Wireless Research and Development One, Inc.

This Offering Statement (this “**Disclosure**”) is furnished solely to prospective investors through the investment platform available at www.nextseed.com and each subdomain thereof (the “**Site**”) and operated by NextSeed Services LLC, a Delaware limited liability company, on behalf of NextSeed Securities, LLC, a Delaware limited liability company and registered broker-dealer (together with its affiliates, “**NextSeed**”), for the sole purpose of evaluating investments in certain securities (“**Securities**”) offered by Wireless Research and Development One, Inc., a Texas corporation (“**WRAD One**” or the “**Issuer**”). The Securities, in the form of NextSeed Simple Agreements for Future Equity (“**NextSeed SAFE**”) at the price of \$1.00 per unit in increments of \$100 (each, a “**NextSeed SAFE Unit**” and together, the “**NextSeed SAFE Units**”), will be issued pursuant to, and will be governed by, a purchase agreement among the Issuer and the purchasers of the Securities (collectively with various ancillary documents, the “**PA**”). The Issuer is raising funds in reliance on the exemption from registration pursuant to Section 4(a)(6) (the “**4(a)(6) Exemption**”) of the U.S. Securities Act of 1933 (the “**Securities Act**”) and the regulations promulgated with respect thereto (“**Regulation Crowdfunding**”). The Issuer is seeking to raise under Regulation Crowdfunding a minimum of \$500,000 to a maximum of \$1,000,000 through the offer and sale of Securities on the Site (the “**Offering**”).

This Regulation Crowdfunding investment involves risk, including without limitation those set forth under the caption “Risk Factors” in Section VI. An investor should not invest any funds in this Offering unless he or she can afford to lose his or her entire investment. In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Offering, including the merits and risks involved. The Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The U.S. Securities and Exchange Commission (the “**SEC**”) does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any offering document or literature, including this Disclosure. These Securities are offered under the 4(a)(6) Exemption; however, the SEC has not made an independent determination that the Securities are exempt from registration. Prospective investors should not construe the contents of this Disclosure as legal, business, tax, accounting, regulatory, investment or other advice, and should consult their own advisors concerning the Securities.

The Securities may not be transferred by any investor during the one-year period beginning when the Securities are issued, unless the Securities are transferred: (i) to the Issuer; (ii) to an “accredited investor” as defined in Rule 501(a) of Regulation D; (iii) as part of an offering registered with the SEC; or (iv) to a member of the family of the investor or the equivalent, to a trust controlled by the investor, to a trust created for the benefit of a member of the family of the investor or the equivalent, or in connection with the death or divorce of the investor or other similar circumstance. In addition, there is no ready market for the sale of the Securities and it may be difficult or impossible for an investor to sell or otherwise dispose of the Securities. Furthermore, the Securities are subject to the terms and conditions of the Issuer’s Second Amended and Restated Company Agreement, which provides that the investors may not be permitted to assign the Securities without the Issuer’s prior written consent.

No person other than the Issuer has been authorized to provide prospective investors with any information concerning the Issuer or the Offering or to make any representation not contained in this Disclosure. To invest in the Securities, each prospective investor will be required to (i) register for an investor account with the Site, (ii) make representations regarding the investor’s investment eligibility and complete a questionnaire to demonstrate his or her understanding of the risks involved in investing in the Securities and (iii) execute the PA and [Operating/Company Agreement]. The Issuer reserves the right to modify any of the terms of the Offering and the Securities at any time before the Offering closes.

Certain information contained in this Disclosure constitute “forward-looking statements” that can be identified by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “estimate,” “intend,” “continue,” or “believe” or the negatives or variations thereof. VI. RISK FACTORS

An investment in the NextSeed SAFE Units is speculative and illiquid and involves a high degree of risk. In making an investment decision, investors must rely on their own examination of WRAD One and the terms of the Offering, including the merits and risks involved. Prospective purchasers in the offering must carefully consider the following Risk Factors that relate to the NextSeed SAFE Units being sold in this offering before purchasing any NextSeed SAFE Units. The risks set forth below are not the only ones facing WRAD One. Additional risks and uncertainties may exist that could also adversely affect our business, operations and prospects. If any of the following risks actually materialize, our business, financial condition, prospects and/or operations could suffer. In such event, the value of the NextSeed SAFE Units could decline, and you could lose all or a substantial portion of the money that you pay for the NextSeed SAFE Units. An investor should not invest any funds in this Offering unless he or she can afford to lose his or her entire investment.

These Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The SEC does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any offering document or literature. These Securities are offered under exemptions from registration; however, the SEC has not made an independent determination that these securities are exempt from registration.

There is no active trading market for our Units and an active trading market is unlikely to develop.

NextSeed SAFE Units are highly illiquid securities, have no public market and are generally not transferable, which limits the value of the Units.

There is no assurance that we will be able to complete this round of financing.

We are authorized to accept purchases as they are made, subject to receiving the Minimum Investment Amount, and as a result can offer no assurance that we will be able to complete this round of financing in full. If we are unable to complete the financing in full, we will need to raise additional funds in the future through additional debt or equity financing, and there is no assurance that financing will be available or on terms favorable to investors as the Issuer's ability to raise such financing will depend on prevailing market conditions and the results of our business operations.

We will have broad discretion in the use of the net proceeds from this offering and may not use the proceeds effectively.

Although the Issuer plans to use the proceeds of this offering primarily to invest in production and marketing activities, it will not be restricted to such use and will have broad discretion in determining how the proceeds of this offering will be used. The Issuer's discretion is not limited by the uses set forth in any materials provided to investors. While the Issuer believes the flexibility in application of the net proceeds is prudent, the broad discretion it affords entails increased risks to the investors in this offering.

Investors in this offering have no current basis to evaluate the possible merits or risks of any application of the net proceeds of this offering. Our investors may not agree with the manner in which we choose to allocate and spend the net proceeds.

You should obtain independent tax and legal advice concerning this offering.

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

Each purchaser of our Units is urged to consult his, her or its own tax and legal advisors with respect to the particular tax and legal consequences of this offering. Neither the Issuer nor any member or any member's counsel has offered any tax or legal advice with respect to the investment.

Business Risks

The success of a business depends on its brand perception, in part, upon the popularity of the establishment and the customer's experience. We take brand perception seriously and intend to reinforce and extend positive brand perception, including by providing a training program for our employees to ensure a high quality of customer service. However, any shortcomings in our brand building initiatives or business incidents that diminish customer perceptions of our brand could negatively impact revenues. If we overestimate the demand for our business or underestimates the popularity of the competition, we may not fully realize anticipated revenues.

Our business, financial condition, and results of operations also depend in part on our ability to anticipate, identify, and respond to changing consumer preferences. Any failure to anticipate and respond to changing customer preferences could make our business less appealing and adversely affect business, including loss of potential revenue. If we do not achieve a certain level of revenue, the financial performance will be negatively impacted, in which case, there may be serious adverse financial consequences for the Investors.

COVID Risks:

Covid-19 outbreaks, other potential pandemic or natural disaster outbreak, is the biggest threat to our business plan. However, the onset of an effective vaccine on the horizon leads us to believe a sustained business re-opening and by early Q4 2021, a significant percentage of the domestic population should have been vaccinated allowing our industry the footing to engage in a rapid increase. We are uncertain of the availability of government funds set aside for these types of solutions. It is unclear if the Covid-19 related spending caused the governments to repurpose the available funds.

Hardware, Sensor Risks:

As with any electronic product, a certain amount of component failure can occur causing the product to fail. The probability of this result is very low. However, component level failures may happen without notice from our suppliers or other early warning until these components are in the field. These components are including but not limited to a CPU, resistors, microphone, switches, potentiometers, wiring harnesses or batteries. Our hardware, is designed to communicate by using a local WIFI network. This network may be provided by the facility or special design in collaboration with the facility which our VRS is installed. Potential communication problems include but not limited to poor signal strength, network congestion, router failure or congestion, bandwidth limitations, or the telecommunication system having intermittent service or completely down. Our software was developed to ensure the health of each sensor by, requiring each sensor to check into our server and providing a list of operational functions in an effort to mitigate a VRS failure. Even with our daily health checks, the risk of failure is not completely limited, and there is a slight possibility a sensor failure could go unnoticed. Any of the above or other performance risks could occur.

Financing Risks

We have not yet commenced operations and have not generated any revenue to date. In order to begin business operations, we will need to incur expenses related to the development of the planned service and product, expenses related to the acquisition of certain supplies, expenses related to the production, testing, marketing of the product and service, and other start-up costs. Accordingly, if we do not obtain additional financing, including the financing sought in this offering, the business will likely fail.

