

# Offering Statement for ChipBrain LLC (“ChipBrain”)

This document is generated by a website that is operated by Netcapital Systems LLC ("Netcapital"), which is not a registered broker-dealer. Netcapital does not give investment advice, endorsement, analysis or recommendations with respect to any securities. All securities listed here are being offered by, and all information included in this document are the responsibility of, the applicable issuer of such securities. Netcapital has not taken any steps to verify the adequacy, accuracy or completeness of any information. Neither Netcapital nor any of its officers, directors, agents and employees makes any warranty, express or implied, of any kind whatsoever related to the adequacy, accuracy or completeness of any information in this document or the use of information in this document.

All Regulation CF offerings are conducted through Netcapital Funding Portal Inc. ("Portal"), an affiliate of Netcapital, and a FINRA/SEC registered funding-portal. For inquiries related to Regulation CF securities activity, contact Netcapital Funding Portal Inc.:

Paul Riss:

paul@netcapital.com

Netcapital and Portal do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

The information contained herein includes forward-looking statements. These statements relate to future events or to future financial performance, and involve known and unknown risks, uncertainties, and other factors, that may cause actual results to be materially different from any future results, levels of activity, performance, or achievements expressed or implied by these forward-looking statements. You should not place undue reliance on forward-looking statements since they involve known and unknown risks, uncertainties, and other factors, which are, in some cases, beyond the company's control and which could, and likely will, materially affect actual results, levels of activity, performance, or achievements. Any forward-looking statement reflects the current views with respect to future events and is subject to these and other risks, uncertainties, and assumptions relating to operations, results of operations, growth strategy, and liquidity. No obligation exists to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

## The Company

### 1. What is the name of the issuer?

ChipBrain LLC

16192 Coastal Highway

Lewes, DE 19958-9776

## Eligibility

### 2. The following are true for ChipBrain LLC:

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding. (For more information about these disqualifications, see Question 30 of this Question and Answer format).
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

### 3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

No.

## Directors, Officers and Promoters of the Company

### 4. The following individuals (or entities) represent the company as a director, officer or promoter of the offering:

***Name***

Lisa Vo

***Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates***

June 2020- Present: Founder & CEO, ChipBrain June 2019-Present: Software Engineer, Palantir Technologies September 2019-Present: Co-Founder, GrassRoutes Canvassing March 2018-September 2019: Co-Founder, Bluebonnet Data 2015-2019: Harvard University student, B.A. Computer Science Lisa Vo holds a bachelor's degree in Computer Science from Harvard University, with software engineering experience from Microsoft and Palantir Technologies. She created and led a new computer science course while at Harvard, co-founded and led engineering at Bluebonnet Data--a national tech nonprofit with over 200 technical volunteers, and brought to market a political tech startup as co-founder and CTO. Lisa is a first-generation immigrant from Vietnam.

***Name***

Curtis Northcutt

***Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates***

June 2020-Present: Founder & CTO, ChipBrain; April 2019-Present: Chief AI Scientist, Knowledge AI; October 2018-Present: Research Scientist, Oculus VR; April 2013-Present: PhD Candidate in Computer Science, MIT  
Curtis Northcutt was born and raised in a rural area between Lexington and Athens, Kentucky. His father, grandfather, and great-grandfather worked as mailmen and his mother worked minimum-wage jobs. After graduating valedictorian of Vanderbilt's College of Engineering in 2013, Curtis attended MIT, where he created a cheating detection system used by MITx and HarvardX MicroMasters courses and was awarded the MIT Masters Thesis Award (2017). His PhD at MIT (2017-2021) focuses on AI algorithms to augment human intelligence. Curtis invented confident learning and the Python package 'cleanlab' for weak supervision and finding label errors in datasets. He has a decade of experience in AI and industry, including work with research groups at Google, Oculus, Facebook AI Research, Amazon, Microsoft Research, NASA, MIT, and Harvard, as well as prior startup experience as Chief AI Scientist with Knowledge AI.

