Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

For a description of our business and our business plan, please refer to the attached [Appendix A, Business Description & Plan](#)  
INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and “read more” links in an un-collapsed format. All videos will be transcribed.

This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Cash Flow 1. BGW depends upon revenues from agricultural products. Unless we are able to make timely farming investments in Q2-Q3 2021, we will be unable to plant and harvest our organic Moringa oil and FairTrade Moringa honey in Q1-Q2 2022.

Business interruption from COVID-19 travel restrictions and lockdowns. Pending success of our Wefunder crowdfund raise we will break ground on our BGW WaterWorks in Ghana in Q2-2021. If COVID-19 travel restrictions and lockdowns are re-imposed in Ghana, BGW could suffer delays in the set-up and operation of our mini water treatment plant, serving safe affordable water to 8,000 people daily.

Cash Flow 2. If BGW fails to secure purchase contracts for 20,000 KG of organic Moringa oil and 2,000 KG of FairTrade Moringa honey from a major skin care company by Q2-2022, expanding our sustainable water business will be slowed.

Natural catastrophes like droughts, locusts, flooding and climate change resulting in the complete loss of harvests of our Moringa products in 5 countries is a risk. However, Moringa is a drought tolerant, pest resistant, abundant tree, and BGW is constantly evaluating new organic Moringa farming cooperatives across Africa.

Theft and fire. Several years ago one of our sponsored farmers suffered the theft of all 31 of his newly installed solar panels. Accordingly, BGW has budgeted for 24/7 security at the WaterWorks, dog security at the farms, crop insurance for the farmers, as well as all calamity insurance at our processing hubs.

Political and banking system instability in the developing world is an ongoing risk. BGW will remain nimble in our operations to mitigate these risks. For example, BGW recently moved the location of its first WaterWorks from unsettled Nigeria to stable and fair Ghana. BGW has also just added EcoCert certified organic Moringa farming and processing cooperatives in both Ghana and South Africa, capable of supplying 20,000 KG of oil to our group of sponsored farms.

BGW must secure funding of \$434K in Q2 2021, to upgrade WaterWorks to full capacity in Ghana and see a significant revenue increase. If we are unable to raise this amount, we will be unable to reach our 2022 projections

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

#### Overview

Blue Gold Works is a Safe Water Enterprise that generates revenue and delivers significant impact at scale. BGW harvests and sells products derived from the Moringa tree.

Celebrating African women waterpreneurs who have already served more than 2

education in their communities, joining with partners and sharing entrepreneurs all over the planet to serve safe water to 50 million more people over the next 10 years. These projections are not guaranteed.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

#### Milestones

Blue Gold Works Inc. was incorporated in the State of Delaware in May 2017.

Since then, we have:

- BGW is one of those rare enterprises that generates revenue AND big impact at scale.
- Satisfaction that comes with taking action to fix the global water crisis
- Peace of mind that comes with aligning one's investments with one's values.
- Our team has more than 95 years of domain appropriate experience for successful management of Blue Gold Works Inc.
- Confidence in knowing that women-centric, entrepreneur-led enterprises perform better than Aid-led ventures.

#### Historical Results of Operations

- *Revenues & Gross Margin.* For the period ended December 31, 2021, the Company had revenues of \$1,850 compared to the year ended December 31, 2020, when the Company had revenues of \$1,670. Our gross margin was -52.43% in fiscal year 2021, compared to -30.66% in 2020.

Refer to Question 26 of this Form C for disclosure of all related party transactions.

#### Liquidity & Capital Resources

To-date, the company has been financed with \$178,000 in debt.

After the conclusion of this Offering, should we hit our minimum funding target of \$900,000, our projected runway is 35 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 6 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### Runway & Short/Mid Term Expenses

Blue Gold Works Inc. cash in hand is \$34,866, as of April 2022. Over the last three months, revenues have averaged \$617/month, cost of goods sold has averaged \$833/month, and operational expenses have averaged \$8,743/month, for an average burn rate of \$8,959 per month. Our intent is to be profitable in 35 months.

Since the date our latest financials cover, no new material changes or trends in Blue Gold Works Inc. have occurred.

**CAUTION:** The information in this Form C is not to be used as a basis for investment decisions. It is not to be used as a basis for investment decisions.

anticipate revenue from this purchase to occur in 2023.

