Equity Platforms, Inc. was created to make real estate equity ownership and rental income more accessible for those who have been historically marginalized by providing an opportunity for investors to collectively invest in real estate.

Los Angeles, and various communities in Pennsylvania. Equity Platforms, Inc. plans to provide shareholders with quarterly dividend payouts from the portfolio's rental income, along with a share in profit from the licensing of any of Equity Platforms, Inc., Inc's technology. Real estate acquisition targets are subject to change, although all properties will have components of affordable housing.

Working hand in hand with local housing authorities, the lion share of rental income is expected to derive from government-backed subsidized tenancy, with the majority of rent guaranteed. All prospective acquisitions will be vetted through an institutional underwriting process performed by Equity Platforms, Inc.'s acquisition team and will be required to have a potential positive impact on the prospective community. We plan to lease rental units to low Income renters with an AMI (area median income) of 80% or less.

Equity Platforms intends to complete the real estate assemblage required to begin development on a planned 65- unit affordable housing complex, which we plan to encompass 637 Hegeman Avenue, 639 Hegeman Avenue, 645 Hegeman Avenue, and 705 Bradford Street, all located in Brooklyn NY 11207.

2025: \$10M Portfolio Value

Through strategic value-add acquisitions and steady growth of Equity Platforms, Inc., the total market cap of the company is expected to exceed \$10,000,000 by the end of 2025.

The Property.

Equity Platforms, Inc. is targeting 637 Hegeman Avenue, in Brooklyn, New York, as its first fully owned real estate acquisition. Located in the heart of East New York Brooklyn, the property underwent a full gut renovation in 2018, which included roofing, electrical upgrades, a new boiler system, and plumbing. The building includes two residential units and two commercial spaces which are currently occupied. The total square footage for the property is 3,600 with 5,040 square feet of additional available air rights for potential future development.

The first-floor residential unit is a one bedroom and is tenanted by a family who has a full rental voucher from CityFEPS, and the second-floor residential unit is a three-bedroom occupied by a family with

Section 8 voucher. The first retail space is rented by a beauty salon, and the second is tenanted by a software development company.

Once 637 Hegeman Avenue is acquired, in 2022, Equity Platforms, Inc.'s goal is to purchase the adjacent property located at 639 Hegeman Avenue, Brooklyn NY 11207, which has the exact size and dimensions as 637 Hegeman Avenue. The owner of the 639 Hegeman Avenue property has signed a Letter of Intent to sell the property to Vernon Jones, the CEO of Equity Platforms, Inc., along with another vacant parcel of buildable land located at 421 Montauk Street, also in the East New York section of Brooklyn.

In 2023, Equity Platforms, Inc. intends on acquiring two other adjacent properties to 637 and 639 Hegeman, which are 705 Bradford Street, and 645 Hegeman Avenue. It is confirmed that both property owners have expressed interest in selling. As an assemblage of four properties, there is an ability to develop 65 residential units along with ground-floor retail space. Equity Platforms, Inc. plans on beginning development of the mixed-use project in 2024.

About the Offering

The Company is engaged in a Regulation Crowdfunding (Reg CF) offering (the "Offering") to raise money to acquire a mixed-use property in Brooklyn, NY and to develop blockchain-enabled asset management software for the company's real estate holdings.

We are trying to raise a maximum of \$1,070,000, but we will move forward with the Project and use investor funds if we are able to raise at least \$50,000 (the "Target Amount"). If we have raised at least the Target Amount we might decide to accept the funds and admit investors to the Company before the Target Date; in that case we will notify you and give you the right to cancel.

After we accept the funds and admit investors to the Company, whether on the Target Date or before, we will continue the Offering until we have raised the maximum amount.

East New York, a primarily residential neighborhood, has a population of just over 91,000 and rising. Located in the eastern part of Brooklyn, it's surrounded by Cypress Hills Cemetery, Jamaica Bay, Queens, and the railway tracks of the Bay Ridge Branch. Made up of primarily apartments and single-family buildings, it's a unique neighborhood that many say is one of the few in Brooklyn that's maintained its classic New York City vibe. Considered by some to be the next up and coming neighborhood, development is happening everywhere in this district.^{5 6}

You can find a little of everything in East New York including apartments built above corner bodegas, apartments in converted Victorian homes, three-story apartment buildings, and semi-detached homes. In recent years, a fair number of condos and coops have been built on this patch of land that covers just one square mile. There are a few historic spots within East New York, including the East Brooklyn Industrial Park, a 44-block park that was created back in the 1980s, as well as East New York Farms, founded in 1998,

where various community organizations grow plants for food and to beautify the neighborhood. In 2013, the African Burial Ground Square was dubbed a national historic spot.

