An investor should not invest any funds in this Offering unless he or she is willing and can afford to lose his or her entire investment. In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Offering, including the merits and risks involved. The Securities have not been recommended or approved by any Federal or State securities commission or regulatory authority, nor have they been recommended or approved by the Portal. The U.S. Securities and Exchange Commission (the “**SEC**”) does not pass upon the merits or terms of any Securities offered, nor does it pass upon the accuracy or completeness of any offering document or literature, including this Disclosure. These Securities are exempt from registration. Prospective investors should not interpret the contents of this Disclosure or any information provided on the Portal as legal, accounting, tax, regulatory, investment or other advice. ### Investment, Escrow and Closing Process

Investors seeking to make an investment in Securities offered by the Issuer will:

1. Create an account on the LetsLaunch Portal
2. Click "Invest" on the Offering made available on the Portal

3. Be asked to enter certain required information, including the investor's annual income and net worth, which will be used to determine an investment limit for each investor
4. Make certain representations regarding the investor's understanding of the Offering and the risks associated with crowdfunding
5. Input the amount the investor wishes to invest in Securities offered by the Issuer
6. Execute the SA via digital signature.

When the issuer confirms their investment amount, the investor will contribute their committed investment amount into a designated escrow account for the Offering.

Once the Target Offering Amount has been raised and the Offering Period has ended, the committed investment amounts will be released from escrow upon the Issuer's satisfaction with the terms and conditions set forth in the SA. At this point, the Offering will be deemed to have been successfully closed (the "**Closing**") and the executed SA and any other applicable documents will be provided to the investor and the Issuer. The Issuer will grant the promised Securities to the investor, as stated in the SA.

### **Cancellation of Investment Commitment**

Investors may cancel an investment commitment until forty-eight (48) hours prior to the end of the Offering Period identified in this Disclosure. If an investor does not cancel an investment commitment before the forty-eight (48)-hour period prior to the end of the Offering Period and the Target Offering Amount has been met, the funds will be released to the Issuer upon Closing and the investor will receive Securities in exchange for his or her investment, as specified in the SA. LetsLaunch will notify investors when the Target Offering Amount has been met. If the Issuer reaches the Target Offering Amount prior to the end of the Offering Period identified in this Disclosure, the Issuer may close the offering early if it provides notice about the new offering deadline at least five (5) business days prior to such new offering deadline (absent a Material Change, as defined in the next section, that would require an extension of the offering and reconfirmation of the investment commitment). If the Issuer does not raise at least the Target Offering Amount through this Offering on the Portal, no Securities will be sold in this Offering. In this case, investment commitments will be canceled, and funds will be returned to the investors.

### **Material Changes to the Offering**

If the Issuer makes a material change ("**Material Change**") to the Offering, investors will be notified of such a change by the Portal. In the event of a Material Change, investment commitments will be canceled unless the investor reconfirms the investment commitment within five (5) business days of the notification. Investment commitments can be reconfirmed on the Investor Dashboard provided by the Portal. If the investor does not reconfirm the investment commitment, the investment commitment will be canceled, the investor will receive a notice of cancellation from the Portal and funds will be returned.

### **Restrictions on Transfer or Sale of Securities**

## Business Plan

### Company Overview

Varsity Hype was officially launched on April 1, 2020 with the objective of delivering a robust and user-friendly video content management solution to the youth and high school sports sector. Varsity Hype, which we launched 18 months ago as a beta product under the name VYPE Replay, was created to solve two major problems: sports video analytics software is currently too expensive to be accessible to many in the entire youth and high school sports world and, more importantly, the systems that are currently available are complicated and not user-friendly.

The origin of our idea dates back to December 2016 when our Founder and CEO Jorge Ortiz founded GameDay Films, a video company focused on providing the youth and high school sector with video-capturing solutions. By growing this company, Ortiz was able to gain exposure to this sector and learn firsthand from the parents, coaches, athletes, and organizations exactly what their sports video needs are. Ortiz and his team were able to grow GameDay Films to cover the entire state of Texas, capturing more than 13,000 sporting events across different age groups and sports until the company was ultimately acquired by VYPE Media (“the ESPN of high school sports”) in October 2018. During their tenure growing GameDay Films, Ortiz and his team experienced firsthand how the existing video management platforms were getting it right and, more importantly, getting it wrong.

Following VYPE Media’s acquisition of GameDay Films, Ortiz started developing VYPE Replay, the beta version of what would ultimately become Varsity Hype. After using VYPE Replay to test the market, Ortiz concluded that the youth and high school sports sector needs a simpler and more economical alternative to the current products. The beta version has enjoyed growing success (amassing more than 6000 users throughout the city of Houston) and has allowed the Varsity Hype team to gather the necessary information in order to release a new product that people will not only be happy with but willingly pay for.

The Varsity Hype founding team has spent the last couple of years learning about the intersection of youth sports and technology. The team is comprised of coaches, tech nerds, athletes, youth sports parents, and sport enthusiasts looking to create value in a community that is meaningful to them because they are a part of it. The Varsity Hype team is excited to launch their Software as a Service product and take on the Texas market and beyond.

### **Management Risks**

For effective and sustainable growth, our Company relies on proper management of finances, operations, development plans, and resources. There is a risk that failure to effectively manage key areas of the business can slow or prevent growth, or even ultimately lead to poor financial performance and business failure. Additionally, the success of the Company depends on our ability to adequately develop technologies for our customers. Some of this software development may be outsourced to third-party providers. The failure of our Company and such providers to successfully build our technology could negatively impact financial performance.

