Bao Bao, Our Spokesperson

COMPETING IN A COVID- 19 WORLD

COVID-19 forced many restaurants to reevaluate their operations, and while the situation is improving the threat for a relapse is always present. Luckily, we have been able to learn from this pandemic to ensure we are set up for success on day one.

- **Takeout and Delivery**

- We estimate that >26% of our sales will come in the form of off premise dining. To ensure we are successful in this we are:
 - Partnering with all major third party delivery services (Grub Hub, Uber Eats, Door Dash, Favor, and Postmates)
 - Investing in delivery packaging that is tamper proof for beverages and food
 - Focusing our marketing efforts on appealing to the takeout consumer and pushing alcohol-to-go

- **Grocery**

- We will work to get select products (sauces, closed buns, etc.) in grocery stores such as HEB and Kroger
- Many restaurants have also seen success by expanding their product offerings into common staple items (fresh spices, produce, etc.) to make it a one stop shop for consumers, we will do the same

- **Contactless Service and Sanitary Practices**

- The ability to ease our consumers' concerns by offering a contactless pick up option and ensuring employees are wearing gloves and masks at all times are just a few steps we'll take to ensure safety for our guests and employees

FAST CASUAL IS THRIVING

Despite today's challenges, fast casual restaurants are finding ways to thrive through the pandemic.
