Note 3 Summary of Significant Accounting Policies

Goodwill, page 47

1. Please explain to us your consideration of the definition of a reporting unit provided in ASC 350-20-20. Explain how you determined you operate as a single reporting unit, according to your goodwill disclosures on page 39, yet your segment disclosures on page 60 indicate that you operate in several reportable segments.
2. Please provide the disclosures required by ASC 350-20-50-1 about goodwill in total and for each reportable segment. Disclose any significant changes in the allocation of

goodwill by reportable segment. If any portion of goodwill has not yet been allocated to a reporting unit at the date the financial statements are issued, that unallocated amount and the reasons for not allocating that amount should be disclosed.

Note 16 Segment Results, page 60

3. Please fully comply with the disclosure requirements of ASC 280-10-50-21. Disclose the specific factors and the organizational basis used by your chief operating decision-making group in identifying the reportable segments. Also clarify, in accordance with ASC 280-10-50-21b, the types of products and services from which each reportable segment derives its revenues including whether such revenues derive from your healthcare and/or cannabis and/or government businesses.

4. We note from your earnings conference call of May 12, 2022 that "(s)ubstantially all of the growth in (your) Q1 has come from (y)our healthcare business. And that was the trend in the prior year as well." In light of your losses and substantial negative cash flows from operations, tell us whether there has been a shortfall in your revenues and operating cash flows when compared to projected results for your various lines of business for the most recent year and subsequent interim periods. Address the non-public forecast of future Helix operating performance provided by Helix management to MOR's management and disclosed on page 60 of your amended Form S-4 filed on February 9, 2021. Please explain to us how you determined in accordance with ASC 350-20-35 that it was not necessary to recognize an impairment loss during the periods presented.

5. In order to enable readers to assess material changes in your results of operations, please provide operational context for the material \$5.4 million charge taken due to Forian's separation from two advisors. As applicable, address the extent to which these advisory services focused of particular products, services, lines of business and/or reporting segments.

In closing, we remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
