THE TEAM

Tomas Nenortas

Chief, Cook & Bottle Washer

Tomas has been producing QUIVER Spiced Honey Spirit, the Flagship of a line of Heritage Spirits based on ancestral recipes, for decades, to the delight of friends & family. Having learned the recipes from the attentive eyes of his four Lithuanian grandparents, he continues the tradition, making them the same way, and is very proud and excited to bring this Line to World markets. He will oversee day-to-day operations of Moxi.

Dan Rice

The Engagement Specialist

Dan has worked in marketing, web design, and multimedia production for the past five years. His forward thinking approach to problem solving and attention to detail will help propel Moxi as a business and brand.

Kim Burke

Director of Anti-Chaos

With 30 years' combined experience in business, management, operations, education, mathematics bookkeeping, restaurant services, and bartending. Kim rounds the Moxi team as the business systems manager.

Pat Birrell

Wizard of Lightbulb Moments

Pat spent 6 years working in the tech industry in support, sales and cybersecurity roles. This experience is combined with an acumen for digital marketing and design. His cross disciplinary work will help the Moxi team continue their success in their technical, marketing, and design endeavors.

East Hartford Mill named to State Register of Historic Places

The building is being renovated to house 'Moxi on the Rocks' which will feature adult beverages made in the state

Moxi on the Rocks project would bring one-stop shop for Connecticut craft beverages to old mill

An initiative to renovate part of the old Burnside paper mill in East Hartford into a "libation library" of Connecticut-made craft beverages has launched an investment campaign. The renovation of 6,000 square feet of the mill into "Moxi on the Rocks" is being done alongside a turbine restoration to provide hydropower to the entire 60,000-square-foot mill.

Moxi on the Rocks seeks online investors for East Hartford eating/drinking complex

Moxi on the Rocks is seeking online investors to transform an East Hartford mill building into a drinking and dining complex that also houses a hydro-powered alcohol distillery and retail shop for Connecticut-made alcoholic and soft drinks.

Moxi's \$107,000 Milestone

A GIANT THANK YOU to everyone who helped Moxi on the Rocks reach its first major milestone! Our Phase 1 investment goal of \$107K was not only reached, but reached a week ahead of schedule. We appreciate all of the support and enthusiasm, particularly from everyone who has invested in making our vision a reality. We have had a number of people reach out to ask if they can still invest. Due to the demand, plans are underway for another phase and we will keep you apprised of future investment and collaboration opportunities. Again, thank you for helping us renovate this historic building, restore the mill's hydro-electric power, and create a showcase for Connecticut's burgeoning craft beverage industry!

Heartfelt Thanks & a Strategic Partnership Change

Dear Moxi On The Rocks Investors,

Firstly, I wanted to thank you for your amazing support! Your enthusiasm rocks! I need to announce that there was a strategic partnership change. In order to place Yellow Crow Mead in its best positioning as a new entity we have amicably parted ways. We will continue to support each other's endeavors and excited to bring Mead and Quiver Spiced Honey Spirit to market. As you know we are on a Countdown to reach our April 7th deadline so please respond as soon as possible to Mainvest's Amendment request. If you do not respond your Investment will be returned and we

may fall short of our investment goal. I hope to see you at our Investor Open House this weekend. Again, heartfelt thanks for your generous support.

Cheers!

Moxi on the Rocks was established in 11/2020. Accordingly, there are limited financial statements and information for investors to review. CPA review for 2021 was completed with no recommendations. Tax Returns have been filed according to Federal/State guidelines for a pre-revenue company. When evaluating this investment opportunity, investors should consider factors outlined in the risk section as well.

No other outstanding debt or equity

The capital raised through Mainvest will make up the entirety of the Moxi on the Rocks's fundraising. However, Moxi on the Rocks may require additional funds from alternate sources at a later date.

Historical milestones

Moxi on the Rocks has been operating since November 2020 and has since achieved the following milestones: The property was listed on Connecticut's State Register of Historic Places which allows participation in the CT State Historic Rehabilitation Tax Credit Program which will provide a 30% Cash reimbursement on construction costs thus allowing an expedited return of funds to investors.