Development Risk

Our dependence on development exposes us to timing, budgeting and other risks. New project development has a number of risks, including risks associated with: (i) production delays or cost overruns that may increase project costs; (ii) receipt of required governmental permits and authorizations from local governmental agencies, which are issued at the discretion of the issuing authority with no guaranty that all licenses and permits applied for by us will be issued; (iii) development costs incurred for projects that are not pursued to completion; (iv) so-called acts of God such as earthquakes, hurricanes, floods or fires that could adversely impact a project; (v) defects in design or production that may result in additional costs to remedy or require all or a portion of a product to be held back from sales during the period required to rectify the situation; (vi) ability to raise capital; and (vii) governmental restrictions on the nature or size of a product or timing of completion.

We cannot assure you that any development project will in fact be developed, and, if developed, the time period or the budget of such development may be greater than initially contemplated. We are planning to begin providing services in Fort Worth, Texas. There is no guarantee that this site will remain suitable, or that our product or service will be operated profitably. We depend on cash flow from operations to pay manufacturing obligations and to fulfill other cash requirements. If the business does not generate sufficient cash flow and sufficient funds are not otherwise available from other sources, we may not be able to meet manufacturing obligations, grow the business, respond to competitive challenges or fund its other liquidity and capital needs, which would have a material adverse effect on our business.

Reputational Risks

Adverse publicity concerning the security systems industry and the business could damage our brand and negatively affect the future success of the business. This can take different forms, such as word-of-mouth criticisms, web blogs, social media websites, and other Internet-based communications that allow individuals access to a broad audience of consumers and other interested persons. Many social media platforms immediately publish the content their subscribers and participants can post, often without filters or checks on accuracy of the content posted. There is significant opportunity for dissemination of information, including inaccurate information. Information about the business may be posted on such platforms at any time, and may be adverse or inaccurate, either of which may harm the business and our financial performance. The harm may be immediate without affording us an opportunity for redress or correction.

Competition Risks

The market for the security systems industry is competitive and we may need to compete with other established competitors. We compete with these other businesses on the basis of quality and price of products and/or services offered and location. The security systems industry is characterized by the continual introduction of new concepts and is subject to rapidly changing technology. The security systems industry in the Texas area is highly competitive in terms of type and quality of products, quality of service, and price. The entrance of new competitors into our markets could reduce revenue and operating margins. Some competitors may have greater financial and other resources, greater name recognition, more experience in the business and/or better presence in the planned markets. Any inability to compete successfully with competitors, shifts in preferences away from security systems or our inability to develop new products or services may negatively affect revenues.

Market Risks

Our success depends to a significant degree on numerous factors affecting spending by educational institutions, governments or businesses, including general economic conditions. Accordingly, cost-conscious purchasers may reduce their level of spending during economic turmoil or periods of uncertainty. Any material decline in the amount of discretionary spending could have a material adverse effect on our revenue, results of operations, business and

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

financial condition. Any shift in preferences away from our business concept could negatively affect financial performance.

Risks from Work Stoppages, Terrorism or Natural Disasters

Our operations may be subject to disruption for a variety of reasons, including work stoppages, terrorism, acts of war, pandemics, fire, earthquake, flooding, tornadoes or other natural disasters. These disruptions can result in, among other things, lost sales due to the inability for products to be shipped, property damage and lost sales if we are forced to close for an extended period of time.

Management Risks

Any operational growth will place additional demands on our administrative, management and financial resources. It is imperative that we manage our growth; if we do not effectively manage growth, our operations and financial condition may be negatively impacted. The timing and extent of future growth depends, in part, on our ability to manage its organizational structure and financial resources.

Personnel Risks

The success of the business is heavily dependent on the judgment and ability of the members of our leadership. If they are unable to attend to the business for health or personal reasons for an extended period of time, the business may suffer. If members of our leadership team or other key management personnel leave, we may have difficulty replacing them, and the business may suffer. There can be no assurance that we will be able to successfully attract and retain the leadership team and other key management personnel needed.

