(D) The Company's Business and Business Plan

Our Mission

We are setting the (raw)bar higher with respect for our oysters and a commitment to quality. We hone our craft each and every day to elevate the New England raw bar experience to the next level.

- We do not compromise on the quality of our oysters.
- Oysters always come direct from the source, as fresh as possible.
- If the shuck isn't up to our standards, we won't sell it to you.

The Team

Andy Rogers, Oyster Sommelier

Andy has been working in hospitality since 2012, and has since earned a degree in Hospitality Management and Ecogastronomy from the University of New Hampshire. He is a competitive shucker with a personal record of 12 beautiful oysters shucked in 47 seconds. Shucking oysters is a meditation, as he is always striving for the perfect shuck. A perfect shuck means no shell in the oyster, no harm to the oyster meat, and no liquor spilled. Andy's love for the craft of shucking aside, he feels fulfilled every day getting to connect with others, as he shares both oyster

knowledge and a zest for life with all those around him.

In his free time, Andy enjoys long runs in the woods, pottery, and cooking for close friends and family.

"New England is my home, and oysters are the flavor of my home." -Andy Rogers

Ryan Jolie, Owner / Kitchen Wizard

Ryan earned a culinary degree from Johnson and Wales, and has since spent 16 years working in serious kitchens. Over time, he has developed a finesse for flavor that makes everything he touches turn to delicious. No stranger to ever changing, high pressure, and often mobile environments, Ryan is ready for anything. He comes prepared, and adapts without hesitation to new problems on the fly.

This past year, Ryan has been working at an oyster farm figuring out how to bring the hyper efficiency he learned in kitchens to the realm of oyster aquaculture.

Nate Gruen, Owner / Marine Biologist

Nate spent many years in the hospitality world cooking, catering, and serving before going back to school to earn a degree in Marine Estuarine and Freshwater Biology from the University of New Hampshire. Anything technical and science based, Nate has the answers. Brimming with ideas to grow better oysters and make aquaculture even more sustainable, he is the brains responsible for developing our oyster farm.

Jolie Rogers 2021

Starting April 2021, Jolie Rogers will be operating Wednesday - Sunday primarily outside of various craft beer establishments in Portland ME.

- We are in discussion to lock down recurring weekly pop ups that will give us continuity on Wednesdays and Thursdays.
- Friday - Sunday we stay flexible, scheduling weddings and catering events where we can, and booking targeted pop ups. The mobile vendor unit will allow us to stay nimble and always be able to set up and sell even if we have nothing booked.
- We sell shucked oysters for \$3 each at pop ups, and book catering events at \$20 per head guaranteeing 5 oysters per guest. To expand upon these offerings, we are developing other menu items like smoked oyster escabeche, seasonal crudos, ceviches, stuffed clams, roasted oysters, and perhaps a Maine lobster item.
- In development is a line of retail cocktail sauces, mignonettes, caft vinegars, soups, and stuffed clams.

Intended Use of Funds

Ryan and Andy are preparing to run Jolie Rogers full time in 2021 which will increase the volume of sales dramatically. To efficiently execute this volume of sales, the business will need a company van and a mobile vendor unit.

- We will invest in a professional looking van with our logo on it to better transport our gear to and from events.

- Build out a push cart style mobile vendor unit that will greatly increase where we are able to set up and sell oysters, especially in the Portland ME market.
- Any additional funds raised over \$20,000 will be used as working capital
- A strong 2021 season will set us up to invest in our own oyster farm in 2022

Our Story

When Ryan Jolie and Andy Rogers met working at a raw bar in Portsmouth NH, the combination of their last names was too good to ignore. Joining the two names like a nautical law firm, Jolie Rogers was born.

- Starting with nothing but an oyster knife and an excellent source of oysters, Ryan and Andy began shucking at breweries and events.
- Adding Nate Gruen to our team, we are preparing to invest in our own oyster farming operation in 2022
- Long term, Jolie Rogers is planning to purchase a large piece of land on the ocean and build an event space overlooking the water.

Oyster Sustainability

An oyster's food source is the ambient microorganisms suspended in the water column, which means there are no inputs like other forms of food production. Just attentive care for the oysters and their watershed. Apart from the low cost of growing the animals, the true sustainability of the practice lies in the feeding habits of the oysters themselves. Each mature oyster can filter up to fifty gallons of seawater every day, and help regulate the nitrogen in our waterways. When that number is compounded across tens of thousands of oysters in multiple watersheds, it becomes clear that the cultivation of these animals will have a major positive impact on the future health of our oceans.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	5.0 - 7.5% ²
Payment Deadline	2027-10-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.65 x 1.5 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	0.48%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 5.0% and a maximum rate of 7.5% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$20,000	5.0%
\$22,500	5.6%
\$25,000	6.2%
\$27,500	6.9%
\$30,000	7.5%

³ To reward early participation, the investors who contribute the first \$20,000.0 raised in the offering will receive a 1.65x cap. Investors who contribute after \$20,000.0 has been raised in the offering will receive a 1.5x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Andrew Rogers	50%
Ryan Jolie	50%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

The Company has no indebtedness outside of the debt the Company is expecting to raise through
