## Independent Accountant's Review Report

The Board of Directors  
Boxabl, LLC.

I have reviewed the accompanying balance sheets of Boxabl, LLC., (the Company) as of December 31, 2019 and 2018, and the related statements of income, changes in members' equity, and cash flows for the years then ended and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

### Accountant's Responsibility

My responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for our report.

### Accountant's Conclusion

Based on my reviews, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

**1. Business and Summary of Significant Accounting Policies**

Description of Business and Basis of Presentation

Boxabl, LLC, (the Company) is a development stage LLC that was formed in December 2017. The financial statements of Boxabl, LLC., (which may be referred to as the "Company", "we," "us," or "our") are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's headquarters are located in Las Vegas, Nevada.

Boxabl is in the process of building a new type of modular boxes with the help of modern manufacturing processes. Their product will result in a superior, higher quality residential and commercial buildings in half the time and half the cost, by resolving the problems of labor shortages and using approximately, 80% less building material. To be able to serve large geographic areas from one Boxabl factory they have created a patented shipping technology. This innovation allows them to serve the entire USA and even international markets.

**Risks and Uncertainties**

The Company's business and operations are sensitive to general business and economic conditions in the U.S. and worldwide along with local, state, and federal governmental policy decisions. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include: recession, downturn or otherwise, government policies. These adverse conditions could affect the Company's financial condition and the results of its operations.

**Use of estimates:**

The preparation of financial statements is in conformity with the accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Property and Equipment, Net**

Property and equipment are recorded at cost. Depreciation is computed using a straight-line mid-month convention method over the estimated useful lives of the assets, which for furniture and fixtures, auto and most computer equipment ranges primarily from five to seven years.

Repairs and maintenance performed on equipment or software are expensed as incurred.
