35 to 36 months. In addition, we note that the outstanding balance of loans at December 31, 2018 was RMB 375.0 billion and the weighted average contractual tenor of loans facilitated during 2018 was also approximately 35 months. Considering the magnitude of these months and

contractual tenor, combined with the fact that the Company received total early repayments of RMB 186.0 billion during 2019, it is unclear why only RMB 462.2 billion is outstanding at December 31, 2019. Please provide us with additional information to reconcile and explain how the outstanding balance at year end has been determined and the average tenor as disclosed is appropriate, considering these various metrics presented.

2. Please tell us why the loan principal at origination column in the table presented on page 170 does not reconcile to the table showing the volume of new loans facilitated on page 169.
3. We note the disclosures that the company is taking steps to mitigate the impact of early repayments, including the charging of early repayment fees in certain circumstances as well as charging monthly service fees based on the outstanding loan balance. Please revise to address when these new policies were implemented, how these policies will impact the large amount of returning customers, as well as the company's recognition of revenue for these newly created monthly service fees.

Products and Partners, page 190

4. We note your response to comment 5 explaining the calculation for your average take rate. Please address the following:
 - Tell us why the average take rates disclosed on page 192 changed from your previous filing. As part of your response, tell us whether the change was due to an error in the previous calculations or due to a change in the definition; and
 - Revise to provide a supplemental table showing the average take rate based only on the Company's portion of revenue and income, excluding income recognized by affiliate companies for which you do not have a majority ownership interest.

Notes to Unaudited Condensed Consolidated Interim Financial Statements

21. Subsequent Events, page F-138

5. We note your disclosure of subsequent events, particularly of the securities exchange agreement with certain C-round investors entered into on September 23, 2020 and closing on September 30, 2020 here and elsewhere in the filing. Please revise to provide greater transparency and prominence of this transaction to potential investors by disclosing and discussing it in the "Recent Developments" section on page 9 along with other September 30, 2020 information. As part of the response and expanded disclosure, provide a clear discussion of the impacts on the Company's financial statements, business purpose for the transaction and how it could impact future shareholders.
6. We note that the Company expects to record an one-time loss in Q3 2020 of approximately USD200 million (equivalent of approximately RMB1,362 million) upon closing of this transaction. Please provide us with your accounting analysis for this transaction, including how you calculated the impact of the loss, classification of impacted

financial statement line items and overall accounting treatment with reference to authoritative literature.

7. Given the nature of the changes to the capitalization, payment to Class C holders and changes to equity resulting from this transaction, please revise to present the impacts from this transaction to the balance sheet, income statement and earnings per share on a pro forma basis on the face of the financial statements.

Exhibits

8. Please file complete exhibits, where required. We note, for example, that you appear to have omitted Schedules 3 and 4 from Exhibit 4.8, among others. Please file complete copies of your exhibits or advise.

General

9. Please provide us with supplemental copies of all written communications, as defined in Rule 405 under the Securities Act, that you, or anyone authorized to do so on your behalf, have presented or expect to present to potential investors in reliance on Rule 163B of the Securities Act, whether or not you retained, or intend to retain, copies of those communications. Please contact the staff member associated with the review of this filing to discuss how to submit the materials, if any, to us for our review.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.

Refer to Rules 460 and 461 regarding requests for acceleration. Please allow adequate time for us to review any amendment prior to the requested effective date of the registration statement.
