

TransitNet

The world's first crypto title registry

Investing in crypto is risky and dangerous for the 300M+ crypto investors worldwide

% of internet users who own cryptocurrency

Investors are left with limited options to keep their crypto safe

Keeping keys safe is difficult, and there is a lot of friction when managing wallets

TransitNet is the missing infrastructure to safeguard trillions of dollars of crypto

TransitNet's title registry platform unlocks crypto's mass market potential

Now retail investors can safely...

- ✓ Prove ownership of digital assets
- ✓ Monitor crypto assets and securely exchange information
- ✓ Enable use of crypto for financial transactions, such as collateral for a loan or for trading
- ✓ Maintain a record of transactions and donations (for tax purposes, etc)

“TransitNet is going to open up the crypto world to millions of people because they’re going to trust it. It creates a public record.”

-Robert A., TransitNet user

Our team has built digital financial infrastructure powering billions of transactions globally
