

ATOM LIMBS

2020 Report

Dear investors,

It's an exciting time at Atom Limbs! Lots of key hires, prototype development, and inbound waitlist demand since our [182% oversubscribed fundraising](#).

Quick highlights:

1. We hired the who's who of senior leaders from Apple, Tesla, Google, Nike, IDEO to lead architecture, ID, smart wearables, UI/UX, piloting, computer vision. Learn about our world-class team at <https://atomlimbs.com/leadership>
2. Our waitlist doubled — now 200+ people, \$4M+ in projected revenue. Purely inbound interest. We just started outbound efforts and it's already growing 10% week/week.
3. Featured in Fast Company and Axios: <https://www.fastcompany.com/90664640/this-startup-is-bringing-the-first-mind-controlled-prosthetic-arm-to-market> and <https://www.axios.com/anti-aging-drugs-longevity-9ceba4cf-56c2-4702-872f-dbo9a4fb6972.html>
4. Proof-of-concept for breakthrough miniaturized finger motors
5. Proof-of-concept for haptic & kinesthetic tactile feedback system
6. Proof-of-concept for motorized apparel attachment interface + sensor suite
7. Upgraded piloting system: added proportional + simultaneous joint controls for more natural motion
8. Acquired 3,000+ sq ft shop/lab space in San Carlos, CA
9. On track for beta prototype in Q1 2022
10. Release date accelerated forward from 2024 → 2023
11. Selected for 2021 US Air Force "Innovative Defense-Related Technologies" Grant

What's next? We're on track to land the beta prototype in Q1 and excited to host an in-person event to let folks test drive the arm.

We already have amputees and other disabled folks in the office every week testing our prototypes, and look forward to showing more to the general public.

 Tyler Hayes, CEO

We need your help!

Share our waitlist with disabled folks (amputees, paralyzed, anyone with limb issues) → <https://atomlimbs.com/join>

Share our partnership form with clinicians & robotics buyers (eg research universities, mobility companies) → <https://atomlimbs.com/contact>

Sincerely,

Tyler Hayes

Atom Limbs Co-Founder & CEO

Doug Satzger

Co-Founder & Chief Design Officer

Eric Monsef

Co-Founder & Chief Technology Officer

Our Mission

In 5 years, we hope to have sold 1,000 of our initial Atom Touch arms (\$100K-\$300K each). We hope to be moving to the Atom Touch V2 at a lower price point (\$30K-\$50K). We want to emphasize that the Atom Touch arm is poised for both medical and non-medical markets. These future projections cannot be guaranteed.

How did we do this year?

Report Card

A-

The Good

Hired heavy hitters from Apple, Tesla, Google, Nike, IDEO to lead architecture, ID, smart wearables, UI/UX, piloting, computer vision

\$4M+ in projected waitlist revenue — 200+ person waitlist, pure inbound

Upgraded piloting system: added proportional + simultaneous joint controls for more natural motion

The Bad

Took a bit longer to hire some autonomy ICs than anticipated.

Couldn't always get amputees in the office as often as we'd like. Got easier once COVID vaccines became available.

Motor supplies got low in the U.S. for a while so it was harder to get some motors for testing than anticipated.

Thank You!
From the Atom Limbs Team

Tyler Hayes
Atom Limbs Co-Founder &
CEO

Doug Satzger
Co-Founder & Chief Design
Officer

Eric Monsef
Co-Founder & Chief
Technology Officer

Erik Shahoian
Chief Architect

Veteran technologist with world-class track record at Apple, Tesla, Seismic & Immersion. Founder of 2 medical device companies. 35+ years of automotive, medical, aerospace & robotics product / R&D experience. Named on 120+ patents. Engineering BS.

Kar-Han Tan
Chief Machine Learning Scientist

Seasoned Artificial Intelligence, Robotics & Computer Vision expert. Former VP of Engineering at NovuMind. Managed R&D at Singtel & Epson. Head of Advanced Development at HP. Named on 60+ patents and 5000+ citations. Computer Science BS, MS, & PhD.

Greg Springer
Chief Scientist

Engineering exec frequently sought out to solve the hardest problems. Previously with Apple, Google, & Glytways. At Apple, Director of HW Engineering - Core Architecture, and led Thunderbolt standard development. Named on 50+ patents. Engineering BS.

Albert Chi, MD, MSE, FACS
Chief Clinical Officer

Associate Professor of Surgery at Oregon Health Science University. Former Medical Director at Johns Hopkins Targeted Muscle Reinnervation Program & Applied Physics Lab R&D. Lieutenant Commander in US Navy Reserve. Biomedical Engineering BS, MS & MD.

Meg Grant

Smart Wearables Lead
Wearable technology engineer. Textile embedded product experience with Google, Honda & Seismic. Specialties include soft circuit techniques, AR / VR motion & apparel-based exosuits. Network Resident at Autodesk Technology Center. Design BA.

Steven Savas

Lead Mechanical Engineer
Product development pro with go-to-market history for 30+ biomedical, wearables & consumer electronics products. Conception to testing to production experience for 20+ companies including Intel & APDM Wearable Technologies. Mechanical Engineering BS.