Excellent transportation is one of the selling points of East New York. There's a station on the Long Island Railroad Atlantic Branch, and the 2, 3, 4, and 5 trains stop at several spots in the neighborhood, as does the L train. Other subway lines in the neighborhood include the A, C, J, and Z lines. Add to that the dozen or so local and express buses, and it's easy to see just how many options there really are.

East New York is overseen by the New York City Department of Education and has higher than average dropout rates compared to other areas of the city. Several high schools have been shut down in recent years, with new schools being organized to better meet the needs of students.

New York Community Hospital is located on Kings Highway in Midwood and Mount Sinai Brooklyn, in nearby Marine Park, is also a short distance away. Residents can pick from their choice of a wide range of private practices and alternative medical professionals in this neighborhood.

The East New York neighborhood is patrolled by the 75th Precinct of the New York Police Department. It has an average yearly crime rate of 19.34 crimes per 1,000 residents. Compared to other neighborhoods in Brooklyn, this crime rate is higher than most, but it's still lower than most neighborhoods in Manhattan and the Bronx.

Today's East New York Community is made up of classic spots that locals have long loved, like Grant Caffé near the Liberty Avenue A train stop, Fusion East, Tavares Restaurant, Carro Cafe, and the Lindenwood Diner, with its mix of Latin and Caribbean foods. City Line Pizza and Pasta is another popular spot, and locals get their Nigerian food cravings quenched by visiting Festac Grill & Lounge.

The Gateway Mall is also a popular destination and economic development driver for the East New York Community. The original mall (Gateway Center South), which opened in 2002, consists of a 640,000-square-foot (59,000 m²) complex, with a large parking lot and three separate structures to the south along Gateway Drive. It is anchored by several major stores, including Target, The Home Depot, Best Buy, and BJ's Wholesale Club. The newer northern complex (Gateway Center North), which opened in 2014, is similarly sized at 605,000 square feet (56,200 m²), with a second parking lot, four small adjacent buildings for small outlets, a fifth structure for an Applebee's, and a sixth for a bank. Tenants of this section, which opened in stages in late 2014, include JCPenney, T.J.Maxx, ShopRite, and Aldi.

The two-part complex was envisioned as a suburban-style strip mall.[3] The southern complex was designed by GreenbergFarrow Architects. The northern complex was designed by GreenbergFarrow as well as the Perkins Eastman firm. Both main structures are designed in Georgian architectural style, with brick outer facades and green trim. GreenbergFarrow also designed Related's Gateway Center at Bronx Terminal Market.

Other shopping opportunities can be found at City Line retail district, where there's a stretch of clothing and shoe shops, or at Aquaduck Flea Market, where vendors sell vintage goods and tasty foods on

Tuesdays, Fridays, Saturdays, and Sundays. ARTs East New York is a unique venue where artists and vendors can create and then show their work.

There are several parks and playgrounds in East New York, including Linden Park with basketball courts, soccer fields, a running track, and tennis courts, as well as Breukelen Ballfields Park with its five baseball diamonds, dog runs, and handball playgrounds. There are also three branches of the Brooklyn Public Library in East New York.

A brand-new park was developed in the last few years called Shirley Chisholm Park, featuring 407 acres, the park is the largest state park in New York City. In addition, it is the third-largest park in Brooklyn, behind Marine Park and Prospect Park.

The initial phase cost \$20 million and includes 10 miles (16 km) of bike paths and hiking trails, waterfront access points, and a pier at the head of Pennsylvania Avenue on the western peninsula. Shirley Chisholm State Park also includes a "bike library" operated by Bike New York, which allows park users to borrow refurbished bikes for free, and a mural of Chisholm created by Brooklyn artist Danielle Mastrion. The second phase of the park opened a few months later with an entrance on Fountain Avenue, as well as additional educational programming.

Additional risks and uncertainties not presently known to the Company, or which the Company currently deems not as significant as those listed herein, may also have an adverse effect on the Company. Thus, investments in the Company may never be profitable and substantial losses may occur. Likewise, the securities being offered by the Company have not been submitted to any rating agency to obtain an opinion or rating of the risk of investment. This means that an investment in the Company is speculative and the exact return on investment is unknown.

