The Opportunity

Frog Juice is seeking funding to expand brewing operations and distribution to meet increased demand, as well as establish a brewery.

Business Overview

Frog Greishaw founded Frog Juice in 2014 in Chicago, IL and she opened up shop in the Knoxville, TN area after relocating there in 2017. Her global connections, decades of service in the beverage industry, and passion for nourishment have led her to found a company with a global vision in sight. Pairing with Benjamin Clingner in 2019 brought 20 years of large-scale beer brewing expertise and equipment knowledge to the company. Shelby Stennes joined in 2019 as well, bringing her phenomenal administrative and organizational skills to step into her role as CFO for Frog Juice. This company remains committed to using only organic and fair trade ingredients in their products, sourced locally whenever possible. Frog Juice takes their responsibility to the environment very seriously and is intentional about employing sustainable, eco-friendly business operation and production practices down to the type of dish soap they use.

COVID-19 Response

In response to the current closures and restrictions on restaurants and bars (who have made up a significant portion of our wholesale customer base), we have shifted our focus to selling to more independent grocery stores and directly to customers. We have partnered with local delivery services in both Knoxville and Chicago offering contactless home delivery. Despite the shift in sales strategy, we saw growth in first-quarter sales from 2019 to 2020 and are on track to see continued growth in the second quarter of sales as well. With this equipment expansion, Frog Juice will be capable of approaching their contacts in grocery store chains and larger-scale distribution regionally in both the Chicago and East Tennessee markets. The healthy beverage market has been performing well during Covid-19 in response to consumer's increased health awareness.

Furthermore, Frog Juice, Inc. has hired a media marketing firm that specializes in health and wellness branding to refine media content, increase brand awareness, manage and grow social media reach, as well as provide advertising recommendations based on current market research and performance metrics. Access to such expertise will allow Frog Juice to more effectively reach our target market in an era of unprecedented online advertisement and purchasing despite fluctuating algorithms and trends.

Market Research & Strategy

Healthy Beverage Industry

Studies suggest the Compound Annual Growth Rate of the global kombucha market will expand at 23 to 25 percent to reach a global market size of \$5.45 billion by 2025. In 2018 sales of kombucha reached more than \$525 million, comprising more than two-thirds of the “enhanced beverage” market.

Since Covid-19, the healthy beverage industry has exploded as consumers have shifted gears to seek out food-based health products, causing an unprecedented rising demand

There is limited publicly available information on this industry in the state of Tennessee because the market demand for kombucha in the region is still in the early stages of growth. As of this writing, Frog Juice Inc has 35 retail accounts in the East Tennessee region and they are the only kombucha company within a 2-hour radius.

Financial Plan

The following projections and pro forma financial statements are projections of the Frog Juice Kombucha for the first five years after brewing operations open in the new space. They include a pro forma balance sheet, startup capital required, revenue projections, cash flow, and payroll expenses. Plans to partner with businesses in other regions of the country would allow for satellite brewing locations while keeping distribution costs low.

Projected revenue for the first full year of operations is \$405,120.00 with an average annual increase of 48% over the next four years. According to projections, the company will be cash-flow positive by year four and break-even in the first quarter of year five. Frog Juice, Inc. is seeking \$300,000 in funding to expand its brewing operations. The owner has invested \$194,000 personally and approximately \$243,340 in sweat equity over the years. Three angel investors have also invested \$41,000 in Frog Juice, Inc. since its founding.

If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.1 - 2.5% ²
Payment Deadline	2026-10-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.7 x 1.5 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	0.43%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.1% and a maximum rate of 2.5% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$10,000	0.1%
\$70,000	0.7%
\$130,000	1.3%
\$190,000	1.9%
\$250,000	2.5%

³ To reward early participation, the investors who contribute the first \$50,000.0 raised in the offering will receive a 1.7x cap. Investors who contribute after \$50,000.0 has been raised in the offering will receive a 1.5x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Common Stock
Number of Shares Outstanding	1
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	These securities have voting rights
How these securities differ from the revenue sharing notes being offered to investors	Common Stocks are equity securities, with voting rights, whereas the revenue sharing notes being offered are debt securities with no voting rights.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Carrie Greishaw	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(S) The Company’s Financial Condition

Forecasted milestones

Frog Juice Kombucha forecasts the following milestones:

- Secure property in Knoxville, TN by September, 2020.
- Hire for the following positions by June, 2020: Brewery Support
- Achieve \$4 Million in revenue per year by 2025.
- Achieve \$2 Million in profit per year by 2025.

Other Outstanding Debt

As of July 1, 2020, Frog Juice has debt of \$85,892 outstanding and a cash balance of \$8,493.68. This debt is sourced primarily from business credit cards and angel investors and will be senior to any investment raised on Mainvest. In addition to the Frog Juice’s outstanding debt and the debt raised on Mainvest, Frog Juice may require additional funds from alternate sources at a later date.

Frog Juice Kombucha was organized in May 2014. The Company has filed its 2018 and 2019 Federal returns. The company's 2018 and 2019 tax returns are available to investors.

Actions to Increase Efficiency & Decrease Cost

Frog Juice Kombucha has a well established client base in both Knoxville and Chicago that currently provides consistent revenue. Frog Juice has also maintained connections within the hospitality industry in order to increase the numbers of sales accounts once the brewery expansion begins.

In June of 2020 FJK transitioned their products from glass bottles to cans in order to decrease cost of production by 66% as well as decrease labor costs significantly by automating the packing process where possible. This decrease in cost, improved efficiency, as well as the addition of Benjamin Clingner's brewing operations expertise will allow for increased production capacity and more time dedicated to sales calls. This was a significant financial milestone for the company and a necessary catalyst to further growth.

In 2017, brewing operations were moved to East Tennessee to decrease operations cost. Our products are still distributed to existing accounts in Chicago, IL through a local distributor; however, due to the current limitations on brewing capacity, new sales accounts have not been pursued in that area. After the expansion of brewing operations, FJK will pursue connections that have been made with larger accounts both in East Tennessee and the Chicago area. Having realized in 2019 that production capacity of both the location and equipment would soon be reached, FJK shifted focus to attracting investment partners to fund the expansion of the brewery and maintaining existing accounts.

Due to the current economic effects on the hospitality industry (which includes most of FJK's sales accounts), FJK qualified for government disaster aid and was able to pivot sales to include contactless home delivery to consumers. By adding these direct transactions to our sales strategy, FJK was able to maintain sales revenue for the first two quarters of 2020, despite the impacts of COVID-19.