***Name***

Kelton Hardrict Jr.

***Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates***

Engineer Deuce Drone - 2020 - Present; ChipBrain, Director - June 2020 - Present; MIT with a degree in Aerospace Engineering (2016-2020)  
Kelton Hardrict Jr. (KJ) Kelton Hardrict Jr. (KJ) is a graduate of MIT with a degree in Aerospace Engineering. He is an experienced researcher having conducted research in MIT's Space Propulsion Lab, Human Systems Lab, and Space Systems Lab; he has also spent a summer conducting research in Stanford's Structures and Composites Lab. In industry, KJ has completed two successful intern stints at Northrop Grumman Aerospace Corporation in the roles of Software Engineer and Systems Dynamics Engineer. During his undergraduate career, KJ has also created and grown his brand on YouTube with over 10 million views and 99,000 subscribers. Next fall, KJ plans to begin his pursuit of both an Aerospace Engineering Master's Degree and Ph.D. at Stanford University in autonomous systems. KJ is currently taking a leave of absence from his pursuit of both an Aerospace Engineering Master's Degree and Ph.D. at Stanford University in autonomous systems.

***Name***

Shannon Keyes

***Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates***

ChipBrain, Director - June 2020 - Present; Middle School Humanities Teacher, September 2018-Current, Seacoast Charter School; Assistant Deputy Clerk of Court, September 2016-2018, State of New Hampshire Superior Court—Rockingham County; Judicial Law Clerk Supervisor, August 2015-December 2016, State of New Hampshire Superior Court, Statewide  
Shannon began her legal career as a judicial law clerk for the New Hampshire Superior Court. After working closely with several justices, she became the superior court's first permanent supervisor for clerks throughout the state. She applied her management skills in the administration of the courts as an assistant deputy clerk. She is currently a Middle School humanities teacher at Seacoast Charter School.

***Name***

John Fanning

***Principal occupation and employment responsibilities during at least the last three (3) years with start and ending dates***

2012- Present: CEO Zelgor Inc.; July 2020-Present: Board Member, ChipBrain  
John Fanning graduated from the University of Miami in 2014 with a degree in Entrepreneurship. He founded Zelgor Inc. in 2012 after graduating from Draper University, where he led his team to first place in the month-long business development competition. At Draper U, he finished top 10 in the VC pitch competition with his idea for a GPS-based mobile game that let users take over the real world. Previously, he worked as a web manager for Netgames, where he worked with Assist Software to

develop a web-based chess application for their most successful game website, Chess.net.

## Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

## Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Our product is being built to be an emotionally intelligent, persuasive, and personalized AI assistant that joins sales reps in customer calls, providing real-time feedback on how the conversation is affecting the emotional state of the customer at each point in time, as well as real-time coaching about what to say, when to say it, and how to say it. We believe that artificial intelligence can teach people to be more emotionally intelligent, more persuasive, and ultimately more effective in conversation and negotiation. We imagine a world in which our AI can help any human in any company—in any market—sell anything. We are building an emotionally intelligent and persuasive AI assistant that should provide feedback and live coaching to sales professionals during customer calls to help them close more deals. Our product is designed to combine supervised and unsupervised machine learning techniques to provide real-time emotion, tone, and facial expression feedback in live conversations across all modalities of digital communication: text, voice, and video—this should take the guesswork out of identifying conversational and emotional cues and enable sales professionals to see at a glance how they are “coming off” to customers. By measuring the customer’s emotional distribution over time of a conversation, our AI should be able to identify the exact turning points in the conversation when a salesperson made the most compelling statements that had the highest impact on the customer. By learning the phrases, techniques, and domain-specific knowledge from top performers that are used in persuasive and successful sales conversations, our

AI assistant should then be able to suggest the most effective rhetoric and tone to use, in real-time, for each type of customer it has profiled in addition to personalizing this to the unique strengths and weaknesses of the individual salesperson. In addition to live support during customer calls, we plan to provide summary statistics for each salesperson, which should include comparison of their performance to optimal benchmarks, and specific examples of their previous text, speech, or expressions that led to customer conversion. Our target customers are companies and organizations with sales departments conducting digitized communications with customers—one of the markets expected to grow dramatically in a post-pandemic world as company operations should increasingly become more virtual. ChipBrain is a subscription-based, B2B software-as-a-service (SaaS) company. The company plans to distribute its product as a standalone product and as an add-on to existing CRMs via key partnerships.

