THE SMART-STOR PRODUCT LINE SOLVES MAJOR PAIN POINTS AND DELIVERS VALUABLE DATA FROM CONSUMERS AND CULTIVATORS

LEVERAGES THE EXPLOSIVE CANNABIS AND HEMP MARKETS!

The Problems:

- ➔ Cannabis/Hemp Too Dry: Rapid Loss of Quality, Potency and Revenue
- ➔ Cannabis/Hemp Too Wet: Leads to Life Threatening Dangers
- ➔ Product Safety, Integrity and Quality are Paramount Consumer Concerns

PENDRAM'S SMART-STOR SYSTEM

We'll use our unique, cloud connected products to create a new “go to” quality smart seal *of QUALITY*

- Delicate Terpenes Protected
- Consistent Flower Quality
- Consumer Safety, Confidence & Satisfaction
- Unique Differentiation for our Brand Customers

The Kicker:

We will leverage market presence to create valuable data and insights in our Smart-Stor Cloud

CONSUMER FLAGSHIP PRODUCT

- Enhanced Prototype Design Complete
 - Provision Patent Filed
 - Pre-orders received
 - Projected shipping 2021
- Target MSRP \$149 - GM 70%
- Target Average \$0.50 Per Installed Unit Monthly Digital Engagement Revenue - GM 95%

SMART-LID'S UNIQUE, UNMATCHED FEATURE SET DRIVES COMPELLING CUSTOMER BENEFITS

8. Bluetooth & WIFI

Alexa, Google assist & Siri control and management

1. Precise Humidity/Temp Control

Dry, cure and store automated and odor free

7. Smart App Value – Smart-Stor Connect

Adds benefits through remote access monitoring and control plus education and resources. Developer API

2. Electronically Controlled Lock and Tamper Resistant

Remotely lock and unlock jars for child safety, compliance and anti-theft

6. Rechargeable

Long life battery operates THREE MONTHS on single charge

5. Interior Camera/Lights

monitors supply, includes internal light and top rim indicator lights

3. Rehydrates overly dry bud

Improving taste and aroma

4. Mold, Bug & Fungus Resistant

Protects against health risks related to mold & mildew

Smart-Lid Initial Launch Results: Social Media Explosion In Less Than 30 Days

May 2020 – June 2020

Audience Growth Up 602%

Engagements* Up 76%

Impressions: the number of times your content is displayed.

Engagement: the number of interactions people have with your content (i.e.: likes, comments, shares, retweets, etc.)

What People Are Saying About Smart-Lid!

Rev Mary Miller

" know how important this is and my husband and I always thought Cannabis should have its own "humidor" without having to mix strains. Thank you for this product! It's a biggie"

Cindy J.

"Finally, a better and more precise solution than those expensive and unhealthy salt packets we have been using for years"

Mark R.

"We are huge advocates for proper storage of cannabis, so we want to share our 5 Star review of Smart-Lid. Storing bud incorrectly is literally like throwing money away"

Susan L.

"Living in Arizona, dry weed has always been a major problem....Smart-Lid solves this problem and has many other benefits I absolutely love!"

Thomas G.

"Amazing Results and many cool features....game changer in the cannabis storage category"

Freddie G.

"A no brainer for any cannabis connoisseur and anyone buying different strains or large quantities. It will keep your buds perfect in any conditions, automated and odor free"

SMART-LID – Culinary Connoisseur Edition

Humidity Control For Pantry Items Prevents Mold, Moisture & Mildew

❖ Dried Fruit

Raisins and various dried fruits that become too dry are hard to chew and can lose their color, taste and vitamins. Dried fruits that become too moist will grow mold.

❖ Popcorn

Did you know the critical influence on the fluffiness and taste of popcorn is largely determined by how much moisture is in the kernel? Kernels stored too dry pop smaller and have a tough texture that no amount of butter can overcome.

❖ Flour and Sugar

By monitoring the ambient humidity and adding or removing moisture as necessary to maintain the perfect humidity, temp and air flow, you will always get the perfect result in baking and cooking. Smart-Lid will keep your flours and sugar perfectly soft and ready for all of your culinary needs.

❖ Spices & Herbs

The vivid taste you want from your spices won't be there if they aren't kept in at their ideal humidity level. With too little moisture, spices lose their color, aroma and taste. When spices have too much moisture, they won't measure, pour or shake well and the nuances are watered down.

