Independent Accountant Review Report

The Board of Directors

We have reviewed the accompanying consolidated financial statements of Vuba, Inc (a corporation), which comprise the balance sheets as of December 31st, 2019 and 2018 , and the related statements of income, changes in shareholder's equity and statements of cash flows for the year 2019 and for the period from May 14th, 2018 to December 31st, 2019, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America. Without qualifying the opinion, we would like to draw the attention to the Note 7 of the financial statements "Related Party transactions". The Company has incurred compensation expenses with the shareholders, however, has not evaluated tax reporting and withholding aspects of these accounting entries.

VUBA, INC
NOTES TO FINANCIAL STATEMENTS

NOTE 1: ORGANIZATION AND NATURE OF OPERATIONS:

Vuba, Inc ("The Company") is a corporation organized under the laws of the State of Delaware and domiciled in Colorado. The Company was incorporated on May 14th, 2018 and started operating activities in 2019.

Vuba is a company that has a vision of developing a smart city mobility infrastructure that will provide public transportation. The solution has a vision of deployment of driverless electric vehicles. The Company also has a vision that such public transportation will be powered by the futuristic technologies that involve a combination of solar energy generation and storage.

NOTE 2: GOING CONCERNING MATTERS:

Basis of Presentation and Use of Estimates:

The financial statements have been prepared on the going concern basis, which assumes that the Company will continue in operation for the foreseeable future. However, management has identified the following conditions and events that created an uncertainty about the ability of the Company to continue as a going concern. The company incurred a net operating loss of \$125,297 during 2019.

The management has plans that are intended to mitigate the conditions and events that raise substantial doubt about the Company's ability to continue as a going concern. Specifically, the company plans to raise additional funds to meet obligations through a Reg CF funding campaign. The Company's ability to meet its obligations as they become due is dependent upon the success of management's plans, as described above. These conditions and events create an uncertainty about the ability of the Company to continue as a going concern through October 2nd, 2021 (one year after the date that the financial statements are available to be issued). The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation:

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Significant Risks and Uncertainties:

The Company is subject to customary risks and uncertainties including, but not limited to, dependence on key personnel, costs of services provided by third parties, the need to obtain additional financing, and limited operating history.

See independent accountant's review report and accompanying notes to financial statements.

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States and state of Colorado.

VUBA, INC
NOTES TO FINANCIAL STATEMENTS

NOTE 4: EQUITY:

Under the Company's original articles of incorporation in effect, the Company authorized 12,000,000 shares of \$0.00025 par value Common Stock.

Common Stock:

Common shareholders have the right to vote on certain items of Company business at the rate of one vote per share of stock. As of December 31st, 2019, 2,020,000 shares have been issued and are outstanding, with 1,000,000 shares to Paul M. Klahn, 1,000,000 shares to Peter Muller, and 20,000 shares to Laura Muller.

NOTE 5: FAIR VALUE MEASUREMENT:

Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants based on the highest and best use of the asset or liability. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The Company uses valuation techniques to measure fair value that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

Level 1 - Observable inputs, such as quoted prices for identical assets or liabilities in active markets;

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly, such as quoted prices for similar assets or liabilities, or market-corroborated inputs; and

Level 3 - Unobservable inputs for which there is little or no market data which require the reporting entity to develop its own assumptions about how market participants would price the assets or liabilities.

The valuation techniques that may be used to measure fair value are as follows: Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Income approach - Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts, including present value techniques,

See independent accountant's review report and accompanying notes to financial statements.

VUBA, INC
NOTES TO FINANCIAL STATEMENTS

option-pricing models, and excess earnings method. Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

NOTE 6: CONCENTRATION OF CREDIT RISK:

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company places its cash and cash equivalents with a limited number of high-quality financial institutions and at times may exceed the amount of insurance provided on such deposits.

NOTE 7: RELATED PARTY TRANSACTIONS

As of December 31st, 2019, the Company had a \$1,000 receivable from Paul Klahn. In addition to that, the Company owed Laura Muller \$2,785.

All the payroll expenses are incurred to the employees who are also existing shareholders of the Company.

The Company also owed \$30,000 to each of the shareholders – Paul Klahn and Peter Muhler. Such payables were accrued as part of compensation recognition, and represents expenses incurred but not yet paid. The Company has not evaluated tax accounting and withholding aspects and does not believe that the impact of such adjustments would be material to the financial statements.

NOTE 8: SUBSEQUENT EVENTS:

Management considered events subsequent to the end of the period but before October 2nd, 2020, the date that the financial statements were available to be issued.

In the second quarter of 2020, the Company has received payments of \$3,000 and \$32,398, representing the loans and funds related to the Paycheck Protection program. The Company has not yet made a final determination on how such cash receipts will be accounted in 2020.

See independent accountant's review report and accompanying notes to financial statements.