ChipBrain currently has 6 employees.

## Risk Factors

*A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.*

*In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.*

*The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.*

*These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.*

### **7. Material factors that make an investment in ChipBrain LLC speculative or risky:**

1. Our success depends in part on our ability to grow and take advantage of efficiencies of scale. To accomplish our growth strategy, we may be required to raise and invest additional capital and resources and expand our marketing efforts in several geographic markets. We cannot be assured that we will be successful in raising the required capital.
2. Our future growth depends to a large extent on our ability to effectively anticipate and adapt to customer requirements and offer services that meet customer demands. If we are unable to attract new customers and/or retain new customers, our business, results of operations and financial condition may be materially adversely affected.
3. The failure to attract and retain key employees could hurt our business, and our management does not have extensive experience in the operation of businesses such as ours. Our success also depends upon our ability to attract and retain numerous highly qualified, technical and managerial employees. Our failure to attract and retain skilled management and employees may prevent or delay us from pursuing certain opportunities. If we fail to successfully fill many management roles, fail to fully integrate new members of our management team, lose the services of key personnel, or fail to attract additional qualified personnel, it will be significantly more difficult for us to achieve our growth strategies and success. We believe it is important to negotiate with potential employees and, if appropriate, engage them on a part-time basis or on a project basis and compensate them at least partially, with a stock option grant. There is a high demand for highly trained and managerial staff members. If we are not able to fill these positions, it may have an adverse affect on our business.
4. We may conduct future offerings of our membership units and pay debt obligations with our membership units which may diminish our investors' pro rata ownership and depress our stock

price. We reserve the right to make future offers and sales, either public or private, of our securities, including sales of equity or securities convertible into units at prices differing from the price of the units previously issued. In the event that any such future sales of securities are affected or we use our units to pay principal or interest on our debt obligations, an investor's pro rata ownership interest may be reduced to the extent of any such future sales.

5. Competition in the markets in which we compete could prevent us from generating or sustaining revenue growth and generating or maintaining profitability. Our business is competitive, and we expect it to become increasingly competitive in the future as more startups enter the industry. We may also face competition from large companies, any of which might have more capital than we have, and launch its own business that competes with us.
6. We operate in an emerging market that is characterized by rapid changes in customer requirements, frequent introductions of new and enhanced products, and continuing and rapid technological advancement. If we are unable to develop new services that address customers' needs, to deliver our applications in one seamless integrated product offering that addresses customers' needs, or to enhance and improve our services in a timely manner, we may not be able to achieve or maintain adequate market acceptance of our services. Our ability to grow is also subject to the risk of future disruptive technologies. Our future growth depends to a large extent on our ability to effectively anticipate and adapt to customer requirements and offer services that meet customer demands. If we are unable to attract customers and/or retain customers due to any of the aforementioned reasons, our business, results of operations and financial condition may be materially adversely affected.
7. Major health epidemics, such as the outbreak caused by a coronavirus (COVID-19), and other outbreaks or unforeseen or catastrophic events could disrupt and adversely affect our operations, financial condition and business. The United States and other countries have experienced, and may experience in the future, major health epidemics related to viruses, other pathogens, and other unforeseen or catastrophic events, including natural disasters, extreme weather events, power loss, acts of war, and terrorist attacks. For example, there was an outbreak of COVID-19, a novel virus, which has spread to the United States and other countries and declared a global pandemic. The global spread of COVID-19 has created significant volatility and uncertainty in financial markets. Although COVID-19 is currently not material to our results of operations, there is significant uncertainty relating to the potential impact of COVID-19 on our business. The extent to which COVID-19 impacts our current capital raise and our ability to obtain future financing, as well as our results of operations and financial condition, generally, will depend on future developments which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions taken by governments and private businesses to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 continue for an extensive period of time, our business, results of operations, and financial condition may be materially adversely affected.
8. Any forecasts we make about our operations may prove to be inaccurate. We must, among other things, determine appropriate risks, rewards, and level of investment in our product lines, respond to economic and market variables outside of our control, respond to competitive developments and continue to attract, retain, and motivate qualified employees. There can be no assurance that we will be successful in meeting these challenges and addressing such risks and the failure to do so could have a materially adverse effect on our business, results of operations, and financial condition. Our prospects must be considered in light of the risks, expenses, and difficulties frequently encountered by companies in the early stage of development. As a result of these risks, challenges, and uncertainties, the value of your investment could be significantly reduced or completely lost.
9. Maintaining our reputation is critical to our ability to attract and retain clients, and our failure, or perceived failure, to appropriately operate our business or deal with matters that give rise to reputation risk may materially and adversely harm our business, prospects and results of operations. Our failure to deliver appropriate standards of service and quality could result in customer dissatisfaction, litigation and heightened regulatory scrutiny, all of which can lead to lost revenue, higher operating costs and harm to our reputation. Further, negative publicity regarding us, whether or not true, may be detrimental to our business.
10. An intentional or unintentional disruption, failure, misappropriation or corruption of our network and information systems could severely affect our business. We depend on various