Labor Supply Risks

A primary component of our operations is labor. We compete with other employers in the market for skilled workers and may be subject to higher labor costs as a result of such competition. We devote significant resources to recruiting and training team members, or contract employees as its success depends, in part, upon its ability to attract, motivate and retain qualified employees in the security systems industry, including but not limited to, Mechanical Engineering, IT and Database support, and Software Developers. If we are unable to recruit and retain sufficiently qualified personnel, the business and growth could be adversely affected. Any material increases in employee turnover rates or any employee dissatisfaction could have a material adverse effect on the business and operations. We may sustain an increase in operating costs if we pay increased compensation or benefits to employees. We are subject to various federal and state labor laws, including but not limited to employee classifications as exempt or non-exempt, unemployment tax rates, workers' compensation rates, citizenship requirements and other wage and benefit requirements for employees classified as non-exempt. We may be adversely affected by legal or governmental proceedings brought by or on behalf of its employees. Although we require all workers to provide government-specified documentation evidencing employment eligibility, some employees may, without our knowledge, be unauthorized. If any of our workers are found to be unauthorized, we may experience adverse publicity that negatively impacts our ability to hire and keep qualified employees. Termination of a significant number of employees who were unauthorized may disrupt operations, cause temporary increases in labor costs as new employees are trained and result in additional negative publicity. We could also become subject to fines, penalties and other costs related to claims that we did not fully comply with all record-keeping obligations of federal and state immigration compliance laws. These factors may have a material adverse effect on the business, financial condition and results of operations.

Privacy Risks

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

Our business operations require processing and/or maintaining certain personal, business and financial information about customers, vendors and employees. Our use of such information is regulated by federal and state laws, as well as certain third party agreements. If our security and information systems are compromised or if employees fail to comply with the applicable laws and regulations, and this information is obtained by unauthorized persons or used inappropriately, it could adversely affect our reputation and result in litigation and settlement costs, damage awards or penalties and fines. As privacy and information security law and regulations change, we may incur additional costs to ensure compliance.

Real Estate Risks

We intend to acquire a business location and are subject to any penalties that may result from a violation of the lease terms, such as early lease cancellation. We may fail to negotiate renewals of the lease, either on commercially acceptable terms or at all, which could require us to close.

Negative effects on our landlord due to any inaccessibility of credit and other unfavorable economic factors may, in turn, adversely affect our business and results of operations. If our landlord is unable to obtain financing or remain in good standing under the existing financing arrangements, they may be unable to satisfy lease covenants with us. If the landlord files for bankruptcy protection, the landlord may be able to reject our lease in the bankruptcy proceedings. While we may have the option to retain some rights under the lease, we may not be able to compel the landlord to perform any of its obligations and would be left with damages as the sole recourse. In addition, if the landlord is unable to obtain sufficient credit to continue to properly manage its site, we may experience a drop in the level of quality of the site. We may be adversely affected by the negative financial situations of developers and landlords.

Legal Risks

Businesses in our industry can be adversely affected by litigation and complaints from customers or government authorities resulting from shooting injuries/deaths or operating issues stemming from one or more product or service locations. Negative publicity about these allegations may negatively affect us, regardless of whether the allegations are true, by discouraging customers from using WRAD One products. We may also be impacted by industry trends in litigation, including class-action allegations brought under various consumer protection laws, securities and derivative lawsuits claiming violations of state and federal securities law, and employee lawsuits, including wage and hour claims. Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on the business, financial condition and operations. Further, regardless of outcome, these proceedings could result in substantial costs and may require resources be used to defend any claims.

Environmental Risks

We are subject to national, state and local laws and regulations in the U.S. concerning waste disposal, pollution, protection of the environment, and the presence, discharge, storage, handling, release and disposal of, and exposure to, hazardous or toxic substances. These environmental laws provide for significant fines and penalties for noncompliance and liabilities for remediation, sometimes without regard to whether the owner or operator of the property knew of, or was responsible for, the release or presence of hazardous toxic substances. Third parties may also make claims against owners or operators of properties for personal injuries and property damage associated with releases of, or actual or alleged exposure to, such hazardous or toxic substances at, on or from WRAD One. Environmental conditions relating to releases of hazardous substances at WRAD One could materially adversely affect the business, financial condition and operations. Further, environmental laws, and the administration, interpretation and enforcement thereof, are subject to change and may become more stringent in the future, each of which could materially adversely affect the business, financial condition and operations.