Risk Factors

You Might Lose Your Money

When you buy a certificate of deposit from a bank, the Federal government (through the FDIC) guarantees you will get your money back. Buying a Note is not like that at all. The ability of Moxi on the Rocks to make the payments you expect, and ultimately to give you your money back, depends on a number of factors, including many beyond our control.

Limited Services

Moxi on the Rocks operates with a very limited scope, offering only particular services to potential clients, making them vulnerable to changes in customer preferences.

Lack of Accounting Controls

Larger companies typically have in place strict accounting controls. Smaller companies typically lack these controls, exposing themselves to additional risk.

Competition

The market in which we operate is highly competitive and could become increasingly competitive with new entrants in the market. Moxi on the Rocks competes with many other businesses, both large and small, on the basis of quality, price, location, and customer experience. Changes in customer preference away from Moxi on the Rocks's core business or the inability to compete successfully against the with other competitors could negatively affect Moxi on the Rocks's financial performance.

Reliance on Management

As a securities holder, you will not be able to participate in Moxi on the Rocks's management or vote on and/or influence any managerial decisions regarding Moxi on the Rocks. Furthermore, if the founders or other key personnel of Moxi on the Rocks were to leave Moxi on the Rocks or become

unable to work, Moxi on the Rocks (and your investment) could suffer substantially.

Financial Forecasts Risks

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable economic conditions and other various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on future events over which Moxi on the Rocks and the key persons will have no control. Changes in assumptions or their underlying facts could significantly affect the forecasts. To the extent that the assumed events do not occur, the outcome may vary significantly from the projected outcomes. Consequently, there can be no assurance that the actual operating results will correspond to the forecasts provided herein. Additionally, Moxi on the Rocks is a newly established entity and therefore has no operating history from which forecasts could be projected with.

Inability to Sell Your Investment

The law prohibits you from selling your securities (except in certain very limited circumstances) for 12 months after you acquire them. Even after that one-year period, a host of Federal and State securities laws may limit or restrict your ability to sell your securities. Even if you are permitted to sell, you will likely have difficulty finding a buyer because there will be no established market. Given these factors, you should be prepared to hold your investment for its full term.

The Company Might Need More Capital

Moxi on the Rocks might need to raise more capital in the future to fund/expand operations, buy property and equipment, hire new team members, market its services, pay overhead and general administrative expenses, or a variety of other reasons. There is no assurance that additional capital will be available when needed, or that it will be available on terms that are not adverse to your interests as an investor. If Moxi on the Rocks is unable to obtain additional funding when needed, it could be forced to delay its business plan or even cease operations altogether.

Changes in Economic Conditions Could Hurt Moxi on the Rocks

Factors like global or national economic recessions, changes in interest rates, changes in credit markets, changes in capital market conditions, declining employment, changes in real estate values, changes in tax policy, changes in political conditions, and wars and other crises, among other factors are unpredictable and could negatively affect Moxi on the Rocks's financial performance or ability to continue to operate. In the event Moxi on the Rocks ceases operations due to the foregoing factors, it can not guarantee that it will be able to resume operations or generate revenue in the future.

No Registration Under Securities Laws

The Notes will not be registered with the SEC or the securities regulator of any State. Hence, neither Moxi on the Rocks nor the Notes will be subject to the same degree of regulation and scrutiny as if they were registered.

Incomplete Offering Information

Title III does not require us to provide you with all the information that would be required in some other kinds of securities offerings, such as a public offering of shares (for example, publicly-traded firms must generally provide investors with quarterly and annual financial statements that have been audited by an independent accounting firm). Although Title III does require extensive information, it is possible that you would make a different decision if you had more information.

Lack of Ongoing Information

Moxi on the Rocks will be required to provide some information to investors for at least 12 months following the offering. However, this information is far more limited than the information that would be required of a publicly-reporting company; and Moxi on the Rocks is allowed to stop providing annual information in certain circumstances.