information systems to support our customers' requirements and to successfully manage our business. Any inability to successfully manage the procurement, development, implementation or execution of our information systems and back-up systems, including matters related to system security, reliability, performance and access, as well as any inability of these systems to fulfill their intended purpose within our business, could have an adverse effect on our business and results of operations. This disruption might be caused by computer hacking, computer viruses, worms and other destructive or disruptive software, "cyber attacks"; and other malicious activity, as well as natural disasters, power outages, terrorist attacks and similar events. Such events could have an adverse impact on us and our customers, including degradation of service, service disruption, and damage to our equipment and data. In addition, our future results could be adversely affected due to the theft, destruction, loss, misappropriation or release of confidential customer data or intellectual property. Operational or business delays may result from the disruption of network or information systems and the subsequent remediation activities. Moreover, these events may create negative publicity resulting in reputation or brand damage with customers.

11. We are subject to the data privacy and protection laws and regulations adopted by federal, state and foreign governmental agencies. Data privacy and protection is highly regulated and may become the subject of additional regulation in the future. Privacy laws restrict our storage, use, processing, disclosure, transfer and protection of personal information, including credit card data, provided to us by our customers as well as data we collect from our customers and employees. We strive to comply with all applicable laws, regulations, policies and legal obligations relating to privacy and data protection. However, it is possible that these requirements may be interpreted and applied in a manner that is inconsistent from one jurisdiction to another and may conflict with other rules or our practices. Should this occur, we may be subject to fines, penalties and lawsuits, and our reputation may suffer. We may also be required to make modifications to our data practices that could have an adverse impact on our business.
12. We could be liable for breaches of security on our website, fraudulent activities of our users, or the failure of third party vendors to deliver credit card transaction processing services. A fundamental requirement for operating an SaaS business is the secure transmission of confidential information, data, and media. Although we design our systems and processes to protect customer information and prevent fraudulent credit card transactions and other security breaches, failure to mitigate such fraud or breaches may adversely affect our operating results.
13. We have a limited operating history upon which investors may base an evaluation of our potential future performance. In particular, we have not proven that we can develop and maintain relationships with key vendors and strategic partners to extract value from our intellectual property, raise sufficient capital in the public and/or private markets, or respond effectively to competitive pressures. As a result, there can be no assurance that we will be able to develop or maintain consistent revenue sources, or that our operations will be profitable and/or generate positive cash flow.
14. We are highly dependent on the services of our founder. Our future business and results of operations depend in significant part upon the continued contributions of our CEO and CTO. If we lose those services or if either fails to perform in their current position, or if we are not able to attract and retain skilled employees in addition to our CEO, CTO, and the current team, this could adversely affect the development of our business plan and harm our business. In addition, the loss of any other executive officers could harm the Company's business, financial condition, cash flow and results of operations.
15. We continue to seek technical and managerial staff members. We believe it is important to negotiate with potential employees and, if appropriate, engage them on a part-time basis or on a project basis and compensate them at least partially, with an equity option grant. There is a high demand for highly trained and managerial staff members. If we are not able to fill these positions, it may have an adverse effect on our business.
16. *The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.*