THIS IS A SPECULATIVE INVESTMENT

The Investor must be willing and able to tolerate a total loss of his/her investment, as this is a speculative venture. Investments in private companies, particularly early to mid-stage private companies involve a high degree of risk. The Company will be comparatively vulnerable to adverse developments such as rapid changes in technology, fluctuations of demand and prices and to marketing competition from larger, better established companies, as well as more vulnerable to catastrophic weather events or other “Acts of God,” wars, pandemics, epidemics, or other acts of force majeure.

The Investor acknowledges that any projections, forecasts or estimates as may have been provided to the Investor are purely speculative and cannot be relied upon to indicate actual results that may be obtained through this investment; any such projection, such as forecasts and estimates are based upon assumptions of marketing trends, if any, which are subject to change and which are beyond the control of Company or its management. Investment in the Company may never be profitable and substantial losses may occur. Actual financial performance of the Company may not match its predictions which would mean that the Company may not generate expected returns. Actual returns may differ dramatically from expected returns. As such, this Investment is suitable only for persons who can bear the economic risk for an indefinite period of time and who can afford to lose their entire investment.

COVID19-RELATED RISKS

The COVID-19 pandemic has added risk factors to the real estate industry. For example, there are new restrictions in place that have halted all evictions. Even though the current tenants are paying their rent on time at 637 Hegeman Avenue, there is always the risk that a tenant may lose their job and be unable to pay rent, and Tenant may claim a loss due to COVID-19, leaving the Landlord with less income.

THERE IS A RISK OF RESIDENTIAL AND COMMERCIAL EVICTIONS

The Company is in the business of real estate acquisition and management. This leaves it open to real estate - related risks, such as evictions. Although the New York State moratorium on Covid-related Residential and Commercial Evictions for New York State has expired as of January 16, 2022, there is still a risk that the Company will have to evict a residential or commercial tenant for nonpayment of rent or for other good

cause under New York landlord-tenant eviction laws. This is true even though all of the tenants of the Company are currently paying their rent in accordance with their leases or their agreed- upon deferral arrangements. Thus, there is a risk that Investors may lose all or substantially all of its investment within the Company.

INVESTMENTS IN UNIDENTIFIED REAL ESTATE PROPERTIES CREATE A HIGHER RISK THAN INVESTMENTS IN IDENTIFIED REAL ESTATE PROPERTIES

Investments in real estate companies involve a particular high-degree of risk. This is because the real estate industry is heavily regulated by local, State, and federal laws, including local zoning and land use rules, regulations pertaining to government subsidies, and various environmental regulations regarding real property. This high regulatory environment puts a strain on the real estate industry and limits the business potential of the Company. Other risks of managing real estate companies include a high risk of personal injury-related lawsuits that often accompany residential real estate, and various other legal liability issues that typically affect residential real properties that the Company plans to own and manage. Currently, the Company plans to buy an unidentified multi-unit residential real estate which makes the foregoing risks and liabilities even higher as real property is unique and each one varies. Therefore, the Company cannot guarantee any profits or returns to Investors and there is a substantial risk that Investors will lose out on its entire investment.

NO GUARANTEE OF RETURN AND THE NEED TO CONSULT AN ATTORNEY

No assurance can be given that the Investor will realize a substantial return on investment, or any return at all, or that the Investor will not lose a substantial portion or all of the investment. For this reason, Investor should carefully read all disclosure materials and should consult with an attorney, accountant, and/or business advisor prior to making any investment decision.

TAX CONSEQUENCES MAY VARY

No representation or warranty of any kind is made by the Company or its management with respect to any tax consequences of any investment in the Company. Each Investor should seek their own tax advice concerning the tax consequences of an investment in the Company.

NO LEGAL OR FINANCIAL ADVICE

In making an investment decision, Investors must rely on their own examination of the Company and the terms of this offering, including the merits and risks involved. Each Investor should consult its own counsel, accountant, financial advisor, or other professional adviser as to investment, legal, tax and other related matters concerning the Investor's proposed investment.

