## Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

#### RISK FACTORS

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Filmmaking is a collaborative art form, requiring smooth coordination of multiple parties. Unforeseen forces, such as inclement weather, acts of God and misfortune can delay or otherwise interfere with production.

Filmmaking is competitive and artistic taste among audiences and festival programmers vary widely. The completion of the film in and of itself does not guarantee it will succeed in the marketplace, critically or financially.

Though we shall do our due diligence in hiring processes to ensure there are no hidden liabilities introduced by our cast and crew, the success of films is largely predicated on subtle nuances of the audience, which are chosen through an

predicated on public perception of the performers, which can change through no fault of our own.

Film is distributed through the use of technology, the means of which has evolved steadily in the past decades. While currently the road to festival release, theatrical distribution, and streaming/OTT is clear, technology shifts may complicate or delay distribution.

With the COVID-19 epidemic, film production safety guidelines are still being developed and refined. Even following the strictest guidelines to ensure our cast and crew's safety, it is still possible for the virus to affect our production scheduling.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

#### **Management's Discussion and Analysis of Financial Condition and Results of Operations**

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

##### **Overview**

We are a film production company making a feature film that explores a complicated brother-sister relationship against the backdrop of the homeless crisis in Los Angeles.

We completed production and post-production of the film and are currently pursuing placement at major festivals such as Sundance, Tribeca, and South by Southwest. Our aim is to sell to a major indie film distributor for first-run theatrical release before release on a streaming platform such as Netflix, Amazon, or Hulu, with our investors earning profits from all distribution channels.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

##### **Milestones**

Scrap Film LLC was incorporated in the State of California in August 2020.

Since then, we have:

- Attached name talent Anthony Rapp, Lana Parrilla, Beth Dover, and Khleo Thomas to the project.
- Completed principal photography in July/August 2021.
- Completed post-production in February 2022.
- Met our projected timeline while staying under budget.
- Begun submitting to prestigious film festivals where the film can premiere and generate buzz in advance of a sale.

##### **Historical Results of Operations**

Our company was organized in August 2020 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2021, the Company had revenues of \$2,700 compared to the year ended December 31, 2020, when the Company had revenues of \$0. Our gross margin was % in fiscal year 2021, compared to % in 2020.
- *Assets.* As of December 31, 2021, the Company had total assets of \$95,962.04, including \$95,962.04 in cash. As of December 31, 2020, the Company had \$0 in total assets, including \$0 in cash.
- *Net Loss.* The Company has had net losses of \$326,762.96 and net income of \$0 for the fiscal years ended December 31, 2021 and December 31, 2020, respectively.
- *Liabilities.* The Company's liabilities totaled \$0 for the fiscal year ended December 31, 2021 and \$0 for the fiscal year ended December 31, 2020.

##### **Liquidity & Capital Resources**

We do not anticipate needing to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We may require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy.

##### **Runway & Short/Mid Term Expenses**

Scrap Film LLC cash in hand is \$73,183.56, as of February 2022. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$7,741/month, for an average burn rate of \$7,741 per month. Our intent is to be profitable in 18 months.

Scrap Film LLC cash in hand is \$73,183.56, as of February 19, 2022. Over the last twelve months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$29,353.45/month, for an average burn rate of \$29,353.45 per month. Now that production of the film is complete and post-production of the film is complete, that burn rate will drop significantly. Our expenses for the next year will be covered by the cash in hand and we anticipate starting to see revenues within 12 months.

In the next 3-6 months, expenses will be covered by the company's cash in hand. We expect to start generating revenue within 12 months upon distribution of the

film.

At this time, we are not profitable, as the film has not yet been brought to market. We expect to premiere the film in the next 3-9 months and arrange for distribution. If we secure a full buy-out of the film, we could reach profitability within the next 12 months. If we instead self-distribute the film through individual licensing deals, it could take 2 years or more to reach profitability. Either way, we will not require additional funding to reach a point of profitability.

The company did not receive investment outside of Wefunder. The company's cash in hand will cover short-term burn until we start generating revenue.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*