You should not rely on the fact that our Form C, and if applicable Form D is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval,

endorsement or guarantee of compliance as it relates to this Offering.

17. *Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.*

The securities being offered have not been registered under the Securities Act of 1933 (the "Securities Act"), in reliance on exemptive provisions of the Securities Act. Similar reliance has been placed on apparently available exemptions from securities registration or qualification requirements under applicable state securities laws. No assurance can be given that any offering currently qualifies or will continue to qualify under one or more of such exemptive provisions due to, among other things, the adequacy of disclosure and the manner of distribution, the existence of similar offerings in the past or in the future, or a change of any securities law or regulation that has retroactive effect. If, and to the extent that, claims or suits for rescission are brought and successfully concluded for failure to register any offering or other offerings or for acts or omissions constituting offenses under the Securities Act, the Securities Exchange Act of 1934, or applicable state securities laws, the Company could be materially adversely affected, jeopardizing the Company's ability to operate successfully. Furthermore, the human and capital resources of the Company could be adversely affected by the need to defend actions under these laws, even if the Company is ultimately successful in its defense.

18. *The Company has the right to extend the Offering Deadline, conduct multiple closings, or end the Offering early.*

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment up to 48 hours before an Offering Deadline, if you choose to not cancel your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. If the Company reaches the target offering amount prior to the Offering Deadline, they may conduct the first of multiple closings of the Offering prior to the Offering Deadline, provided that the Company gives notice to the investors of the closing at least five business days prior to the closing (absent a material change that would require an extension of the Offering and reconfirmation of the investment commitment). Thereafter, the Company may conduct additional closings until the Offering Deadline. The Company may also end the Offering early; if the Offering reaches its target offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

19. *The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.*

Despite that the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the allocation of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

20. *The Securities issued by the Company will not be freely tradable until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with his or her attorney.*

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Securities. Because the Securities offered in this Offering have not been registered under the Securities Act or under the securities laws of any state or non-United

States jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the shares of Securities may also adversely affect the price that you might be able to obtain for the shares of Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Investors in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

21. *Investors will not be entitled to any inspection or information rights other than those required by Regulation CF.*

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders.

22. *The shares of Securities acquired upon the Offering may be significantly diluted as a consequence of subsequent financings.*

Company equity securities will be subject to dilution. Company intends to issue additional equity to future employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence, holders of Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's economic interests in the Company.

23. The amount of additional financing needed by Company will depend upon several contingencies not foreseen at the time of this Offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, Company may have to raise additional capital at a price unfavorable to the existing investors. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the investor's Company securities.

24. *There is no present public market for these Securities and we have arbitrarily set the price.*

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

25. In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Investor is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

26. THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS OFFERING STATEMENT AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND

FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

## The Offering

ChipBrain LLC (“Company”) is offering securities under Regulation CF, through Netcapital Funding Portal Inc. (“Portal”). Portal is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$821,153 through an offering under Regulation CF. Specifically, if we reach the target offering amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

In the event The Company fails to reach the offering target of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

### 8. What is the purpose of this offering?

Your funding will enable ChipBrain to pay salaries to our engineers, as well as make new full-time hires. Our new hires include PhD scientists, product managers, and industry leaders who will supplement our technical expertise with 30+ years of experience leading sales and product teams. To date, ChipBrain has done no formal marketing and received great interest nonetheless via word-of-mouth. In order to meet the high demand anticipated after our pilot launch, we plan to use the funds to build more formalized marketing and sales pipelines.

