

# WHERE'S THE *Foodtruck*

# The Problem

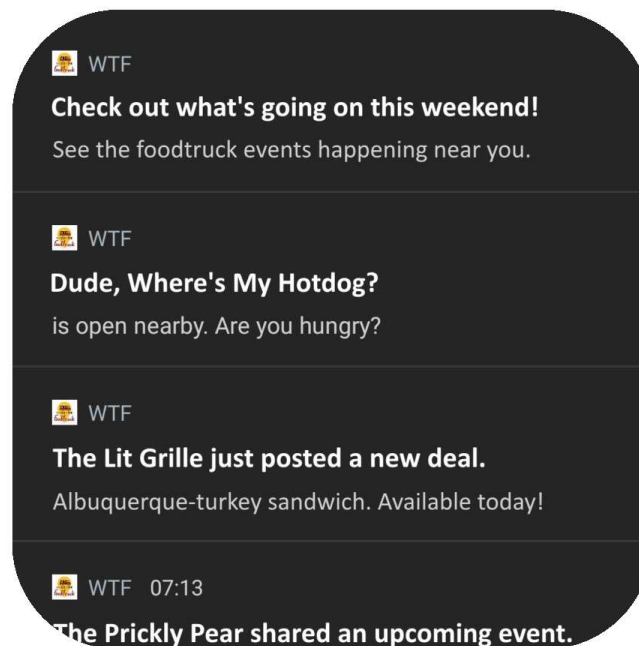

Foodtrucks are damn near impossible to find, and owners have no easy way to actively and reliably promote their businesses.

# Our Solution

A subscription based, mobile application to:

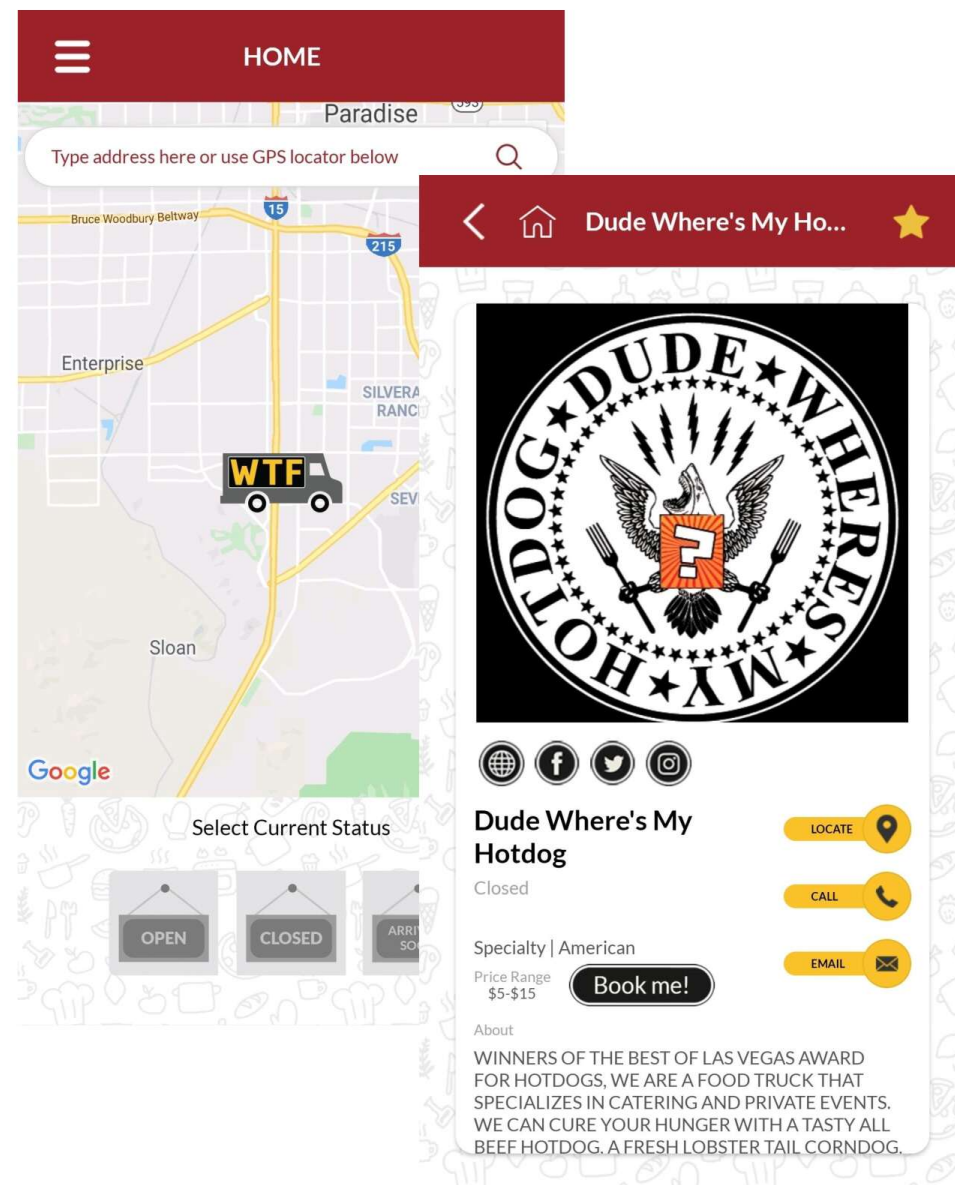

- increase foodtruck revenue
- directly market to their ideal customer
- increase new and repeat business

# Vendor Benefits

- Minimal effort for vendors to see maximum impact
- Intuitive and attractive apps
- Automatically send location specific push notifications
- Fully integrated in-app ordering (currently in development)
- Increase monthly revenues by \$500-\$2000, based on activity (25%-100% increase!)

# Testimonials

"We love the app because every time we turn it on, it brings customers to our food truck and brings in lots of revenue."

-Kim D. with *Bone Appetite Bar-b-Que Grill*

"It's almost like the tinder for foodtrucks; customers select what they like and boom they can see where we are at, meet up, and have some tasty food. It's easy and connects me to my customers."

-Ashley H. with *Dude Where's My Hotdog*

"This app increases your truck's potential for revenue. There is no question, this app works!"

-Phillip Dell, Food Network's "Chopped" Champion

## Testimonials (cont.)

"Due to my ever changing schedule, this app was what I needed. Within 20 mins of selecting "open", customers start rolling in!! Thank you to the developers of WTF and all your support!"

-True P. with *True Wings*

"We have a few foodtrucks, and it's nice that I can mark them open remotely. I'm not even there, but customers know where the truck is, and my employees tell me every time they get someone through the app. It's really great."

-Julio T. with *50 Shades of Green*