Information Technology Risks

We rely heavily on information Technology systems, such as WIFI connectivity via available access points, Internet of Things (IoT) and cloud computing technologies to support the communication of our sensors to our servers via third party networks for management of the supply chain, payment of obligations, collection of cash, credit and debit card transactions and other processes and procedures. Our ability to efficiently and effectively manage the business depends significantly on the reliability and capacity of these systems. Our operations depend on our ability to protect computer equipment and systems against damage from physical theft, fire, power loss, telecommunications failure or other catastrophic events, as well as from internal and external security breaches, viruses and other disruptive problems. The failure of these systems to operate effectively, maintenance problems, upgrading or transitioning to new platforms, expanding our systems or a breach in security of these systems could result in delays in service and reduce operational efficiency. Remediation of such problems could result in significant, unplanned capital investments.

Accounting Risks

Changes to existing accounting rules or regulations may impact the future results of operations or cause the perception that we are more highly leveraged. Other new accounting rules or regulations and varying interpretations of existing accounting rules or regulations have occurred and may occur in the future. For example, accounting regulatory authorities have indicated that they may begin to require lessees to capitalize operating leases in their financial statements for the next few years. If adopted, such change would require us to record significant capital lease obligations on the balance sheet and make other changes to the financial statements. This and other future changes to accounting rules or regulations may impact our future operating results.

Intellectual Property Risks

Our intellectual property is material to conducting business. Our success depends in part on furthering brand recognition using trademarks, service marks, trade dress, trade secrets and other proprietary intellectual property, including our name, logos and unique products and services of WRAD One. We have taken efforts to protect our brand, but if its efforts are inadequate, or if any third party misappropriates or infringes on our intellectual property, the value of the store brand or consumer products brand may be harmed, which could have a material adverse effect on the business. There are no material claims against us from prior users of intellectual property, but there can be no assurances that we will not encounter any material claims in the future. If this happens, it could harm our image, brands or competitive position and cause us to incur significant penalties and costs.

Regulatory Risks

Products and services offered by us are subject to regulation. Regulatory action could substantially increase costs, damage reputation and materially affect operating results. Increased costs in complying with these requirements or failure to obtain required licenses or permits in a timely fashion may materially affect operations.

Regulations regarding climate change, energy usage and emissions controls may impact us directly through higher cost of goods. The potential impacts of climate change and climate change regulations are highly uncertain at this time, and we cannot anticipate or predict the material adverse effects on the business as a result of climate change or climate change regulation. For instance, changes in the prevailing climates may result in a reduction in, or increased prices of available goods, which may adversely affect our revenue and operating margins.

We are subject to various federal, state and local regulations, including regulations related to zoning and building codes, land use and employee, product liability and safety matters. We are also subject to the U.S. Fair Labor Standards Act, which governs such matters as working conditions, family leave mandates and other employment

law matters. In recent years, there has been an increased legislative, regulatory focus on the security services industry. Compliance with additional regulations can become costly and affect operating results.

Tax Risks

We are subject to federal, state and local taxes. In making tax estimates and paying taxes, significant judgment is often required. Although we believe our tax positions and estimates are reasonable, we could have additional tax liability, including interest and penalties, if a taxing authority disagrees with the positions. If material, payment of such additional amounts could have a material impact on finances and results of operations.

Limited Source of Repayment

The only source of financial return for investors is as set forth in the PA and there is no guarantee of any investment return. The Securities are speculative investments inherently involving a degree of risk, meaning part or all of such investments may be lost. Neither WRAD One nor NextSeed guarantees payment or investor returns.

Risks Relating to Financial Forecasts

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable economic conditions and other various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on future events over which WRAD One and the key persons will have no control. CHANGES IN ASSUMPTIONS OR THEIR UNDERLYING FACTS COULD SIGNIFICANTLY AFFECT THE FORECASTS. TO THE EXTENT THAT THE ASSUMED EVENTS DO NOT OCCUR, THE OUTCOME MAY VARY SIGNIFICANTLY FROM THE PROJECTED OUTCOMES. CONSEQUENTLY, THERE CAN BE NO ASSURANCE THAT THE ACTUAL OPERATING RESULTS WILL CORRESPOND TO THE FORECASTS PROVIDED HEREIN.

Potential Conflicts of Interest

The key persons individually or as an entity may wish to own, operate or consult with other operations in the area similar to WRAD One, including operations utilizing the brand associated with us. Such other businesses may be owned by entities other than WRAD One. While it is the intention of the key persons to place such businesses operations strategically so as to maximize the revenue and profitability of each business, there can be no guarantee that such activities will not have a deleterious effect on the revenues of WRAD One's operations due to unintended competitive factors resulting from the comparative accessibility and desirability of the respective businesses. The relevant key persons will have no duty to account to WRAD One for profits derived from such other such activities.

