(D) The Company's Business and Business Plan

The Team

Jamie Edwards , Owner/Farmer

My family grew produce when I was a little girl and when I became an adult and had my own land I grew my own produce. I have been growing commercially since 2016, supplying both the general public as well as local produce stands. I have obtained a USDA certification for Apple Valley to be a certified produce stand. I also have 14 years of retail management experience that gave me the ability to successfully open and operate my business as not only a grower, but as customer service, accounting, understanding profit and loss and other business reports, marketing and merchandising, understanding customer shopping habits, and all other aspects of running a business. I am a sole proprietor and do 100% of all the work at Apple Valley Farm and have not had a single year in the red or any YOY declines. I strive for excellence, see growth every year, and plants make my business a household name brand in the agricultural world.

Intended Use of Funds

I plan to utilize the funds raised through Mainvest to construct a produce stand on my farm, purchase new farm equipment, custom road signage, and for marketing.

- Will have a physical store for customers to purchase from
- Expanding the amount of land I can farm gives me a lot more product to sell each season
- Having directional signage on main roads will direct New customers to my rural location
- Will be able to advertise grand opening in local papers and online to have greater visibility to a larger area
- Will be able to serve more customers without selling out of product before the end of season due to the limited space I can farm without large equipment

Business Model

We sell fresh produce to local consumers, both on-farm and by delivery service.

- I grow a wide variety of produce to appeal to several different types of customers
- All my produce is grown organically
- I have a pecan orchard that produces great income biannually
- We provide free delivery service within our county and to the elderly and disabled
- I always add in extra product to my customers' orders, just to thank them for their business
- I am one of the only produce farms in our area, and the other stands purchase my product at wholesale to resell to the public
- I grow a cut flower garden and sell bouquets as a value added product
- Sugarcane is one of the crops i grow and I give each child that comes to the farm a free stalk since many kids have never had fresh cane

- I am USDA certified to accept EBT cards, which appeals to my area since it is statistically poverty stricken
- I have products available from late February through December
- I have a contract with a major heirloom seed company to grow their seed stock beginning 2021 season
- The same company that I am growing seed for is also purchasing 100lbs of my heirloom garlic in 2021 and each year afterwards with the amount being greater each year depending on sales
- I only sell the very best quality products that I grow, I never sell cull products to customers

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	10.0 - 17.5% ²
Payment Deadline	2027-01-01
Maximum Payment Multiple	1.5 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	0.48%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 10.0% and a maximum rate of 17.5% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$20,000	10.0%
\$23,750	11.9%
\$27,500	13.8%
\$31,250	15.6%
\$35,000	17.5%

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company’s offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has no outstanding securities.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Jamie Edwards	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to

pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

Creditor	Amount	Interest Rate	Maturity Date	Other Important Terms
Small Business Administration	\$10,600	3.5%	12/01/2050	

(Q) Other Offerings of Securities within the Last Three Years

The Company has not made any offerings with other third-party regulation crowdfunding companies in the past three years.

(R) Transactions Between the Company and "Insiders"

The Company has not entered into any business transactions, including stock Purchases, salaries, property rentals, consulting arrangements, guaranties, or other agreements with any individual identified in Section 227.201 (r)(1)-(4) of Regulation Crowdfunding during the 12 months preceding this Offering.

(S) The Company's Financial Condition

No other outstanding debt or equity

The capital raised through Mainvest will make up the entirety of the Apple Valley Farm's

fundraising. However, Apple Valley Farm may require additional funds from alternate sources at a later date.

Financial liquidity

Apple Valley Farm has a strong liquidity position due to its high cash reserves as compared to debt and other liabilities. Apple Valley Farm expects its liquidity position to decline upon raising capital on Mainvest and deploying the capital to grow the business.
