

NAVISYO

2021 Report

Dear investors,

Dear Investors,

I would like to inform you of some of the latest achievements and benefits that you all, as investors on the Wefunder platform, can immediately enjoy.

As you may already know, our online booking platform, Navisyo, now includes 600+ offers from three exquisite destinations: Spain, Greece, Italy and France is expected to be launched in Q2 of 2022. We will continue to expand our international onboarding team as we continue to expand and refine our offers from additional countries around the world. As investors on Wefunder, we are pleased to share that you are extended a discount on our online offers. If you are interested in booking

your next vacation with Navisyo, please do not hesitate to email us at support@navisyo.com with your name and details so that we can provide you with a discount voucher.

Following the announcement of our new divisions, we have been busy building out the structure of these new divisions in order to manage new interest. Additionally, we have received interest from across the globe; however, at this time we are prioritizing North America. At the end of June 2022, the company will have a show unit in one of the most beautiful islands in Florida: Longboat Key, Sarasota. There, we will be receiving, by appointment only, prospects from all over the country to tour the Navisyo Homes. Every Saturday, we will hold an open house and one of our Captains will take those interested in purchasing a home on a small cruise so that they can experience the capabilities of Navisyo Homes.

We have also recently announced a \$50M distribution deal with YACHT Solutions Canada who will be making monthly orders of the Navisyo Homes. We are proud to announce we have sold out our entire production for 2022 and we are expected to deliver over the next 12 months over 20 units into North America. In 2023 we managed to secure with our manufacturing partners a production capability of 10 units per month for a total of 120 Navisyo Homes.

We will be delivering our first unit this June so we expect to subsequently begin making repayment to our investors after each quarter. The future of the entire Navisyo Group is look brighter than ever.

We need your help!

Share on social media our posts, get involved by signing up to our Ambassadors' Program. Offer your friends the ability to generate revenues by sharing our offers. Be sure to stay posted to our latest updates. Any strategical partners in the travel industry should get involved by bringing professionals to our network and by encouraging those partners to contribute to expanding our markets internationally.

Sincerely,

Danish Mawal

Our Mission

We intend to become a leading, open source, online platform and a globally trusted brand, who will be fully committed to giving back to marine conservation and its community members. In order to make this a reality, during the next 5 years, our aim is to deploy a maximum of Navisyo territories around the world through our Key Partner Licensing program. These projections cannot be guaranteed.

Risks

The present economic crisis and the on-going travel bans due to the COVID-19 pandemic represent a real threat for our start-up. We will need to remain vigilant and pro-active in our go-to-market strategy by anticipating potential disruptions and challenges which could significantly affect our marketplace. Failure to do so could greatly impact our growth, deployment efforts and ultimately our survival.

We are not safe from the possibility that we could become a 'victim of our own success', meaning, that our concept and popularity could take off at a much faster pace than anticipated - where user territory demands would greatly exceed our capabilities of launching these back-to-back, additional territories, hence creating frustration and disappointment within our community and ultimately affecting our brand image and momentum.

Our goal is to influence and change the world's perception that boats are inaccessible to the average paid traveler. If the public fails to grasp our concept and all of it's financial advantages by believing that we are one more, of the many, online brokerage platforms, then we will definitely struggle, in jump starting our Ambassador program and developing our online community.

The Navisyo team relies in part on the founder's business experience, skills and contacts. If he was to temporarily step 'out of the game', this would temporarily slow down Navisyo's go-to-market strategy and momentum.

A potential lack of capital and funding represents a great risk for our start-up. Since we are a people-to-people online marketplace, we also have considerable expenses to honor with regards, but not limited to - website maintenance; 24/7 call centre outsourcing; full insurance coverage, for both community and company liability; territory launch support and training for our key partners; marketing efforts and live events for our go-to-market strategy and of course our team salaries and compensation benefits.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Future emerging technologies, markets and competitive ventures, in both the travel and boating industries, will need to be carefully monitored. Failing to identify these or keep up to date, by not adapting our marketplace to up-and-coming trends, could weaken our brand image and credibility thus hindering our overall growth and development.

Description of Securities for Prior Reg CF Raise

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Minority Ownership

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its management, and the Investor will have no independent right to name or remove an officer or member of the management of the Company.

Exercise of Rights Held by Principal Shareholders

As holders of a majority-in-interest of voting rights in the Company, the unitholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the unitholders may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The unitholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. The unitholders have the right to redeem their securities at any time. Unitholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns

Restrictions on Transfer

The securities offered via Regulation Crowdfunding may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor[®];
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Valuation Methodology for Prior Reg CF Raise

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The value of the promissory notes will be determined by the Company's senior management in accordance with U.S. generally accepted accounting principles. For example, the notes may be valued based on principal plus anticipated interest payments over the course of the term of the note
