## Topical Pain Relief Market Surpassed \$10.0 Billion Dollar in 2023

The market is anticipated to reach \$18.994.4 million by 2034.

The pain medication market was worth \$10.5 billion in 2023 and is expected to grow by 5.2% Year over Year in 2024.

Source: <https://www.futuremarketinsights.com/reports/topical-pain-relief-market>

What is the forecast for the pain relief market?

Demand for topical pain relief is slated to rise at a CAGR of 5.6% from 2024 to 2034. The pain relief market grew at a CAGR of 4.0% from 2019 to 2023, boosting investor and analyst confidence. Ongoing research has improved formulations, bioavailability, and delivery systems.

Source: <https://www.futuremarketinsights.com/reports/topical-pain-relief-market>

**In 2023, the topical pain relief (non-opioid) formulations segment dominated 72.5% of the global market share.**

The global market for pain management is expected to witness continued high growth in the forecast period. Non-opioid topical solutions dominate the market and are projected to maintain their high growth due to their lower risk of addiction, dependence, and overdose in comparison to opioid-based alternatives.

Source: <https://www.futuremarketinsights.com/reports/topical-pain-relief-market>

**Osteoarthritis and rheumatoid arthritis are pushing demand for topical pain relief.**

The aging global population has increased demand for topical pain relief products sensitive to sensitive skin and treating comorbidities like osteoarthritis and rheumatoid arthritis.

Source: <https://www.futuremarketinsights.com/reports/topical-pain-relief-market>

**Rising awareness of non-pharmacological pain management solutions.**

The International Association for the Study of Pain (IASP) reports that approximately 20-30% of opioids prescribed for chronic pain are being misused, while up to 10% of all opioid users are addicted to this medication. This increase in opioid abuse is expected to impede market growth and lead to an increased demand for alternative methods of pain relief, such as topical treatments.

Source: <https://www.futuremarketinsights.com/reports/topical-pain-relief-market>

**There is a growing demand for natural and alternative remedies.**

This increased demand stems from growing awareness of the adverse effects caused by traditional pharmaceuticals.

*ProVEDA's therapeutic products are developed in partnership with the Dabur Research Foundation, a world leader in traditional Ayurvedic medicine—one of the world's oldest medical systems that remains the basis of India's healthcare today.*

## Investment FAQs

### What are Investment Limits for Reg CF Offerings?

Because of the risks involved with securities-based crowdfunding, you are limited in how much you can invest during any 12-month period in these transactions. If you are a non-accredited investor, the limitation on how much you can invest depends on your net worth and annual income. Following are the inflation-adjusted investment limits.

If either your annual income or your net worth is less than \$124,000, then during any 12-month period, you can invest up to the greater of either \$2,500 or 5% of the greater of your annual income or net worth.

If both your annual income and your net worth are equal to or more than \$124,000, then during any 12-month period, you can invest up to 10% of annual income or net worth, whichever is greater, but not to exceed \$124,000.

### How does the online investment process work?

Once you've checked out the investment options and decided that you'd like to invest and the amount you're willing to invest, you will need to set up an account with Mundial Financial Group LLC. This involves providing some personal details and agreeing to several important legal documents as per Regulation Crowdfunding (Reg CF) requirements.

Next, Mundial Financial Group LLC will need to confirm your identity and that you're not involved in any illegal money activities. This is a standard procedure known as Anti-Money Laundering (AML) and Know Your Customer (KYC) checks.

If everything looks good with your identity verification, you'll then proceed to fund your investment using your chosen method of payment.

However, if there's a problem with your verification, Mundial Financial Group LLC won't leave you hanging. They'll contact you to sort it out, and you'll have the opportunity to provide any additional information they need to complete their checks.

After your investment money is successfully transferred to the issuer's Escrow Bank (which is where your money goes first), and Mundial Financial Group LLC confirms that your account application is in order and matches your investment pledge, they will finalize the investment for you. They do this by making sure the subscription agreement is all correct and then instructing the Transfer Agent to log your ownership on the capitalization table of the issuer, which is essentially a record of who owns what.