### 9. How does the issuer intend to use the proceeds of this offering?

| Uses                         | If Target Offering Amount Sold | If Maximum Amount Sold |
|------------------------------|--------------------------------|------------------------|
| Intermediary Fees            | \$490                          | \$40,236               |
| Engineering & Development    | \$5,706                        | \$573,247              |
| Marketing                    | \$1,902                        | \$103,835              |
| General/Admin. Expense       | \$1,902                        | \$103,835              |
| <b>Total Use of Proceeds</b> | <b>\$10,000</b>                | <b>\$821,153</b>       |

### 10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Netcapital Funding Portal to purchase securities, both investors and ChipBrain LLC must agree that a transfer agent, which keeps records of our outstanding Common Units (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of Securities that they own in our company. These Securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment

commitment.

**11. How can an investor cancel an investment commitment?**

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Netcapital, browsing to the Investments screen, and clicking to cancel your investment commitment. Netcapital will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

**12. Can the Company perform multiple closings or rolling closings for the offering?**

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

## **Ownership and Capital Structure**

### **The Offering**

**13. Describe the terms of the securities being offered.**

We are issuing Securities at an offering price of \$0.93 per share.

**14. Do the securities offered have voting rights?**

The Securities are being issued with voting rights. However, so that the crowdfunding community has the opportunity to act together and cast a vote as a group when a voting matter arises, a custodian will cast your vote for you. Please refer to the custodian agreement that you sign before your purchase is complete.

**15. Are there any limitations on any voting or other rights identified above?**

You are giving your voting rights to the custodian, who will vote the Securities on behalf of all investors who purchased Securities on the Netcapital crowdfunding portal.

**16. How may the terms of the securities being offered be modified?**

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

## Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

## Description of Issuer’s Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

### Securities

| Class of Security | Amount Authorized | Amount Outstanding | Voting Rights | Other Rights |
|-------------------|-------------------|--------------------|---------------|--------------|
| Common Units      | 5,156,634         | 4,173,674          | Yes           |              |

### Options, Warrants and Other Rights

None.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

The Company has no existing convertible debt, and there are no warrants, options or other convertible instruments outstanding.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The Company’s Operating Agreement can be amended by the holders of the Member Units. As minority owners, the Netcapital investors are subject to the decisions made by the majority owners. The issued and outstanding membership interest units give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as the issuance of new units, or the sale of debt, convertible debt or assets of the company.

**21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.**

Pre-money valuation determined at Issuer's discretion.

**22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?**

As the holder of a majority of the voting rights in the company, our Members may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority members may decide to issue additional membership interest units to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

**23. What are the risks to purchasers associated with corporate actions including:**

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional shares of our common units will dilute the ownership of the Netcapital investors. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common units, if there is a market price, could decline as a result of the additional issuances of securities. If we repurchase securities, so that the above risk is mitigated, and there are fewer shares of common units outstanding, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our membership units would decline. A sale of our company or of the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. Our company currently has negative net worth (our liabilities exceed our assets) and it is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital, such as raising additional funds through public or private debt or the sale of equity. Such financing may not be available when needed. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. There can be no assurance that we will be able to obtain financing if and when it is needed on terms we deem acceptable. If we are unable to obtain financing on reasonable terms, or, if significant issues arise with related parties, we could be forced to discontinue our operations. We anticipate that any transactions with related parties will be vetted and approved by manager(s) unaffiliated with the related parties.

**24. Describe the material terms of any indebtedness of the issuer:**

Not applicable.

**25. What other exempt offerings has ChipBrain LLC conducted within the past three years?**

Date of Offering: 10/2020

Exemption:

Reg. CF (Crowdfunding, Title III of JOBS Act, Section 4(a)  
(6))

Securities Offered: Common Stock

Amount Sold: \$248,844

Use of Proceeds:

Engineering development and general admin expenses.

