**CALCULATED DEVELOPMENT LLC
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2021**

NOTE 1 – NATURE OF OPERATIONS

Calculated Development LLC (which may be referred to as the “Company”, “we,” “us,” or “our”) was formed in Utah on November 23, 2020. The Company is majority owned by One Door Studios LLC, a Utah Limited Liability Company, that develops, produces and distributes blockbuster motion pictures. The Company was formed to completely develop the business and creative elements and aspects of its sole motion picture and series asset specific to the Calculated book series, to enable it to be ready to be production-financed, produced and globally distributed.

Upon the development completion of the first motion picture in CALCULATED’s franchise, the Company will sell all rights, title and interest of this asset’s first developed motion picture to another Special Purpose Producing Entity (“SPPE”) for fifty percent (50%) of all the net receipts earned globally by this motion picture and all its ancillary products and rights; also this sale will include a payment in an amount sufficient to pay the Company’s investors 110% of their original investment. The sole purpose of the SPPE is to produce this asset and its ancillaries for the hopefully long life of this motion picture and series franchise. The Picture is based upon the novel “Calculated” written by Nova McBee, set in Seattle Washington and Shanghai China.

The Company’s headquarters are in Santa Barbara, California. The company began operations in 2020 at its formation and will continue operations in Santa Barbara, California now that its operating funding is complete.

The Company is formed for purposes of purchasing and completely developing CALCULATED’s Motion Picture and media rights. Though One Door Studios LLC has direct oversight of the Company; it should be understood that the Company is relying on raising sufficient capital to fully develop the first picture for production.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). Any reference in these notes to applicable guidance is meant to refer to U.S. GAAP as found in the Accounting Standards Codification (“ASC”) and Accounting Standards Updates (“ASU”) of the Financial Accounting Standards Board (“FASB”).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Risks and Uncertainties

Though the Company is wholly owned by One Door Studios LLC which has operated since 2018 and has a management team that purports to have entertainment company leadership experience in excess of thirty years, the Company itself has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits, but does not consider the financial risk to be high.

**CALCULATED DEVELOPMENT LLC
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2021**

Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents.

Fixed Assets

Property and equipment will be recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income.

Depreciation will be provided using the straight-line method, based on useful lives of the assets.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment for December 31, 2021, as there were no fixed assets as of December 31, 2021.

Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

There were no assets or liabilities as of December 31, 2021 that required fair value measurements.

Income Taxes

The Company has elected to be taxed as a partnership with the Internal Revenue Service (IRS). Therefore, no provision for federal income tax expense is recorded. Instead, the net income for the Company flows through to its members and is taxed through their individual income tax returns..

The Company complies with FASB ASC 740, *Income Taxes* for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

**CALCULATED DEVELOPMENT LLC
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2021**

Revenue Recognition

Effective January 1, 2019, the Company adopted Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). Revenue is recognized when performance obligations under the terms of the contracts with our customers are satisfied. As of December 31, 2021, the Company is pre-revenue.

Advertising

The Company expenses advertising costs as they are incurred.

Recent Accounting Pronouncements

In February 2019, FASB issued ASU No. 2016-02, *Leases*, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2016-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2021. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – COMMITMENTS AND CONTINGENCIES

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company.

COVID 19

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

NOTE 4 – FILM DEVELOPMENT

Thus far, development costs incurred include the option fees incurred to acquire the motion picture and series rights to the book CALCULATED and its sequels, the fees paid for greenlighting and other feasibility reports, promotion video production expenses, legal fees, and art. These costs are capitalized until the film is ready for amortization, consistent with Accounting Standards Codification 926, Entertainment—Films—Other Assets—Film Costs ("ASC 926").

**CALCULATED DEVELOPMENT LLC
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2021**

NOTE 5 – NOTES PAYABLE

The Company entered into a note payable agreement for \$350,000 bearing interest at 10% per annum beginning January 18, 2022. After one year of interest accrual, the Company may prepay this note without penalty. The full balance of this note, including accrued interest, is due and payable within ten (10) calendar days from when funds are fully available to produce the motion picture entitled Calculated, referred to as the "Due Date," which motion picture is under development by the Company. As such, no future commitments schedule may be calculated.

NOTE 6 – MEMBERS' EQUITY

Member Contributions

During 2021, the Company completed a crowdfunded offering for Revenue Participation Rights totaling \$1,475,000 and incurred fees totaling \$95,875. As of December 31, 2021 the Company has received \$1,038,560, net of \$72,199 in fees. The remaining \$340,565, net of 23,676 in fees, was received in January 2022.

During 2021 One Door Studios LLC made additional contributions of \$525,000.

NOTE 7 – SUBSEQUENT EVENTS

Management's Evaluation

Management has evaluated subsequent events through May 23, 2022, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.
