BOAZ BIKES
2022 Report

Dear investors,

Dear Esteemed Investors,

I hope this message finds you well and full of the same passion that ignited our journey together. As we stand on the cusp of new endeavors, I want to reflect on the essence of why you believed in Boaz Bikes in the first place.

You saw the potential - not just in a company, but in a vision to revolutionize urban mobility. Your unwavering support signified a shared belief that we could redefine how cities move, create sustainable solutions, and enhance lives.

Amidst challenges and victories, that belief remains our North Star. Every stride we take is propelled by the trust you placed in us. Our goal has never wavered: To build a future where micro-mobility is synonymous with safety, convenience, and positive impact.

As we move forward, let's carry forward that original spark. Let's drive harder, dream bigger, and surpass even our own expectations. Together, we're crafting a legacy of innovation, resilience, and change.

Thank you for your trust, your investment, and your unwavering commitment. Let's keep pushing the boundaries and achieving the remarkable, just as we envisioned from the start.

Onward and upward,

We need your help!

As we embark on an eventful year, we recognize that our journey's success is intertwined with your invaluable partnership. Your support will play a pivotal role in achieving our goals:

Amplifying Awareness: We're seeking your assistance in spreading the word about Boaz Bikes. Your network and enthusiasm can help us reach a wider audience, fueling interest and engagement.

Raising Capital: Our expansion ambitions require additional capital. Your continued investment and support can empower us to unlock new markets, seize opportunities, and accelerate growth.

City and University Partnerships: Connections matter. If you can help facilitate introductions to potential city and university partners, you'll contribute to our strategic initiatives and market penetration.

With your collaboration, we can navigate these priorities and achieve collective success. Your engagement is a driving force behind our journey's trajectory.

Sincerely,

Our Mission

We are hoping to have an early exit in late 2021. We plan on expanding into 20+ cities by mid-2021 and with the mass production of our newly designed scooter, we plan to expand to 60-100 cities by the end of 2021. If a merger/buyout doesn't happen we hope over the next 3 years to be the #1 shared scooter provider worldwide. Our new scooter design is like nothing else currently on the market. These projections cannot be guaranteed.

See our full profile

How did we do this year?

Report Card

A+

The Good

Record Revenue Growth: 2022 saw remarkable revenue surge compared to 2021, reflecting our strong market presence.

Arizona Triumph: Our triumphant Arizona market launch and third permit secured signal strategic growth success.

Cash Flow Victory: Achieving cash flow positivity underscores our sound financial management and growth strategy.

The Bad

Funding Challenges: Despite relentless efforts, we faced hurdles in raising sufficient funds to fuel our ambitious expansion goals.

Market Setbacks: Key launch markets faced unforeseen challenges.

B2B Stalling: Hindered by insufficient funds for our franchise program.

Risks

COVID-19 may pose a risk as it puts cities into shelter in place and limits individual movement. Government regulations that we are subject to could change at any time.

Temporary Rule 201(z)(2) provides temporary relief from certain financial information requirements by allowing issuers to omit the financial statements required by Rule 201(t) in the initial Form C filed with the Commission. This offering has commenced in reliance of Temporary Rule 201(z)(2) and, as a result, the following must be disclosed: (i) the financial information that has been omitted is not otherwise available and will be provided by an amendment to the offering materials; (ii) the investor should review the complete set of offering materials, including previously omitted financial information, prior to making an investment decision; and (iii) no investment commitments will be accepted until after such financial information has been provided.

Cory Smith is part-time officers. As such, it is likely that the company will not make the same progress as it would if that were not the case.

Coronavirus scares could possibly shut the government down and push plans of an early exit back a few months to a year depending on if there is another outbreak.

We have no secured or filed patents for our new Model 3 vehicle which we plan to do once we close funding round (hence the reason we are only showing the model to a selective few).

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Christiana Winfrey is part-time officers. As such, it is likely that the company will not make the same progress as it would if that were not the case.

We lose 2.5-5% of our fleet every month to repairs and theft. Our current suppliers are in China and continued trade wars and virus outbreak can result in a higher per vehicle cost.

Description of Securities for Prior Reg CF Raise

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Minority Ownership

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Exercise of Rights Held by Principal Shareholders

As holders of a majority-in-interest of voting rights in the Company, the unitholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor. For example, the unitholders may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The unitholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. The unitholders have the right to redeem their securities at any time. Unitholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

Restrictions on Transfer

The securities offered via Regulation Crowdfunding may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor©;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Valuation Methodology for Prior Reg CF Raise

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a Convertible Note is determined by the investor, and we

do not guarantee that the Convertible Note will be converted into any particular number of units.

As discussed in Question 13, when we engage in an offering of equity involving Units, Investors may receive a number of units of Preferred Units calculated as either the conversion price equal to the lesser of (i) 90% of the price paid per unit for Equity Securities by the Investors in the Qualified Financing or (ii) the price equal to the quotient of the valuation cap of $15,000,000.00 (the "Valuation Cap") divided by the aggregate number of outstanding units of the Company's units as of immediately prior to the initial closing of the Qualified Financing (assuming full conversion or exercise of all convertible and exercisable securities then outstanding, but excluding the units of equity securities of the Company issuable upon the conversion of the Notes or any other debt).

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the Units that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our board of directors. Among the factors we may consider in determining the price of Units are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant. In the future, we will perform valuations of our units that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the
- market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will unit similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

Company

Boaz Bikes Inc
- Delaware Corporation
- Organized December 2018
