How Crypto\$hare Works

Users will go on the App or ATM and immediately have access to Lend or Borrow using Collateral!

Blockchain Smart Locker Technology (think Amazon Lockers) allows Borrowers to use physical assets as Collateral.

Digital & Physical Assets for Collateral

Vehicle Titles
 Real Estate Titles
 Commodities

 NFTs

For Physical Assets, the Borrower will place in Blockchain Smart Locker until the loan is paid in full. If Borrower defaults, the Lender can pick up the Physical Collateral from the locker or have it mailed to them.

For Digital Assets, the Borrower will place in CryptoShare Escrow until the loan is paid in full. If Borrower defaults, the Digital Collateral will be sent to the Lenders Digital Wallet.