MSRP \$59

SMART-LID

SMART-BUDDY - DIY Hydroponic Growing System

Includes the Smart-Lid Plus a Complete Hydroponic Grow Kit for the Beginner

MSRP \$179

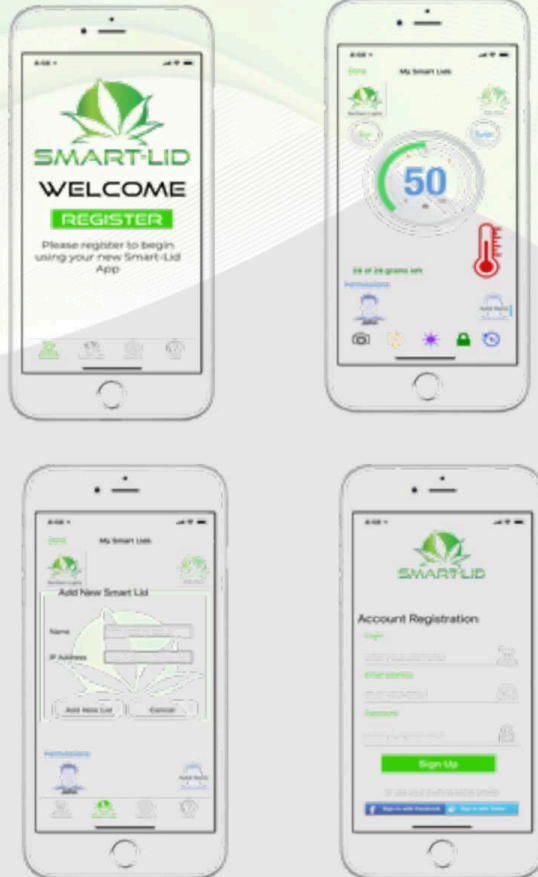

SMART-BUDDY
• DIY GROW KIT •

- **Predictable, Reliable, Turnkey DIY System GROWS, DRYs, CURES and STORES**
- **Consumers Don't Want Added Pesticides, Additives and Chemicals and HATE paying taxes!**
- **Complete Hydroponic System DIY Kit Includes:** Smart-Lid, seed pack, germination soil, net pot, hydro wick, wide mouth quart jar and fertilizer packet. Hydro wick pulls water from jar to the plant roots, eliminating the need to water every day. Grows one (1) 4ft Plant.

FDA VAPING CRISIS: Vape-related health worries and bans are picking up steam! Vaping is the No. 2 product in market 21%, second only to marijuana flower 46%, and edibles (11%). With Vaping sales plummeting, we anticipate a significant shift to flower resulting in additional market share and revenue worldwide.

MANAGEMENT TEAM

Mary June Makoul **Chief Executive Officer** **Co-Founder**

Mary June has 25+ years of experience in marketing, strategic planning, business development, branding, packaging design and media relations. She is a strong and inspirational leader with a talent for tactical execution, business-to-business marketing, strategic alliance development and new product positioning. Prior to joining Pendram, her career includes senior management positions at Paramount Pictures Corporation, Proxima, Fiskars and most recently as President of her own successful Marketing Consulting firm with clients throughout the San Diego area. She is well known for her ability to make precise strategic decisions while employing a hands-on approach to accomplishing team and company success. Mary June has a BA in Business Administration and Marketing from New York University and donates her free time to fundraising for a number of local charity organizations.

Jon Siann **Chief Technology Officer** **Founder**

Jon is an entrepreneur, inventor and design engineer with over 40 successful patents. He founded and launched a number of innovative companies focused on delivering enterprise class, ultra low power, hardware, software communications and location platforms. Jon is creative, passionate, and determined with a unique talent for forming strategic teams to execute his vision. He has a strong track record of execution and investor ROI. As CEO founder of his most recent venture in 2015, he closed an 8-figure licensing non-dilutive deal with Verizon and leveraged \$2.8M in angel equity funding into a \$24M all cash acquisition exit within 14 months of incorporation. Jon holds an EE from University of Edinburgh, UK and started his successful career with semiconductor design at IBM Labs. Jon also held high level executive, technical and marketing positions at Peregrine, Netlist, Rockwell, Brooktree, AMCC, Bretelon, Micropower & Sigma Designs.
