(D) The Company's Business and Business Plan

Our Mission

Get rid of industrial bread (filled with additives and preservatives) that occupies the bread isles of supermarkets. Our name is comprised of doma (home) and selo (village) and our goal is to introduce authentic baking that brings back this feeling of eating at a home in a village. A feeling that is ignited by food made with local ingredients, authentic methods, and made with love.

Business Overview

Domaselo's vision is to make the best bread by being laser focused on making only bread while working with other local makers to provide more options to customers. Bread is a staple food

consumed daily and it results in frequent purchases. We are raising capital to continue investing in the following:

- Product development (consistency, flavors, ingredients, methods)
- Branding (packaging and digital)
- Marketing (content, ads, and more)
- Software development (UX and operations)

The Team

Emil Hristov, CEO

Emil Hristov founded his first company EMSA Construction at age 22 and grew the company to over \$15MM in annual revenue within 5 years. Simultaneously he started a solar company he took from \$0 to \$20MM in 3 years.

Starting in 2013 Emil saw the potential of investing in residential real estate for short-term renting purpose and was able to build a personal portfolio of properties in New Jersey, Pennsylvania, Bulgaria, Greece, and his native Macedonia. He later developed technology (newhaus.io and domasoft.io) for automating all repetitive tasks for rental managers.

Emil grew up eating amazing and freshly baked bread which he picked up at his local "bread store" while growing up in Macedonia. However, when he came to the US at age 15 (in 1999) good bread was not available. During his travels to Paris in 2016/2017 he quickly fell in love with bread again and soon thereafter he decided to do something about it. Emil decided to offer freshly baked bread to customers from every corner of Miami by making it a delivery only bakery and domaselo was born!

Emil has an MBA from the Wharton School at University of Pennsylvania and a BS in Architecture from New Jersey Institute of Technology.

The opportunity

Consumers were getting comfortable with online grocery shopping even before COVID, but since March 2020 the process has been significantly accelerated and adoption rates are continuing to increase. Our model was designed to be online and delivery only, but this new change in consumer behavior is the perfect wave that we need to ride.

We have an opportunity to create a food brand around bread, a staple food that is consumed daily. Our relationship with our customers is deep and based on trust and respect, and we treat that with utmost respect. Our customers trust us when we introduce new products and they're eager to try them, whether they're made in house or they're by one of our local makers. That's why we add new makers very selectively and make sure they comply with our standards for making natural and organic food.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.6 - 3.0% ²
Payment Deadline	2027-01-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.8 x 1.4 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	0.38%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.6% and a maximum rate of 3.0% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$50,000	0.6%
\$100,000	1.2%
\$150,000	1.8%
\$200,000	2.4%
\$250,000	3.0%

³ To reward early participation, the investors who contribute the first \$50,000.0 raised in the offering will receive a 1.8x cap. Investors who contribute after \$50,000.0 has been raised in the offering will receive a 1.4x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	100
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	100
How these securities differ from the revenue sharing notes being offered to investors	These are ownership units in the LLC issued to owner. Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Emil Hristov	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

Creditor	Amount	Interest Rate	Maturity Date	Other Important Terms
Shopify Capital	\$12,141	%	04/30/2021	14% of gross receipts
