About

Culmination Brewing Company is a locally owned craft brewery that focuses on innovation and collaboration. The name is a reflection of everything the founders know and love: a culmination of their experiences. Our mission is to create a brand and facility where great beer, excellent food, friends, family, and community can come together to share memories, cheer, and smiles.

Culmination has continually been recognized for its quality by continuing to push the boundaries of brewing with unique beer flavors. You won’t only find straight-forward styles like IPA, pale, and stout. Instead, well-crafted hazy IPAs, farmhouse-style ales, sours, and complex barrel-aged beers all reside here. Everything from crystal clear, clean lagers to funky mixed culture wild ales are brewed in-house and served along with Brewpub staples like pretzels, cheeseburgers, soups and salads.

Culmination has considerable following in Asia as well. In 2018, they co-founded the Fuji to Hood and Hood to Fuji festivals where collaborations between Portland-based and Japanese-based breweries exchange and create together. Culmination is consistently one of the most popular brands in Japan and is planning on distributing to new export partners in 2020 to Hong Kong, Taiwan, and China.

Culmination is a highly respected brewery that strives to continue the evolution of beer. By looking back, they move forward with familiar flavors updated for a modern palate.