ADDITIONAL CAPITAL NEEDS

It is likely that the Company will need to raise additional capital and conduct subsequent raises throughout the life of the Company. The Company is not working with an underwriter, placement agent or similar party, and so there is no guarantee that the Company will raise any particular amount in this current offering or in the subsequent (future) offerings. The Company plans to raise additional capital to expand and continue

operating its business, but there is no guarantee that, in such a scenario, such additional capital would be available on terms favorable to the Investor or available at all.

CERTAIN OTHER FACTORS MAY AFFECT FUTURE SUCCESS.

Any continued future success that the Company might enjoy will depend upon many factors, including factors beyond the control of the Company and/or which cannot be predicted at this time. These factors may include but are not limited to default rates on loans that the Company may make; changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors such as Cadre, Fundrise, and LEX Markets; changes in general economic conditions, such as government-mandated shutdowns and closures caused by Covid-19, including rent moratoriums, decreased rental income, and increased bad debts; increases in operating costs, such as increases in cost of construction, namely increase in the price of lumber, roofing delays, rental property insurance, oil and other travel-related expenses, as well as labor shortages; the Company's ability to obtain grant funding, subsidies, loans, or mortgages for real property owned; and reduced margins caused by competitive pressures, such as cost of labor in the real estate management and leasing industry, as well as increased in recent buyer demands and lower real estate supply in New York City, Pennsylvania, North Miami, and Los Angeles. Although the current real estate market in New York City, Pennsylvania, North Miami, and Los Angeles are favorable to real estate companies such as the Issuer, the foregoing conditions may have a material adverse effect upon the Company's business, operating results, and financial condition should they occur. Unforeseen changes in consumer attitudes (tenants), market dynamics (rental industry), or regulations (zoning and rent control) may also adversely affect the Company, and therefore negatively affect the investment of the Investor. Recently, the Company's costs increased by 30% due to increases in lumber, oil, and other construction and construction-related expenses.

EFFECTIVE USE OF PROCEEDS

The Company may revise the Use of Proceeds and any other material change of this offering through an amendment and filing of a Form C with the Securities Exchange Commission (SEC). Failure to use such proceeds effectively could harm the business and financial condition of the Company.

KEY PERSONNEL

The Company's success substantially depends on the efforts of its Chief Executive Officer, Vernon Jones and Vice President Beatriz Durant as Investors have no voting rights and must rely upon the judgment and skills of the CEO and VP to make major decisions on behalf of the Company that could impact their investments. In addition, the Company does not have an established plan to replace these persons in the case of death or disability. The Company's success also depends upon its ability to recruit, train, and retain qualified staff, officers, and other members of management. The loss of the services of any of key personnel, or Company's inability to recruit, train, and retain qualified management, may have a material adverse effect on the Company's business and financial condition, and Investors could lose all of their investments.

LACK OF LIQUIDITY

Currently, there is no established secondary market or exchange for the resale of Company's Units. This makes the Units illiquid. The Units are likely to remain illiquid for a considerable period of time. There is a risk that the illiquidity of the Units may create a negative impact on the value of the Units as an Investor

seeking to sell their Units may have great difficulty in finding a buyer or may not find any buyers for the shares at all. Any decision to become publicly-traded will be at the discretion of the Company. Therefore, the Investor may have to retain their investment in the Company even if it is no longer financially desirable to do so and as a result, could lose their entire investment.

LIMITED TRANSFERABILITY OF SECURITIES

The Investor should be fully aware of the long-term nature of their financial support of the Company. The Units may be transferred only if certain requirements are satisfied as further described in the Subscription Agreement and Bylaws. The Investor has represented to the Company that it is acquiring the shares for their own investment only and without a view to their immediate resale or distribution.

SECURITIES NOT REGISTERED WITH THE SEC AND UNRATED

The securities offered by the Company have not been registered with the Securities and Exchange Commission (SEC). Instead, the offer and sale of the Units is made in reliance on an exemption from registration pursuant to Section 4(a)(6) and Regulation Crowdfunding (Reg CF) by the SEC. In addition, the securities being offered have not been submitted to any rating agency to obtain an opinion or rating of the risk of investment.

LIMITED EXPERIENCE

Although the CEO and VP both have experience in the residential real estate business (See Item #5 regarding Business Experience), the Company has only existed in this industry since 2021, so the Company's experience is limited.

COMPETITION IN THE REAL ESTATE INDUSTRY

The market for real estate is highly competitive and could become even more competitive, affecting the Company's sales, revenues, and profits. For example, additional competitors could enter the market or there could be increased success among existing competitors. The Company competes with other similar businesses, including competitors who may have greater access to capital, marketing and sales opportunities, and other resources. There can be no assurances that Company will be able to compete successfully, and competitive pressures may affect the ability to earn profits.

