Seeing a preview of the script shows me that this is going to be one of the best made films, especially since they took time to do a proof of concept video!

Moon of tribe

The world's first supernatural film funded by investors like you! We bring you a movie that has potential with creative writing and crazy twists. We funded a scene already! This is to show investors we are ready with a proof of concept video, completed script, and dedicated website! The same scene was also awarded by the 2020 Telly awards for one of the top cinematography videos along with major networks like CBS!

Film Vision

The vision of our movie will be based upon werewolf literature, with some shocking twists!

Think of Batman...if he was a wolf! This movie is capable of breaking some boundaries and creating a new franchise. Our goal is to have a trilogy. The more we fund the more we could contribute to the movie with hiring known actors, and more special effects.

Proof of concept suit! ..Yes he will have his own wolf suit!

Our Audience!

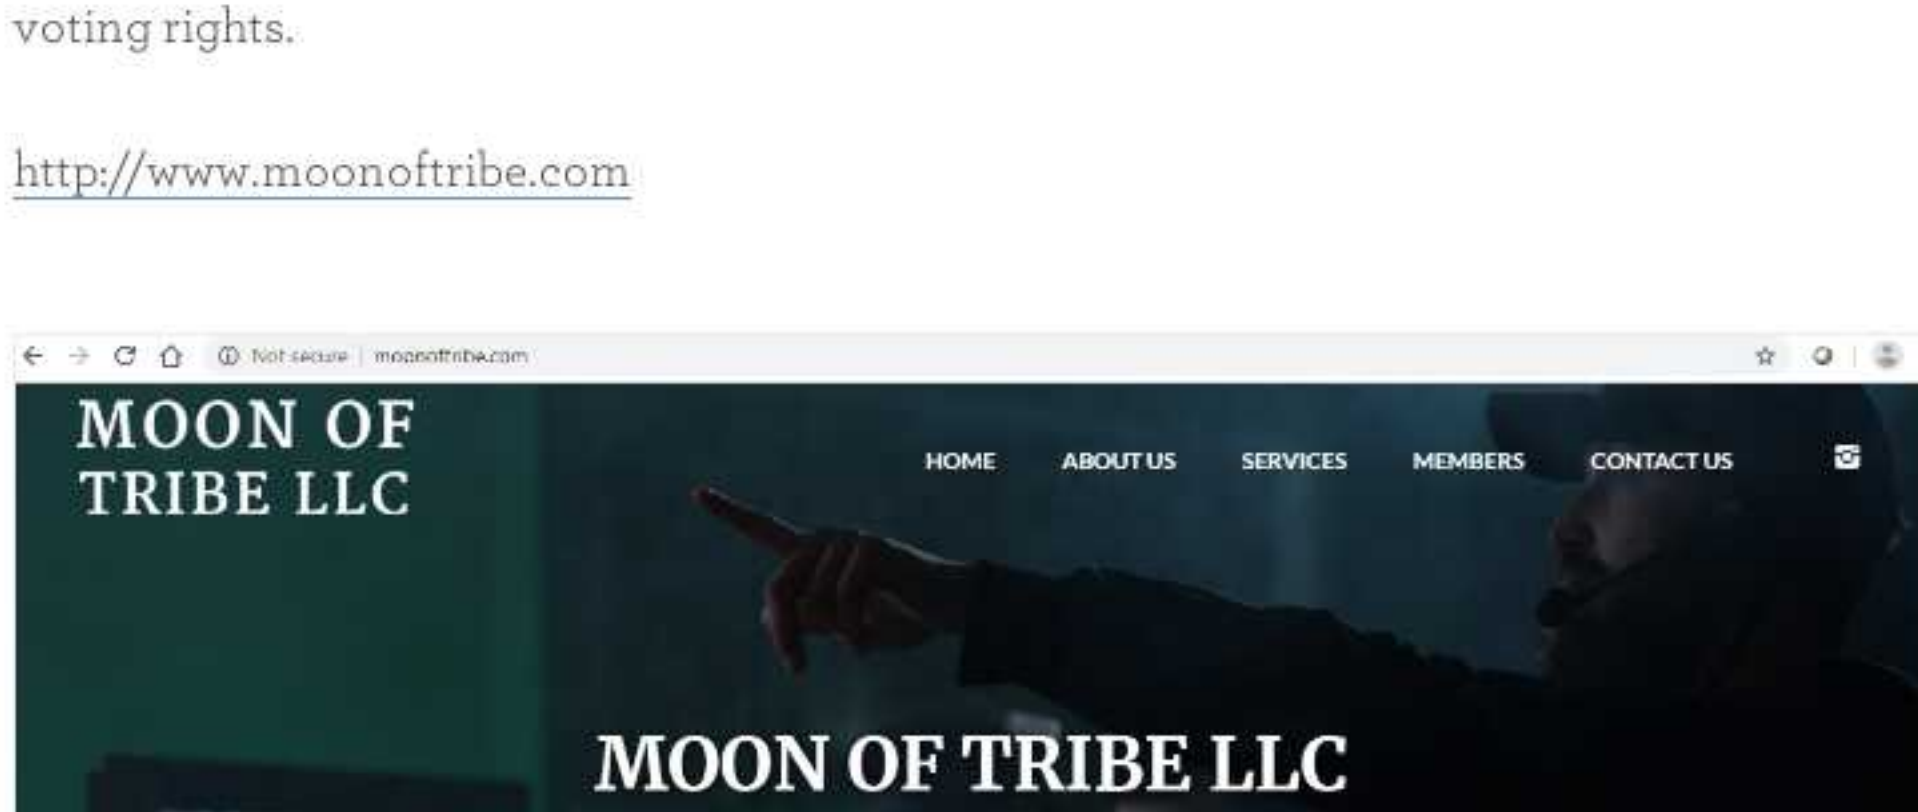

Our audience is supernatural or sci-fi fans. As you can see movies like Twilight, and shows like Teen wolf, Stranger things, Smallville, dominate box office and TV ratings. We want to capitalize on this!

How will you be involved?

More often big movies are created without the people's choice and often cast the wrong people and go the wrong direction. We want to change that, we want your say, your votes, and YOUR VOICE! We plan on distributing the family to multiple film festivals, and digitally distribute domestically and international.

Members have their own page in our website with access to script, special updates and voting rights.

Investor Q&A

What does your company do? ▾

