New LinkedIn Alternative

We're on a mission to be the largest network of entrepreneurs in the world and make entrepreneurship accessible to anyone. Our mobile and web app was created to be this home for the Future of Work so everyone can connect in one place. Think of us as the new alternative to LinkedIn for anyone who is or wants to be self-employed.

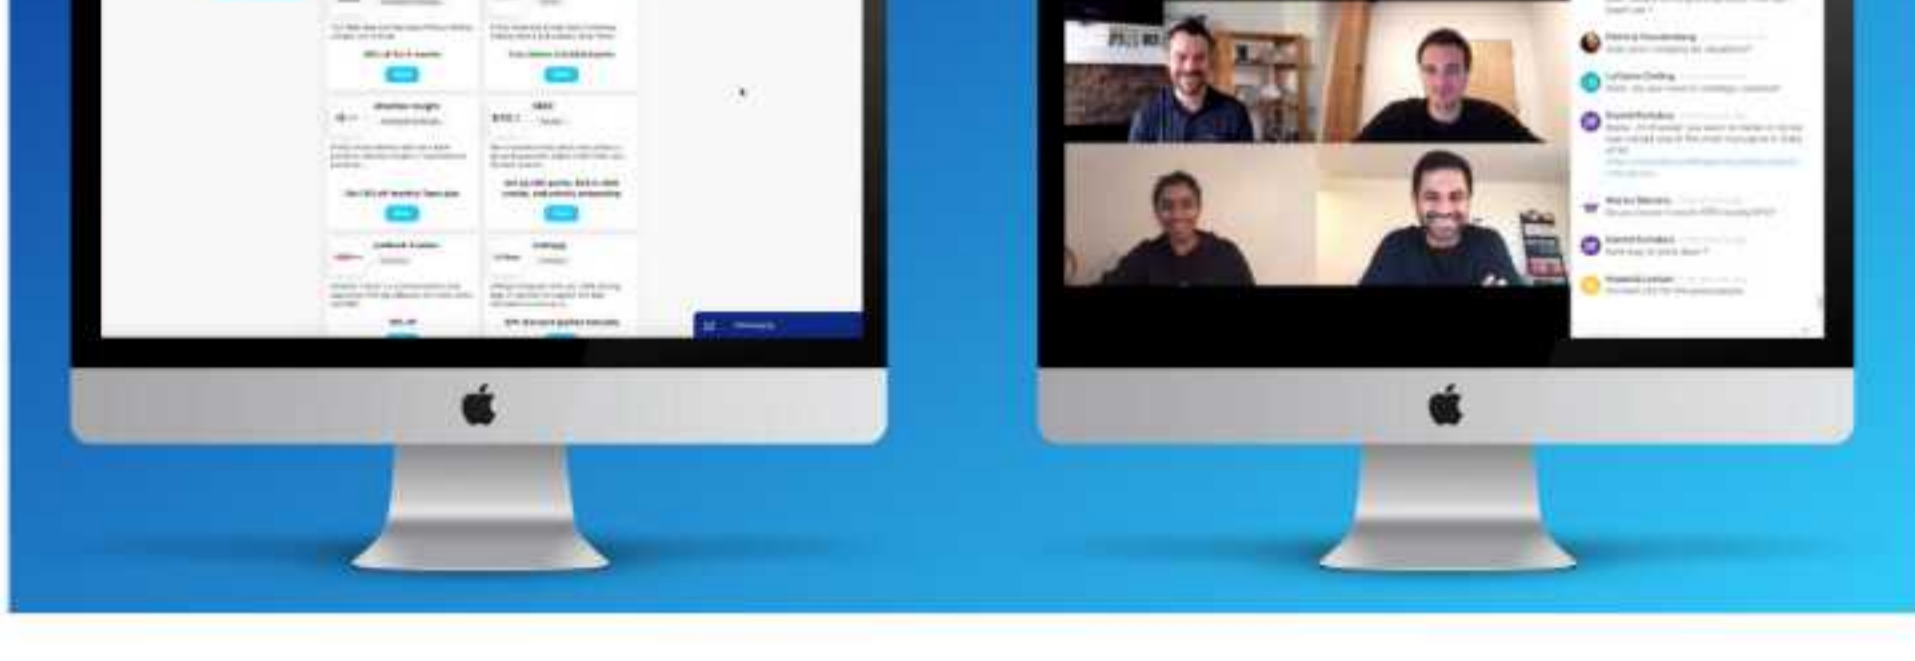

Our Story

We started growing our community through events across the US over the last few years by forming partnerships with Microsoft, WeWork, and other co-working spaces. As we grew to over 160 events and 20,000 members, we knew that we needed a way to connect everyone in our network and entrepreneurs around the world online rather than through events alone. That's why we created our app, so we can make entrepreneurship accessible to anyone for free.

Entre Pro: Premium Subscription

If users want to get the most out of our platform users can sign up for Entre Pro, Our premium membership. This gets members access to all of our events for free and over \$20,000 in deals & discounts with our partners like GSuite, Brex, Toptal, Gust, ZenDesk, Freshworks, and 40 more.