RETURNS

There is no assurance that any Return on Investment (ROI) will ever be made to Investors. Any ROI to Investors will depend upon successful investment operations of the Company and in accordance with the terms outlined in the Shareholder Agreements, Bylaws, and Subscription Agreements. The marketability and value of any such investment will also depend upon many factors beyond the control of the Company. Furthermore, expenses of the Company may exceed its income or cash flows, and the Investors could lose the entire amount of their investment.

THE COMPANY HAS NOT YET COMMENCED FULL OPERATIONS

The Company is incorporated as a Delaware limited liability company on 1/1/2021. Because the Company is still in the development stage, it has earned little revenues or produced any profits. There is no assurance that it will ever earn sufficient revenues or produce profits overtime. As a fairly new enterprise, the

Company is likely to be subject to risks its key personnel or management has not anticipated. This can result in the Investor losing all or substantially all of its investment within the Company.

LITIGATION COULD ADVERSELY AFFECT THE COMPANY

If the Company is involved in litigation or other similar proceedings or becomes the target of a regulatory investigation, such an event could be very costly, both because of the legal costs and because it would likely distract key personnel from their regular duties; and such an event could result in an adverse outcome with additional costs. Such an event could have a material adverse effect on the Company's operations, which could negatively impact the Investor's investment and the Investor may lose its entire investment.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

From time to time, additional written forward-looking statements may be made by the Company. These forward-looking statements are within the meaning of that term in Section 27A of the Securities Act and may include projections of revenues, income or loss, capital expenditures, business relationships, financings, proposed financings or investments by third parties, product development, plans for future operations, and plans relating the Company, as well as assumptions relating to the foregoing. These statements are based upon management's current expectations, beliefs, and assumptions about future events, are other than statements of historical fact, and involve a number of risks and uncertainties.

The words "believe," "may," "will," "could," "would," "plan," "expect," "intend," "anticipate," "estimate," "project" or the negative or plural of these words or similar expressions identify forward-looking statements, which speak only as of the date the statement was made, but are not the exclusive means of identifying those statements. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Statements in this Form C describe factors, among others, that could contribute to or cause those differences. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this Form C or its Exhibits may not occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

You should not rely upon forward-looking statements as predictions of future events. Except as required by law, neither the Note nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements. The Note undertakes no obligation to update publicly any forward-looking statements for any reason after the date of this Form C to conform these statements to actual results or to changes in its expectations.

You should read the Form C, and the documents that the Note references in this Form C with the understanding that the Note's actual future results, levels of activity, performance, and events and circumstances may be materially different from what the Note expects.

§227.201(l) – Price of the Securities

The Company is offering “securities” in the form of stock, which we refer to as “Investor Shares.” The price is \$100.00 per Investor Share.

We arrived at the price of Investor Shares as follows:

- We estimated how much money we need to complete the project.
- We estimated the value of the project when it's completed.
- We estimated what we believe is a fair return to Investors.
- Based on those estimates, we established the manner for sharing profits in our Bylaws.

§227.201(m) – Terms of the Securities

Overview

The Company is offering “securities” in the form of stock, which we refer to as “Investor Shares.” When you purchase an Investor Share, you will become an owner of the Company, which is a Delaware public benefit corporation. Your ownership will be governed by the Company's By-Laws (Exhibit E), and all amendments thereto, as well as the Reg CF Investment Agreement (Exhibit D).

Your Right to Distributions

If the Company is profitable, it will make distributions to its owners from time to time.

Subject to applicable law and the provisions of Delaware State and the Certificate of Incorporation, dividends may be declared by the Board of Directors at any meeting and may be paid in cash. Any such declaration shall be at the discretion of the Board of Directors. A director shall be fully protected in relying in good faith upon the books of account of the Corporation or statements prepared by any of its officers as to the value and amount of the assets, liabilities or net profits of the Corporation or any other facts pertinent to the existence and amount of surplus or other funds from which dividends might properly be declared. At the time of execution of this agreement, the Equity Platforms, Inc. Board of Directors has agreed to pay out \$4 per share in dividends to all stockholders on an annual basis paid out in quarterly increments starting on June 15th, 2023. This dividend is not guaranteed and is subject to change according to the discretion of the Board of Directors.

