Our Team

Jason Brents President

Established and maintains a currently active group of over 60 film industry leaders spanning Beijing, Qingdao, and Shanghai China, including producers, actors, directors, distributors, film score composers and city government officials.

From its opening sentence, Nova McBee's young woman starring character just knocked us out with her impossible circumstances and unconquerable spirit. We were fortunate to bid early on this audience-captivating book series that could become one of the highest impact motion picture franchises of all time.

John J. Lee, Jr. CEO

Successfully led the vision, launch and/or expansion of five entertainment and media entities, and provided business services for 23 studio released motion pictures, TV network series and specials, with global rights earnings exceeding $4 billion.

Stephen Wollwerth Executive Vice President

Stephen's cinematography has been seen all over the world including production for Fox Sports, National Geographic Channel, a PBS Docuseries watched by millions, and as DP on a feature film released on Amazon called Hope for the Holidays.

Thomas Elisher Project Manager

Thomas has several years of high-level project management experience developing tools and standard operating procedures to maintain the scope, schedule, and budget for dozens of concurrent projects.

Look Out DIVERGENT and HUNGER GAMES...Here Comes CALCULATED!

In 2010, two sub-average guys surfing the internet came across an invitation to invest in the HUNGER GAMES franchise for only $100 bucks. One guy thought, "What do I have to lose?"

Not wanting to be cheap, he turned over his mattress, broke his piggy bank and ponied up $200. The other friend was more cautious and said "Nah, I'm good. I'm saving for a PlayStation 3."

Well, we all know how the HUNGER GAMES turned out. Guy number one was invited to premieres, had the bragging rights that he had a part in making movie history, and best of all, he got to share in the profits, while guy number two is still playing Madden right now in his basement.

Ok...that story is totally fiction. HUNGER GAMES never offered equity crowdfunding investments to the public. But the next big

equity crowdfunding investments to the public. But the next big motion picture franchise CALCULATED is. ONEDOOR STUDIOS is now offering an invitation to invest in CALCULATED for as little as $100. That's not fiction.

Calculated's powerful novel series on which the CALCULATED film franchise is based is a present-day action-adventure thriller.

SYNOPSIS OF CALCULATED

Josephine Rivers is a calculating prodigy with a nearly supernatural ability to look at the world through a purely mathematical lens, even at times predicting the future. After a betrayal by her own family when she's only 15, she's kidnapped and taken to China by the sinister Maxima, known as "Madame," who forces her to use her gift to increase her fortune. This marks the beginning of our hero's arduous journey, which sees her moved around Shanghai's criminal underground as others exploit her gift. Her only close company is older captive Hong Rui, nicknamed "Red," whose wisdom and support change how she views her own power and teaches her what she needs to survive. Now she's 17 and working for a wealthy man whose captivating son Kai starts to chip away at her emotional defenses. She has the fate of the world in her hands, thanks to her unique gifts, but she also craves vengeance against those who've wronged her. Can she save the world from a financial collapse and also bring her enemies down? And can she trust Kai enough to let him into her heart?

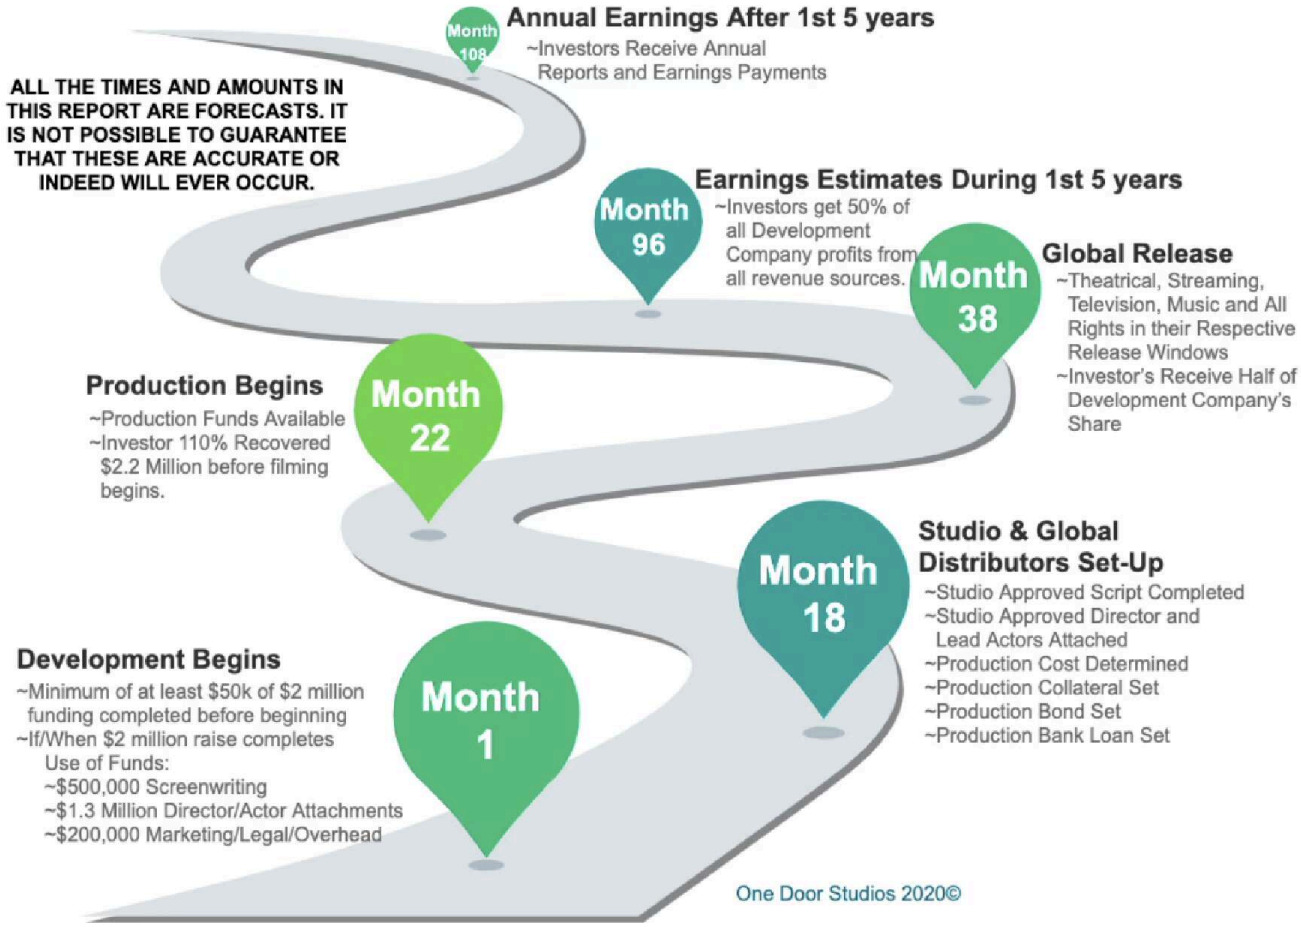
You are invited to share in providing Calculated's $2 million development funding. A bank's entertainment department will provide Calculated's estimated $45 million production budget.



This structure provides you 110% to 120% of your investment (depending on whether you invest during the Early Bird window) from Calculated's production financing BEFORE it begins production.

In addition, you will receive your proportional share of 50% of all Calculated Development's global earnings from every source. To give you an idea of this return, consider that our projected earnings are projected to be comparable to those of THE HUNGER GAMES and THE DIVERGENT SERIES franchises.
