Moxi's \$107,000 Milestone

A GIANT THANK YOU to everyone who helped Moxi on the Rocks reach its first major milestone! Our Phase 1 has not only reached, but reached a week ahead of schedule. We appreciate all of the support and enthusiasm, partnerships, and investments in making our vision a reality. We have had a number of people reach out to ask if they can still invest. We are currently underway for another phase and we will keep you apprised of future investment and collaboration opportunities. We will renovate this historic building, restore the mill's hydro-electric power, and create a showcase for Connecticut-made beverages industry!

Financial Condition

No operating history

Moxi on the Rocks was established in 11/2020. Accordingly, there are limited financial statements and information. When evaluating this investment opportunity, investors should consider factors outlined in the risk section as well as the following:

No other outstanding debt or equity

The capital raised through Mainvest will make up the entirety of the Moxi on the Rocks's fundraising. However, we may raise additional funds from alternate sources at a later date.

Risk Factors

You Might Lose Your Money

When you buy a certificate of deposit from a bank, the Federal government (through the FDIC) guarantees your investment. A Note is not like that at all. The ability of Moxi on the Rocks to make the payments you expect, and ultimately to repay the Note, depends on a number of factors, including many beyond our control.

Limited Services

Moxi on the Rocks operates with a very limited scope, offering only particular services to potential clients, based on customer preferences.

Lack of Accounting Controls

Larger companies typically have in place strict accounting controls. Smaller companies typically lack these controls, which is an additional risk.

Competition

The market in which we operate is highly competitive and could become increasingly competitive with new entrants. Moxi on the Rocks competes with many other businesses, both large and small, on the basis of quality, price, location, and customer preference away from Moxi on the Rocks's core business or the inability to compete successfully. This competition could negatively affect Moxi on the Rocks's financial performance.

Reliance on Management

Moxi on the Rocks might need to raise more capital in the future to fund/expand operations, buy property members, market its services, pay overhead and general administrative expenses, or a variety of other reasons. If additional capital will be available when needed, or that it will be available on terms that are not adverse to Moxi on the Rocks, Moxi on the Rocks is unable to obtain additional funding when needed, it could be forced to delay its business plans or operations altogether.

Changes in Economic Conditions Could Hurt Moxi on the Rocks

Factors like global or national economic recessions, changes in interest rates, changes in credit markets, changes in declining employment, changes in real estate values, changes in tax policy, changes in political conditions, and other factors are unpredictable and could negatively affect Moxi on the Rocks's financial performance or ability to operate. If Moxi on the Rocks ceases operations due to the foregoing factors, it can not guarantee that it will be able to generate revenue in the future.

No Registration Under Securities Laws

The Notes will not be registered with the SEC or the securities regulator of any State. Hence, neither Moxi on the Rocks nor the Notes are subject to the same degree of regulation and scrutiny as if they were registered.

Incomplete Offering Information

Title III does not require us to provide you with all the information that would be required in some other kind of public offering of shares (for example, publicly-traded firms must generally provide investors with quarterly financial statements that have been audited by an independent accounting firm). Although Title III does require extensive information, it is a different decision if you had more information.

Lack of Ongoing Information

Moxi on the Rocks will be required to provide some information to investors for at least 12 months following the offering. This information is far more limited than the information that would be required of a publicly-reporting company. Moxi on the Rocks may stop providing annual information in certain circumstances.

Uninsured Losses

Although Moxi on the Rocks will carry some insurance, Moxi on the Rocks may not carry enough insurance to cover all risks to its business. Additionally, there are some kinds of risks that are very difficult or impossible to insure against, and Moxi on the Rocks could incur an uninsured loss that could damage its business.

Changes in Laws

Changes in laws or regulations, including but not limited to zoning laws, environmental laws, tax laws, consumer

to have an audit committee made up entirely of independent members of the board of directors (i.e., direct relationships with Moxi on the Rocks or management), which is responsible for monitoring Moxi on the Rocks. The Rocks will not be required to implement these and other investor protections.

You Have a Limited Upside

Notes include a maximum amount you can receive. You cannot receive more than that even if Moxi on the Rocks exceeds your initial expectations.

You Do Have a Downside

Conversely, if Moxi on the Rocks fails to generate enough revenue, you could lose some or all of your money.

Payments and Return Are Unpredictable

Because your payments are based on the revenue of Moxi on the Rocks, and the revenue of Moxi on the Rocks can disappear altogether) unpredictably, it is impossible to predict how much you will receive and when. And because the revenue is unpredictable, so is your ultimate return.

The Notes Are Unsecured and Uninsured

The Notes are not secured by any collateral, nor are they guaranteed or insured by the FDIC or any other entity.

Subordination

The Notes shall be subordinated to all indebtedness of Moxi on the Rocks to banks, commercial finance companies, and/or other institutions regularly engaged in the business of lending money.

Lack of Guaranty

The Notes are not personally guaranteed by any of the founders or any other person.

Limitation of Individual Rights in Event of Default

In the event of a default under the Notes, you will not be able to enforce your rights individually (for example, a representative will be appointed according to the procedures set forth in the Note Indenture. It's possible that the representative will do things you believe are wrong or misguided. If an event of default has occurred, all of the representative's reasonable expenses must be paid before any further payments are made.

COVID-19 Impact

The ongoing COVID-19 pandemic may impact the Company's ability to generate revenue and/or continue operations.

Tomas, Thanks for the site visit today. I invested. Here is information for other investors investors-- there are 2 locations. One is a tasting room/ blending house overlooking the river. They buy wholesale inventory and the manuf also comes out to the river. There is a lot of good potential in the concept. The company has 6 potential streams of revenue and (1) room for local liquors, overlooking the river. They buy wholesale inventory and the manuf also comes out to the river. They have (2) party rental rooms-- more revenue (2) separate liquor companies manuf facilities making products for owners also (revenue) (potentially 3rd liquor renter also)- revenue Very small retail store selling liquor bottles. The places where as you leave after you had a good time, there is a store to sell you items (revenue)
