About:

Dedicated to building a high-quality early childhood education (ECE) program for teachers, families, and caretakers around the world, ChildWise International has worked diligently to provide training and consulting solutions for early childhood educators and institutions in North America, Asia, and Europe. ChildWise has developed a bilingual (English and Mandarin Chinese) Child Development Associate Credential® (CDA®) training program in line with the most up-to-date early childhood education practices.

The CDA® is the most widely recognized credential in early childhood education. Although well-established in the U.S., many countries around the world still lack a proper training system, such as the CDA®. ChildWise’s training products seek to fill demand for certification, both in the U.S. and China. ChildWise is the first and only education company that provides CDA® online training in both Chinese and English. The course has students across North America, Asia, and Europe, and ChildWise recently partnered with the Graduate School of Education at the University of Pennsylvania to offer it as a credit course in their Penn Literacy Network.

In 2017, ChildWise was authorized as the exclusive partner to launch a CDA® training pilot program in China. After the successful completion of the pilot program in 2018, ChildWise became the only official training partner of the CDA® Council to provide training in Greater China. ChildWise, has provided CDA® training to hundreds of ECE educators and helped them to receive their CDA® Credential.
