Experience

Co-Founder & CEO

Pav*r

Jul 2019 – Present · 1 yr 3 mos

Louisville, Kentucky Area

The calendar is always the first place we put details about an upcoming meeting or event, but we then use other apps, sticky notes, or sometimes just our brains to remember the important details. With Pav*r, you can add additional fields, like checkboxes, picklists, and text fields, to keep track of those important event details all in one place. Assign tasks, label your calendar entries, and generate documents - all from Google Calendar.