Uninsured Losses

Although Moxi on the Rocks will carry some insurance, Moxi on the Rocks may not carry enough insurance to protect against all risks to the business. Additionally, there are some kinds of risks that are very difficult or impossible to insure against, at least at a reasonable cost. Therefore, Moxi on the Rocks could incur an uninsured loss that could damage its business.

Changes in Laws

Changes in laws or regulations, including but not limited to zoning laws, environmental laws, tax laws, consumer protection laws, securities laws, antitrust laws, and health care laws, could negatively affect Moxi on the Rocks's financial performance or ability to continue to operate. Specifically, any additional regulation on the industry could significantly negatively affect the business.

Conflict of Interest With Companies and Their Management

In many ways, your interests and the interests of Moxi on the Rocks's management will coincide: you both want Moxi on the Rocks to be as successful as possible. However, your interests might be in conflict in other important areas, including these: You might want Moxi on the Rocks to act conservative to make sure they are best equipped to repay the Note obligations, while Moxi on the Rocks might prefer to spend aggressively to invest in the business. You would like to keep the compensation of managers low, while managers want to make as much as they can.

Future Investors Might Have Superior Rights

If Moxi on the Rocks needs more capital in the future and takes on additional debt or other sources of financing, the new investors might have rights superior to yours. For example, they might have the right to be paid before you are, to receive larger distributions, to have a greater voice in management, or otherwise.

The Company is Not Subject to the Corporate Governance Requirements of the National Securities Exchanges

Any company whose securities are listed on a national stock exchange (for example, the New York Stock Exchange) is subject to a number of rules about corporate governance that are intended to protect investors. For example, the major U.S. stock exchanges require listed companies to have an audit committee made up entirely of independent members of the board of directors (i.e., directors with no material outside relationships with Moxi on the Rocks or management), which is responsible for monitoring Moxi on the Rocks's compliance with the law. Moxi on the Rocks will not be required to implement these and other investor protections.

You Have a Limited Upside

Notes include a maximum amount you can receive. You cannot receive more than that even if Moxi on the Rocks is significantly more successful than your initial expectations.

You Do Have a Downside

Conversely, if Moxi on the Rocks fails to generate enough revenue, you could lose some or all of your money.

Payments and Return Are Unpredictable

Because your payments are based on the revenue of Moxi on the Rocks, and the revenue of Moxi on the Rocks can go up or down (or even disappear altogether) unpredictably, it is impossible to predict how much you will receive and when. And because the payments are unpredictable, so is your ultimate return.

The Notes Are Unsecured and Uninsured

The Notes are not secured by any collateral, nor are they guaranteed or insured by the FDIC or any other entity.

Subordination

The Notes shall be subordinated to all indebtedness of Moxi on the Rocks to banks, commercial finance lenders, leasing and equipment financing institutions, and/or other institutions regularly engaged in the business of lending money.

Lack of Guaranty

The Notes are not personally guaranteed by any of the founders or any other person.

Limitation of Individual Rights in Event of Default

In the event of a default under the Notes, you will not be able to enforce your rights individually (for example, by bringing a lawsuit). Instead, a representative will be appointed according to the procedures set forth in the Note Indenture. It's possible that you will not like the representative, or that the representative will do things you believe are wrong or misguided. If an event of default has occurred and a representative has been appointed, all of the representative's reasonable expenses must be paid before any further payments are made with respect to the Notes.

COVID-19 Impact

The ongoing COVID-19 pandemic may impact the Company's ability to generate revenue and/or continue operations. If operations are ceased due to COVID-19 restrictions, the Company can not guarantee that it will resume operations in the future.

What is the maximum return on this investment? And can investors receive more than the minimum payment if the business has increased profits

Tomas N. 4 months ago Moxi on the Rocks Entrepreneur

Hi, If you invest at the VIP level before we hit our \$20k threshold we offer a 1.8 return, after that it drops to 1.6. Yes, we plan on increasing repayments with increased profits.