BGW received a Grundfos Community Grant of \$56,000 in 2021. These funds will be used to develop a pilot WaterWorks clean drinking water facility in Ghana as well as several irrigation sites. Some revenue will be realized in 2022 from these water production projects.

BGW anticipates profitability in 2023 from the sale of Moringa Oil and Honey to high end cosmetic companies. BGW will need a minimum of \$200,000 in additional capital to achieve profitability in 2023. In 2022, BGW has received an additional grant from Grundfos and is actively seeking additional grant monies.

BGW continues to self-fund part of the necessary additional capital. In addition to self-funding, additional capital has been received from Grundfos and additional grant funding is being investigated.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*

The Company is using the services of XX as part of its offering. XX is comprised of XX Investments, LLC, XX Team LLC, and the Lead Investors who provide services on behalf of XX Team LLC. The services of XX are available to companies that offer securities through Wefunder Portal LLC and to investors who invest in such companies through Wefunder Portal, but XX is not affiliated with Wefunder Portal or its affiliates.

XX Investments is the Company's transfer agent and also acts as custodian, paying agent, and proxy agent on behalf of all investors that enter into the Custodial and Voting Agreement with XX Investments through the Wefunder Portal website ("Investors"). XX Investments holds legal title to the securities the Company issues through Wefunder Portal (which are uncertificated) on behalf of Investors. Investors, in turn, hold the beneficial interests in the Company's securities. XX Investments keeps track of each investor's beneficial ownership interest and makes any distributions to the Investors (or other parties, as directed by the Investors).

behalf of the Investors. XX Investments acts at the direction of XX Team, because XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. XX Investments will not charge investors for its services. XX Investments does charge the Company \$1,000/year for services; however, those fees may be paid by Wefunder Inc. on behalf of the Company.

As noted, XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. Pursuant to the power of attorney, XX Team will make voting decisions and then direct XX Investments to vote and take any other actions in connection with the voting on Investors' behalf. XX Team will act, with respect to the Company, through our Lead Investor, who is a representative of XX Team. As compensation for its voting services, each Investor authorizes XX Investments to distribute to XX Team 10% of any distributions the investor would otherwise receive from the Company. XX Team will share its compensation with our Lead Investor. XX Team, through our Lead Investor, may also provide consulting services to the Company and may be compensated for these services by the Company; although, fees owed by the Company may be paid by Wefunder Inc. XX Team will share its consulting compensation with our Lead Investor.

The Lead Investor is an experienced investor that we choose to act in the role of Lead Investor, both on behalf of the Company and on behalf of Investors. As noted, the Lead Investor will be a representative of XX Team and will share in compensation that XX Team receives from the Company (or Wefunder Inc. on the Company behalf) or from Investors. The Lead Investor will be chosen by the Company and approved by Wefunder Inc., and the identity of the Lead Investor must be disclosed to investors before Investors make a final investment decision to purchase the Company's securities. Investors will receive disclosure regarding all fees that may be received by the Lead Investor. In addition to the fees described above, the Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a special purpose vehicle ("SPV") for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that SPV (and as a supervised person of Wefunder Advisors) and may be compensated through that role. Although the Lead Investor may act in multiple roles and be compensated from multiple parties, the Lead Investor's goal is to maximize the

### CHOICE OF THE INVESTORS:

Investors that wish to purchase the Company's securities through Wefunder Portal must agree to (1) hire XX Investments to serve as custodian, paying agent, and proxy agent with respect to the Company's securities; (2) give a power of attorney to XX Team to make all voting decisions with respect to the Company's securities; and (3) direct XX Investments to share 10% of the investor's distribution from the Company with XX Team. The Company may waive these requirements for certain investors with whom the Company has a pre-existing relationship.

The XX arrangement described above is intended to benefit the Company by allowing the Company to reflect one investor of its capitalization table (XX Investments) and by simplifying the voting process with respect to the Company's securities by having one entity (XX Team), through one person (the Lead Investor), make all voting decisions and having one entity (XX Investments) carry out XX Team's voting instruments and any take any related actions. The XX arrangement also is intended to benefit investors by providing the services of an experienced Lead Investor (acting on behalf of XX Team) who is expected to make value-maximizing decisions regarding Investors' securities. XX Team (acting through the Lead Investor) may further benefit both the Company and investors by providing consulting services to the Company that are intended to maximize both the value of the Company's business and also the value of its securities.