Obligation to Contribute Capital

Once you pay for your Investor Shares, you will have no obligation to contribute more money to the

Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Voting Rights

Although you will be an owner of the Company, you will generally not have the right to vote or otherwise participate in the management of the Company. Instead, the CEO and VP will control all aspects of the Company's business. For all practical purposes you will be a passive Investor.

No Right to Transfer

Investor Shares will be illiquid (meaning you might not be able to sell them) for four reasons:

- The Shareholder Agreement prohibits the sale or other transfer of Investor Shares without the CEO's consent.
- If you want to sell your Investor Shares the CEO and VP will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Investor Shares, as there would be for a publicly traded stock.
- For a period of one year, you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" Investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

As a result, you should plan to hold your Investor Shares until the Company is dissolved.

Modification of Terms of Investor Shares

The terms of the Investor Shares may not be modified or amended, unless otherwise required by law.

Other Classes of Securities

As of now, the Company has only one class of security: Common Shares.

Common shares represent a claim on profits (dividends).

Dilution of Rights

Under the Shareholder Agreement, the CEO has the right to create additional classes of securities, including classes of securities with rights that are superior to those of the Investor Shares.

Principal Shareholders

Mr. Vernon Jones (the "CEO") owns both 38.16% of the Company and 50% of GWO LLC, which has a 60% interest in the Company. Therefore, Mr. Jones effectively controls the Company.

How the CEO's Exercise of Rights Could Affect You

- The CEO has partial control over the Company and the actions of the CEO could affect you in a number of different ways, including these:
- The CEO decides whether and when to sell the project, which affects when (if ever) you will get your money back. If the CEO sells the project "too soon," you could miss out on the opportunity for greater appreciation. If the CEO sells the project "too late," you could miss out on a favorable market.

- The CEO decides when to make distributions, and how much. You might want the CEO to distribute more money, but the CEO might decide to keep the money in reserve or invest it into the project.
- The CEO could decide to hire himself or his relatives to perform services for the Company and establish rates of compensation higher than fair market value.
- The CEO could decide to refinance the project. A refinancing could raise money to distribute, but it could also add risk to the project.
- The CEO decides on renting the project, including the terms of any lease.
- The CEO decides how much of its own time to invest in the project.
- The CEO could decide to raise more money from other Investors and could decide to give those Investors a better deal.

How the Securities are Being Valued

The price of the Investor Shares was determined by the CEO based on the CEO's opinion about the value of the project.

Risks Associated with Ownership

Owning a non-voting minority interest in a Company comes with risks, including these:

- The risk that the person in control of the Company will do a bad job.
- The risk that the person in control of the Company will die, become ill, or just quit, leaving the Company in limbo.
- The risk that your interests and the interests of the voting majority interests of the Company aren't really aligned.
- The risk that you will not be able to sell your interests in the Company.
- The risks that the actions taken by the person in control of the Company – including those listed above under "How the CEO's Exercise of Rights Could Affect You" – won't be to your liking or in your interest.

§227.201(o) – Compensation of the Funding Portal

EQUITYCOIN, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1: Nature of operations

Nature of the business

EquityCoin, Inc. (the “Company”) was incorporation on January 1, 2021 in the State of Delaware. EquityCoin is a digital token on the blockchain backed by affordable housing. EquityCoin plans to democratize real estate investment while providing quality housing for those who need it most by creating a system for tokenizing real property.

NOTE 2: Summary of significant accounting policies

Basis of presentation

The accounting and reporting policies of the Company conform to GAAP. The Company’s fiscal year end is December 31.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Cash and cash equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Concentration of credit risks

The Company’s financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company’s management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Revenue recognition

The Company plans to recognize revenue in accordance with ASC 606, “Revenue Recognition” following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize revenue when or as performance obligations are satisfied

EQUITYCOIN, INC.
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: Summary of significant accounting policies (continued)

Fair value of financial instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 – Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities.

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax in the United States ("U.S.") and files tax returns in the U.S. Federal jurisdiction and state jurisdiction. The Company is subject to U.S. Federal, state and local income tax examinations by tax authorities for all periods since Inception. The Company currently is not under examination by any tax authority.

The ASU is effective for annual and interim periods beginning after December 15, 2021. Early adoption is permitted. The Company is currently evaluating the impact on its financial statements.