Dustin I. Waterbury, CT 4 months ago

So I am going to asking this out of curiosity and not to ruffle feathers here but if you have received \$277,500 from investments previously through mainvest why a need for another \$20k?

Tomas N. 4 months ago Moxi on the Rocks Entrepreneur

Hi Dustin, We are legally allowed to raise up to \$500k so we are going for it! Each campaign sets a minimum threshold.

Dustin I. Waterbury, CT 4 months ago

I was looking more along the lines of: Has the past money raised already been obtained and invested into the business or is this just a add on to raise more? Are you still able to open your doors even if this second \$20k goal isnt met?

Tomas N. 4 months ago Moxi on the Rocks Entrepreneur

The funds have been obtained but have not started construction yet as we are still finalizing building plans due to the intricacy of the water turbine. We will be hitting the 20k goal as we received an investor commitment.

I invested because as a child and young man i grew up within a 100 yards of the mill and the man who paid for recycled paper would pay my sister and i for our newspapers and magazines even though he didnt have to bother. that encouraged us keep collecting more and we would always have a little spending cash. the going rate at that time was \$17 a ton in the early fifties

Can i invest for the life time of the business? What i am seeing here is just a loan.

Thomas B. Salisbury, MD 11 months ago

Although I believe the financial profit projections are significantly overstated, I also believe Moxi has a great concept that will prove to be popular locally and profitable at a more conservative level.

Tomas N. 11 months ago Moxi on the Rocks Entrepreneur

Hi Thomas, The financial projections were vetted through one of the larger restaurant groups in the area albeit for a post-covid world. When we have a firm construction time-line everything will be updated accordingly to reflect current market conditions.

Thomas B. Salisbury, MD 11 months ago

Hi Tomas - Your data room projections indicate a 45% profit margin (presumably close to an EBITDA measure) for each year. My comment was based on an understanding that restaurant profit margins are generally in the 0% - 15% range. If you can generate a 45% profit margin, you may need to think about franchising your concept later! Meanwhile, I will look forward to seeing Moxi's actual results in the near future.

Cory B. Middletown, CT 11 months ago

Do you get business revenue share on top of the investment multiple or is it just the investment multiple what you get back.

Tomas N. 11 months ago Moxi on the Rocks Entrepreneur

Hi Cory, Revenue is shared each quarter until the investment plus multiple is paid back.

John F. Avon, CT 11 months ago

Will try to make the open house this Friday. But may not be able to. Is it possible to set up a time to get a tour at some point this week? Also, is it possible to invest now and then invest again later on? Or are you locked into a single "slot"? The Mainvest site is showing a limited number available.

Tomas N. 11 months ago Moxi on the Rocks Entrepreneur

Hi John, Yes absolutely we can set up a Tour at your convenience. And yes you are able to invest now and then increase it later. Limited number refers to the VIP level of \$1000.00 & up.

Tomas N. 11 months ago Moxi on the Rocks Entrepreneur

To clarify if you invest less than 1K you can always increase it to get to the VIP level.

John F. Avon, CT 11 months ago

Thanks Tomas. I'll use email to contact you directly.

Brewing and Distilling is exploding in CT. But it is getting very difficult to differentiate the many individual storefronts, start-ups, garages and

taprooms. I like the idea of pulling together what all these folks are doing and then adding further value with tasting and blending across them. Good luck. I look forward to checking it out.

Tomas N. 11 months ago Moxi on the Rocks Entrepreneur

Tomas, Thanks for the site visit today. I invested. Here is information for other investors investors-- there are my own observations. From the site visit there is a lot of good potential in the concept. The company has 6 potential streams of revenue and (2) others. Here they are-- its a tasting room for local liquors, overlooking the river. They buy wholesale inventory and the manuf also comes out to help sell the product. (revenue) Will have (2) party rental rooms-- more revenue (2) separate liquor companies manuf facilities making product who will be renting space - part owners also (revenue) (potentially 3rd liquor renter also)- revenue Very small retail store selling liquor bottles what they just tasted -- similar to the places where as you leave after you had a good time, there is a store to sell you items (revenue)
