BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer. For a description of our business, please refer to attached Appendix A, Business Description and Plan.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

- (1) Formulations have no patents. We may not be able to prevent unauthorized use of our trade secrets.
- (2) The company is dependent on its management team (especially Mr. Walwyn).
- (3) Our products contain real fruits which are subject to market forces that impact commodities.
- (4) Scaling our business will depend on a subsequent round to raise capital for inventory production.
- (5) The company can offer no guarantee that future results will conform to the projections.
- (6) A variety of factors may cause our operating results to fluctuate significantly.
- (7) There can be no assurances that our business model will be an accurate representation of future events.
- (8) Significant increases in excise taxes on alcohol products may adversely affect our financial condition.
- (9) The image and reputation of our products may be impacted jby various reasons including litigation.
- (10) The company presently has limited operating capital and is dependent on receipt of proceeds from elsewhere.
- (11) In order to achieve the company's goals the company will need to procure funds in addition to what was raised in this offering.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified. Add additional lines and number as appropriate.

THE OFFERING

9. What is the purpose of this offering?

10. How does the issuer intend to use the proceeds of this offering?

	If Target Offering Amount Sold	If Maximum Amount Sold

(B)		
(C)		
Net Proceeds	\$	\$
Use of Net Proceeds		
(A)		
(B)		
(C)		
Total Use of Net Proceeds	\$	\$

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity.

11. (a) Did the issuer make use of any written communication or broadcast script for testing the waters either (i) under the authorization of Rule 241 within 30 days of the initial filing of the offering statement, or (ii) under the authorization of Rule 206? If so, provide copies of the materials used.

(b) How will the issuer complete the transaction and deliver securities to the investors?

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met.

If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Caribbean Smooth, LLC
Notes to the Financial Statement
December 31, 2020 and 2019

1. Summary of Significant Accounting Policies

The Company

Caribbean Smooth, LLC (the Company) was founded in the state of Georgia in March 2014. The Alcohol Tobacco Trade and Tax Bureau issued Caribbean Smooth a Federal Basic Permit in August 2014 allowing the company to conduct business in the alcohol industry as a supplier. This license allows the company to buy and resell spirits to other wholesalers/distributors in the United States and its territories.

During 2018, 2019, and 2020 the company successfully tested the Georgia, Alabama & Caribbean markets, selling 3,000 cases during a 24-month time frame. During this time, the company serviced a \$221,000 through an SBA loan program and raised an additional \$46,000 through crowdfunding and personal savings to build the business and complete our first production run for the proof of concept.

Sales dropped off significantly in 2019 and 2020 following the conclusion of our market test and as inventory, money and overall cash flow ran low.

Fiscal Year

The company operates on a December 31st year-end.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP).

Notes to the Financial Statement
December 31, 2020 and 2019

1. Summary of Significant Accounting Policies (Continued)

Accounts Receivables

Trade receivables from customers are uncollateralized customer obligations due under normal trade terms, primarily requiring payment 30-90 days after deliverables. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoice. As of December 31, 2020, and 2019 the Company had \$0 in accounts receivables.

Inventory

Inventories are stated at cost. At December 31, 2020, the balance of inventory related to finished goods was \$14,931. At December 31, 2019 the balance of inventory related to finished goods was \$23,741.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Intangible Assets

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 - Unobservable inputs which are supported by little or no market activity.

Caribbean Smooth, LLC
Notes to the Financial Statement
December 31, 2020 and 2019

1. Summary of Significant Accounting Policies (Continued)

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of Inception. Fair values were assumed to approximate carrying values because of their short term in nature or they are payable on demand.

Concentrations of Credit Risk

From time to time cash balances, held at a major financial institution may exceed federally insured limits of \$250,000. Management believes that the financial institution is financially sound, and the risk of loss is low.

Income Taxes

The Company has elected to be treated as a partnership for federal income tax purposes. Pursuant to the Internal Revenue Code, the Company's earnings are included on the members' personal income tax returns and taxed depending on their personal tax situations. Accordingly, no provision has been made for Federal or State income taxes.

Overview

Caribbean Smooth manufactures and markets Ou-Oui! Premium Liqueur. Created in the back yards of the Caribbean, we are bringing a REAL taste of the islands to the world. Much like how White Claw has proven that demand for a more drinkable spirit exists, Ou-Oui! is delivering a better tasting, more authentic, ready to drink and ready to mix alternative.

Positioned to become an early acquisition target after achieving annual sales of 150,000+ cases and \$18 million in revenues. Distribution in 35 U.S. states and about 25 countries.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Liquidity & Capital Resources

To-date, the company has been financed with \$221,000 in debt.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 12 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 6 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Caribbean Smooth, LLC cash in hand is \$59,845, as of April 2021. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$924/month, for an average burn rate of \$924 per month. Our intent is to be profitable in 18 months.

We have depleted our inventory that's available to our distributors and we are now focused on raising the next round for our next production run in 2021. Our sales and operations slowed down significantly in 2019 as our inventory declined toward the end of our market test and our operations were negatively impacted by the pandemic.

Due to the pandemic we will not have any additional revenues until we produce new inventory in 2021. Our expenses will remain low (under \$4000/month) over the next 6 months as we maintain minimal operations while we continue our capital raise with investors.

We are in talks with accredited investors to secure capital specifically for the production of new inventory for our global launch in 2021 and to scale the company.

Customers responded very positively to our limited but focused marketing campaigns. Every weekend for 18 plus months our ambassadors would engage consumers with samples of our liqueurs and signature cocktails at events. A 12 month period of the campaign led to key accounts placing reorders at various levels. 10 accounts reordered 20 and 50 case deals repeatedly.

- Peak reorder rate in 2018: 28%
 - Our top 10 Account Reorders: 29
 - Our top 60 Account Reorders: 98
 - Total cases sold during test period: 3000 cases