### **Accounting and Tax Risks**

Our Company relies on current accounting rules and regulations to create financial statements that provide insight into our business' financial history. Accounting rules and regulations are also used in financial statements to develop financial projections into the future. Changes to these rules or regulations can result in the Company's financial health appearing differently, and negatively impacting the public perception of the Company. In addition, our Company is subject to various taxes, which can include local, state, or federal taxes. There is a risk that the Company could miscalculate or fail to pay the correct amounts as required by the appropriate governmental authority, or be subjected to an increased tax burden due to changes in laws or regulations. This could result in fines, interest, or additional unanticipated costs that could negatively impact the Company's financial health.

### **Risks from Work Stoppages, Terrorism or Natural Disasters**

Due to a variety of factors, such as work stoppages, terrorism, or natural disasters (many of which are outside of the control of the Company), there are risks that sporting events may be disrupted. These risk factors can result in canceled sporting events or disruptions to our companies technologies and services. All of these disruptions to operations can become costly to our business and seriously impact operational and financial performance.

### **Dilution**

An investor's ownership resulting from the purchase of the Securities described in this Disclosure could be diluted should the Issuer issue additional shares. In other words, when the Issuer issues more shares (or additional equity interests), the percentage of the Company that you own will go down, even though the value of the Company may go up. In this scenario, you will own a smaller piece of a larger Company. This increase in the number of shares outstanding could result from a stock offering, employees exercising stock options or by the conversion of certain securities, including convertible promissory notes, convertible bonds, preferred shares or warrants, into common stock. If the Issuer decides to issue

more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before.

### **Governing Law**

Each SA and the Securities will be governed by the laws of the State of Texas.

### **LetsLaunch Assessment**

LetsLaunch conducts a “bad actor check” on officers, directors and beneficial owners of twenty (20.0%) percent or more of the voting securities in the Issuer. LetsLaunch does not otherwise pass upon the terms, including the merits and risks, of any Offering or Issuer of Securities on the Portal. In making an investment decision, prospective investors must rely on their own examination of the Issuer and the terms of the Offering, including the merits and risks. An investor should not invest any funds in this Offering unless he or she is willing and can afford to lose his or her entire investment.

### **Minority Ownership Rights**

By purchasing the Securities, investors will become holders of minority ownership in the Issuer. Rights of minority holders will be more limited than the rights of the holders of common stock who control the Company in regards to the corporate actions of the Issuer, including additional issuance of securities, Issuer repurchases of securities, a sale of the Company or its significant assets, or Company transactions with related parties. Minority holders will have no influence on the corporate actions or operations of the Issuer. With any minority investment in a private company, an investor should be able to bear a complete loss of their investment.

### **Modification of Terms**

Investors may not modify the terms of the investment set forth in the SA. The SA may only be modified with the consent of all investors and the Issuer.

### **Tax Considerations**

The Issuer intends to treat the Securities as equity instruments for U.S. Federal income tax purposes. The Issuer is responsible for timely preparation and distribution of required tax documents to investors (e.g. Schedule K-1). Investors should seek advice from a tax professional to understand the tax implications of an investment in the Securities offered and sold in this Offering.

### **Valuation**

Before making an investment decision, an investor should carefully consider the valuation contained in the terms of this Offering. Such valuation may not be accurate and investors should determine their own independent value of the Issuer prior to investing. There are several ways to value a company. None of them are perfect and all involve certain assumptions, especially for early-stage companies with little operational or financial history. While not an exhaustive list, valuation methodologies include:

1. **Book Value** – investors can determine a book value of the Issuer using the company’s financial statements, usually by looking at the company’s balance sheet. However, the balance sheet generally records assets at cost (the price paid for the asset) and may not take into account whether the assets have increased or decreased in value over time. Some intangible assets such as intellectual property or patents may not appear on the balance sheet, despite their value.

2. Discounted Cash Flows – the Issuer expects to generate positive cash flows (earnings) at some point in the future. This earnings stream can be valued, in present value terms (i.e. the value of those cash flows in today's dollars), by discounting the cash flows by an assumed rate of return.
3. Liquidation Value – this is the amount for which the company or the assets of the company can be sold, minus any debts and liabilities owed.

Different valuation methods will produce a different answer as to what a given investment is worth. Investors may also utilize different assumptions about the company's business and its market. Future investors (including people seeking to acquire the Company) may also value the company or its assets differently than a current or prospective investor. These and other valuation methods may be used to value the Issuer should the Issuer decide to issue additional Securities in another Offering in the future.

## Ongoing Reporting

Companies that have raised money via Regulation Crowdfunding must provide certain information to both the SEC and its investors. Receiving regular company updates is an important part of being an investor and monitoring the progress of the company and your investment. The Issuer will file a report electronically with the SEC annually, as well as distribute the report to its investors, no later than one hundred twenty (120) days after the end of each fiscal year covered by the report.

Once posted, the annual report is available by email or on the LetsLaunch platform.

The Issuer will continue to comply with the ongoing reporting requirements until:

1. The Company is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
2. The Company has filed at least three (3) annual reports pursuant to Regulation Crowdfunding and has total assets that do not exceed ten million dollars (\$10,000,000.00);
3. The Company has filed at least one (1) annual report pursuant to Regulation Crowdfunding and has fewer than three hundred (300) holders of record;
4. The Company or another party repurchases all of the Securities issued in reliance on Regulation Crowdfunding, including any payment in full of debt securities or any complete redemption of redeemable securities; or
5. The Company liquidates or dissolves its business in accordance with state law.

Neither the Company nor any of its predecessors (if any) previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding. Regardless of ongoing reporting requirements per SEC rules, LetsLaunch encourages Issuers on the Portal to provide quarterly updates to investors.