## How long can investor verification take?

1. Accuracy of Information: The speed depends on how well the information you've provided aligns with our verification sources.

2. Your Responsiveness: If there's an issue, how quickly you respond will affect the timing.

Here's what you need to know:

- If there's a problem during verification, we must go through each issue one by one.
- If the information you've given us is wrong or not complete, we'll need to get in touch with you to sort it out.
- Just because you see funds pending in your account, or the initiation of a transfer, doesn't mean the money is in the issuer's escrow account for the transaction. In the U.S., it usually takes 1-2 days for funds to show up in escrow. Then, they need to stay there for a few days until the escrow agent confirms everything looks good.

Also, keep in mind that we match payments with approved applications in groups. So even if everything is ready, your application might be in line for the next group to be processed.

## Who is Mundial Financial Group LLC?

Mundial Financial Group LLC is a company officially recognized by FINRA/SEC as a broker dealer. This means they're authorized to handle certain financial transactions. They have been chosen by the Issuer to help with the process of bringing on new investors for a specific financial opportunity. However, Mundial Financial Group LLC is not trying to sell these investment opportunities themselves or convince anyone to invest. They're not giving any advice about whether you should invest or not. Instead, they are responsible for managing the paperwork and making sure your investment application is in order.

They also perform due diligence on the issuers to make sure the offering is legitimate. This includes doing things like anti-money laundering checks and making sure the company is officially registered and in good standing. But, Mundial Financial Group LLC is not saying whether the information the company provides is correct or endorsing the company in any way.

If you're applying to invest and have questions, you can reach out to Mundial Financial Group LLC by email at [info@mundialfg.com](mailto:info@mundialfg.com). They can help you understand the application process or tell you where to find specific information in the investment documents. But, they won't give you advice about the investment itself.

## How does Mundial Financial Group Get Paid?

Mundial Financial Group LLC gets paid by the company issuing the investment (the issuer) for helping to bring them on board as part of their services, as explained in the detailed offer document. They do not charge the investor who is applying any fees at all.

## Am I a customer of Mundial Financial Group LLC?

When you put money into a company's Reg CF offering, where Mundial Financial Group LLC acts as the broker responsible for getting new investors, they must make sure you're not investing more than what's allowed by the SEC within a 12-month period. You'll get an account with Mundial Financial Group LLC to keep an eye on your investments made through them, but this isn't like a full brokerage account where they hold onto your investments or give you investment advice. And don't worry, this account won't cost you anything—no fees or charges at all.

## Why do you need my DOB, SSN, Driver's License, etc.?

When you buy a security that the SEC (Securities and Exchange Commission) oversees, we, as a Broker Dealer, must follow SEC rules.

These rules include making sure we do things like Anti-Money Laundering checks and Know Your Customer assessments to know who our customers are. We also must make sure that investors don't exceed the allowed investment limits. This is why we collect certain information from you. The Mundial Financial Group LLC might share some of this information from your investment application, like what's in the subscription agreement, with the Transfer Agent and Escrow Agent if it's needed for processing your investment properly.

## Where can I get additional information?

If you're thinking about investing and have questions about the company, its products, or the investment offer, go to the "Discussion" part of the issuer's website. This area is like a public chat room where everyone can see the questions and answers. When your question gets answered, you'll see who replied to it, like the company itself or the Mundial Financial Group LLC, so you know exactly where the info is coming from. You can also go to the "Updates" part of the issuer's website. This area is a public room where the issuer provides updates that investors might want to know.

## What's an accredited investor?

An accredited investor is a term used to describe someone who can invest in certain financial opportunities not available to most of the public. To be considered an accredited investor as an individual, you need to meet at least one of the following criteria:

- You've made more than \$200,000 a year on your own (or \$300,000 with your spouse or someone you're financially linked to) for the past two years and expect to make the same or more this year.
- You or you and your spouse (or financial partner) have a net worth exceeding \$1 million, not counting the value of the main home you live in.
- You have a Series 7, 65, or 82 license, which are certifications showing you have a professional understanding of certain types of investments.

Meeting any of these conditions means you're allowed to invest in opportunities that are usually considered riskier and are therefore not available to the average investor.
