Risk Factors

We may issue additional Class A ordinary shares or preference shares to complete our initial business combination...., page 51

2. We note the risk factor disclosure on page 51 regarding your potential use of preference shares to complete your initial business combination or under an employee incentive plan after the completion of your initial business combination. Revise this risk factor to separate actions you may do before and after the initial business combination transaction, and their dilutive and other effects, so potential investors may determine the risks inherent in this investment decision as distinct from those risks that may follow their opportunity to redeem their investment. In doing so, clarify how you may use preference shares with dilutive effect or to subordinate the rights of Class A holders prior to the initial business combination.

You may contact Franklin Wyman at (202) 551-3660 or Kate Tillan at (202) 551-3604 if you have questions regarding the financial statements and related matters. Please contact Abby Adams at (202) 551-6902 or Christopher Edwards at (202) 551-6761 with any other questions.

Sincerely,