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:
1. any director or officer of the issuer;
  2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
  3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
  4. any immediate family member of any of the foregoing persons.

No.

## Financial Condition of the Issuer

27. Does the issuer have an operating history?

No.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

ChipBrain is an early-stage company with limited assets and no liabilities. The company is not yet generating revenues or earnings. As a result, the company currently lacks liquidity. Moving forward, we plan to generate revenues through the sale of our software. Since our last capital raise of approximately \$248,000, under Regulation CF, we have completed development of the product and assembled a cohort of large customer companies to participate in our pilot. We expect to generate revenue through these early pilots. This next round of capital will see us through the duration of the pilot, as well as enable us to pay our rapidly expanding team.

## Financial Information

29. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.

See attachments:

CPA Audit Report:

auditreport.pdf

30. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated in the same form as described in Question 6 of this Question and Answer format, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer or managing member of any such solicitor, prior to May 16, 2016:

1. Has any such person been convicted, within 10 years (or five years, in the case of issuers, their predecessors and affiliated issuers) before the filing of this offering statement, of any felony or misdemeanor:
  1. in connection with the purchase or sale of any security?
  2. involving the making of any false filing with the Commission?
  3. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities?
2. Is any such person subject to any order, judgment or decree of any court of competent jurisdiction, entered within five years before the filing of the information required by Section 4A(b) of the Securities Act that, at the time of filing of this offering statement, restrains or enjoins such person from engaging or continuing to engage in any conduct or practice:
  1. in connection with the purchase or sale of any security?;
  2. involving the making of any false filing with the Commission?
  3. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities?
3. Is any such person subject to a final order of a state securities commission (or an agency or officer of a state performing like functions); a state authority that supervises or examines banks, savings associations or credit unions; a state insurance commission (or an agency or officer of a state performing like functions); an appropriate federal banking agency; the U.S. Commodity Futures Trading Commission; or the National Credit Union Administration that:
  1. at the time of the filing of this offering statement bars the person from:
    1. association with an entity regulated by such commission, authority, agency or officer?
    2. engaging in the business of securities, insurance or banking?
    3. engaging in savings association or credit union activities?
  2. constitutes a final order based on a violation of any law or regulation that prohibits fraudulent, manipulative or deceptive conduct and for which the order was entered within the 10-year period ending on the date of the filing of this offering statement?
4. Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:
  1. suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment adviser or funding portal?
  2. places limitations on the activities, functions or operations of such person?
  3. bars such person from being associated with any entity or from participating in the offering of any penny stock?

If Yes to any of the above, explain:

5. Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders the person to cease and desist from committing or causing a violation or future violation of:
  1. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder?
  2. Section 5 of the Securities Act?
6. Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?
7. Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering

statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?

8. Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?

ChipBrain LLC answers 'NO' to all of the above questions.

## Other Material Information

31. In addition to the information expressly required to be included in this Form, include: any other material information presented to investors; and such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The following documents are being submitted as part of this offering:

**Governance:**

Certificate of Formation: certificateofformation.pdf

Operating Agreement: operatingagreement.pdf

**Opportunity:**

Pitch Deck: pitchdeck.pdf

**Financials:**

Additional Information: otherfinancial.pdf

## Ongoing Reporting

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its web site, no later than 120 days after the end of each fiscal year covered by the report:

Once posted, the annual report may be found on the issuer's web site at: [www.chipbrain.com](http://www.chipbrain.com)

The issuer must continue to comply with the ongoing reporting requirements until:

- the issuer is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
- the issuer has filed at least one annual report pursuant to Regulation Crowdfunding and has fewer than 300 holders of record and has total assets that do not exceed \$10,000,000;
- the issuer has filed at least three annual reports pursuant to Regulation Crowdfunding;
- the issuer or another party repurchases all of the securities issued in reliance on Section 4(a)(6) of the Securities Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or
- the issuer liquidates or dissolves its business in accordance with state law.