Certain Tax Considerations

The Issuer is taxed as a corporation. All prospective investors are urged to consult their own tax advisors with respect to the U.S. federal, state, local and non-U.S. tax consequences related to the purchase, ownership and disposition of the Securities based on their particular circumstances. Preparation and distribution of required tax documents to investors (e.g., Form 1099-INT) will be handled electronically at no additional cost on an annual basis.

Other Matters

NextSeed Assessment

Every offering on the Site undergoes a standardized assessment process by NextSeed that is applied on all businesses listing on NextSeed. The assessment is intended to first determine if a prospective issuer fits the business categories offered on NextSeed, based on the objective criteria established by NextSeed. If a good fit is found, NextSeed helps the Issuer determine the terms to offer to their prospective investors. When assessing the feasibility of a prospective offering, NextSeed typically considers the following key factors:

- **Historical Financial Performance** – comparison of key financial ratios to industry standards to evaluate the prospective issuer's strengths and weaknesses
- **Projected Impact of Proposed Terms** – analysis of proposed terms' potential impact on the prospective issuer's overall financial condition
- **Credit History Information** – credit history of the prospective issuer, as well as personal credit histories of key personnel
- **Leadership Experience and Stability** – the level of industry expertise and length of tenure of the prospective issuer's leadership
- **Industry Risk** – overall success/failure rate in the relevant industry in which the prospective issuer operates, according to historical data

The final terms and valuation of the Securities offered to prospective investors reflect NextSeed's and the Issuer's good-faith assessment, and are not a guarantee or guidance of performance of any kind. Investing in securities inherently involves risks, and investors should consider their own investment objectives before investing.

Payment Processing Operations

Collection and payment of distributions to investors who have purchased the Securities depend on the continuous operation of NextSeed and its banking partner(s) that facilitate payments. If either NextSeed or its banking partner(s)

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

were to stop or otherwise be unable to continue operations in the future, while NextSeed will make all commercially reasonable efforts to facilitate distributions on all outstanding Securities, it may not be possible to service the existing Securities until completion.

Legal and Regulatory Implications

The legal and regulatory regime governing investment crowdfunding is a recent development and subject to inherent uncertainty as the applicable legal and regulatory environment continues to evolve. Accordingly, there may be changes to the legal and regulatory requirements that negatively affect the operations of NextSeed, including servicing the Securities.

Requests for Additional Investor Information

Each investor will be required to comply promptly with reasonable requests for information made by or on behalf of the Issuer or the Site in order for the Issuer or the Site to satisfy any request for information about such investor or its investment, including requests made by any national, federal, state, local or regulatory authority, agency, committee, court, exchange or self-regulatory organization.

Additional Issuer Information

Prior to the Closing, each prospective investor will be able to ask questions and receive answers concerning the Offering via the Site. All communication with the Issuer regarding the Offering is required to take place on the Site. No other person other than the Issuer has been authorized to give information or to make any representations concerning the Issuer or the Offering outside of this Disclosure, and if given or made, such other information or representations must not be relied upon as having been authorized by the Issuer.

This Disclosure is intended to present a general disclosure regarding the Issuer. Each prospective investor should thoroughly review the PA, which specifies the terms of investment in the Securities.

Bonus Rewards

The Issuer may offer bonus rewards as a way to show appreciation for its investors. Bonus rewards are offered by the Issuer purely on a voluntary basis and do not influence the terms of the Offering. For the avoidance of doubt, the bonus rewards are not contractual conditions governed by the PA and are not enforceable under the PA.

Ongoing Reporting

The Issuer will file a report electronically with the SEC annually and post the report on its website, no later than: April 30 of the following year, 120 days after the end of each fiscal year covered by the report.

Once posted, the annual report will be available on the Issuer's website at: www.wradone.com

The Issuer must continue to comply with the ongoing reporting requirements until:

- (1) the Issuer is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
- (2) the Issuer has filed at least one annual report pursuant to Regulation Crowdfunding and has fewer than 300 holders of record;
- (3) the Issuer has filed at least three annual reports pursuant to Regulation Crowdfunding and has total assets that do not exceed \$10,000,000;
