Registration Statement on Form F-4

Prospectus Summary

Recent Developments, page 7

1. Wherever GAAP measures are disclosed along with non-GAAP measures, please clearly differentiate between the two and present the most directly comparable financial measure so that the non-GAAP measure is not given greater prominence. We note one or both of these issues in several places throughout your filing including, but not limited to, pages 7, 71, 120, 139, 142, 145, 148-149 and 159. Refer to Item 10(e)(1)(i)(A) of Regulation S-K.
2. We note your disclosure of preliminary financial results for the period ended March 31, 2021. Your presentation of preliminary results should include sufficient narrative

disclosure to provide appropriate context. In this regard, you should provide your analysis of the preliminary results so that investors can understand what they mean. For example, indicate whether the preliminary results are consistent with the trend disclosure in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Non-GAAP Financial Measures
ex-TAC Gross Profit, page 143

3. In the portion of your table that reconciles GAAP revenue to GAAP gross profit, please revise to remove the phrase "adjusted to exclude the following." The inclusion of the phrase could cause GAAP gross profit to be confused with a non-GAAP measure. Please make similar revisions on page 159 and elsewhere as appropriate.
4. You explain the usefulness of ex-TAC Gross Profit and Ratio of Adjusted EBITDA to ex-TAC Gross Profit by indicating that they better reflect the revenue that ultimately flows to you. Since you have acknowledged that these measures are more akin to profitability measures, it is unclear why you reference revenues rather than profitability. Please revise accordingly both here and elsewhere throughout your filing as appropriate.

5. We note your response to prior comment 5. Please revise to disclose the most directly comparable GAAP measure to Ratio of Adjusted EBITDA to ex-TAC Gross Profit, which appears to be Net Income (Loss) to GAAP Gross Profit. The most directly comparable GAAP measure should be disclosed with greater prominence wherever ex-TAC Gross Profit is disclosed or discussed.

Exhibits

6. We note your response to prior comment 2. Please revise exhibit 3.2 to clarify that the exclusive forum provision does not apply to Exchange Act claims or advise.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.

Refer to Rules 460 and 461 regarding requests for acceleration. Please allow adequate time for us to review any amendment prior to the requested effective date of the registration statement.
