

We continue to believe that what we're doing at BlissDivorce is of great value by reducing the cost and stress imposed on families as they go through the process of divorce. We have received countless feedback about how much BlissDivorce is appreciated by the mutual practice of divorce, especially by people who were previously court attorneys. We have had professionals calling the time it takes to go through the divorce, as well as using our tools to identify possible disagreements. Now that our platform is fully built, you can now focus your energy on completing your customer acquisition needed.

We've got the financial numbers correct, so tell your investors or family how fast this can pay for you now. It's possible that it's been a while since they heard from you, so remind them why they believed in you and the plan.

Help us get the word out! Divorce is a highly personal and emotional experience. People want to work with someone they trust and the information found is not yet heavily known. Personal materials are an effective way to overcome this and create trust for the brand. If each of our investors received one, that is would be a significant boost to our business. We also will be happy to conduct another round of fundraising over WeFunder this year. Your continued support of what we're doing would be appreciated!

Генерал/СРБ

In 5 years, we want to reduce divorce. Instead of hiring opposing attorneys, which increases conflict and stress, divorcing couples can use our GDR tools to work out the best agreement for their own—even in a contentious divorce. We believe this will establish a strong business to build from: just 5% share of the 25 largest U.S. states generates \$16000 in revenue. We believe there is a multi-million \$ opportunity in other markets (H1) and by applying our GDR technology to other legal verticals.

Report Card

The Good

Completed the full build out of our website in a nice platform, moving from the only one I had to build a couple of others

Discovered the full generation of our Digital Assets (Photos on-line, using social applications) to help keep in memory of photos.

I would love to make (big) money online (as a partner)

The Bad

We have not yet achieved our customer satisfaction goals, I'd like to see learning and coaching programs.

We're not a quality or amount of, definitely not what did not get you or 100%.

January 1 to December 31

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and verify it with our Internal controls and records of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. None of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Reach a divorce agreement without the cost, time and conflict of attorneys.

We've been through divorce. We've seen friends and family go through divorce. It's a high conflict, expensive process where no one wins. We want to reduce the pain and time involved in divorce... preserve family assets and help people move on with their lives.

Using personal information online dispute resolution (ODR) technology, third-party neutrals couple through a secure online process to reach a divorce agreement and move on without the time, cost and frustration of attorneys. By empowering couples, even those in a contentious divorce, to resolve disagreements with our CDR tools, we are the first online platform able to compete directly with the dominant market player, divorce lawyers.

We want redefine divorce in the U.S. Instead of lifting opposing attorneys, which increases conflict and stress, divorcing couples can use our ODR tools to work out the best agreement for them—even in a contentious divorce. We believe this will establish a strong business foothold (more than just VC status) in the 25 largest U.S. states (grossed \$100M in revenue). We believe there is a multi-billion \$ opportunity in other markets (CA) and by applying our ODR technology to other legal verticals.

Milestones

Resolution & Technologies, Inc. was incorporated in the State of Maryland in January 2010.

What makes our therapies effective?
