LEAD INVESTOR

Supreet Singh

CorneaCare, Inc. is a great investment because it capitalizes on the increasing market share of the telehealth sector in order to treat extremely common eye conditions. Dry eye disease is an extremely common medical problem that plagues millions of individuals. It often follows a refractory course due to poor compliance. The combination of technology and medicine has great potential to ensure patient compliance and improve patient outcomes.

Invested \$2,500 this round

- Partner, Alto Palo, Digital Agency - CTO & CMO for Art Frankly - Designed and project managed 1500+ unit renovations in NYC