COLLAPSE ALL

We plan to create a film about a supernatural werewolf with hopes of it becoming a major motion picture! Unlike other companies we have a full working website exclusive to you and voting rights for you to take part!

Where will your company be in 5 years? ▾

We want to create 2 movies per year (under different entities) and that they become super successful (projections cannot be guaranteed).

Why did you choose this idea? ▾

Nothing is better than the people having a say in the movie. Investors will vote on Cast/Film Festivals/Film Premiere location, etc. Higher tiers have more voting rights and some more perks.

What sets you apart from the rest? ▾

Investing with Moon of tribe means you have a say. Voting on cast, voting on key set locations, and did i mention member raffles monthly? :)

What would you do with the money you raise? ▾

Marketing/Principal casting, possible celebrity names/productions/Special effects/Costume designs!

What do you need the most help with? ▾

Funding the project of course, but also the peoples opinions! I want to hear what they think would benefit the movie!

How far along are you? What's your biggest obstacle? ▾

We have the proof of concept scene complete to show films vision and tone, only obstacle right now is to get a full production company with funding

How will you make money? ▾

Submitting to film streaming companies like amazon prime and sell the film for a rate, but first we would like to submit to film festivals to gain traction!

What do you understand about your business that others don't get? ▾

I have been on film and television for 8 years and worked with top moves like Batman Vs superman, so i get what it takes to film with high quality! No blurry scenes we are looking for top quality!
