Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

THE COMPANY

1. Name of issuer:

Divinely Nectar, Inc.

COMPANY ELIGIBILITY

2. ☒ Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

INSTRUCTION TO QUESTION 2: If any of these statements are not true, then you are NOT

eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

☐ Yes ☒ No

DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined as Director
John Dalsey	President	Divinely Nectar, INC.	2020
Jeremy Kim	CEO	Divinely Nectar, INC.	2020
James Peligrini	Managing Partner	Goat Rodeo	2023

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of the issuer.

Officer	Positions Held	Year Joined
John Dalsey	President	2020
Jeremy Kim	CEO	2020

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

INSTRUCTION TO QUESTION 5: For purposes of this Question 5, the term officer means a president, vice president, secretary, treasurer or principal financial officer, comptroller or principal accounting officer, and any person that routinely performing similar functions.

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Name of Holder	No. and Class of Securities Now Held	% of Voting Power Prior to Offering
----------------	--------------------------------------	-------------------------------------

No principal security holders.

INSTRUCTION TO QUESTION 6: The above information must be provided as of a date that is no more than 120 days prior to the date of filing of this offering statement.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

For a description of our business and our business plan, please refer to the attached [Appendix A, Business Description & Plan](#)

INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and "read more" links in an un-collapsed format. All videos will be transcribed.

*This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. **Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.***

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the

accuracy or completeness or any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Our operational track record is constrained, as we commenced operations in 2020. Although we have progressed from our initial starting point to establishing six states (California, Hawaii, Washington, Texas, New York & New Jersey) within this timeframe, our limited operating history leaves uncertainties. There is no guarantee that we can successfully execute our business plan over the long term, achieve consistent profitability, or that our current results necessarily foreshadow future performance.

Our reliance centres on the dedicated efforts of our compact management team. John Dalsey and Jeremy Kim, our co-founders remain at the helm, and the continued active participation of key personnel is crucial to our success. The departure of any essential team member could significantly impact our business, financial health, and operational outcomes. Furthermore, our ability to attract, retain, and train highly qualified technical and managerial personnel is vital for sustained success. Given the fierce competition for skilled professionals in our industry, the loss or difficulty in acquiring and motivating such individuals may have a substantial adverse effect on our company.

Intense competition from FMB brands poses a significant challenge for us. While some of these producers focus on limited distributions, a considerable number have expansion plans similar to ours. Failing to distinguish ourselves from this competitive landscape may have adverse effects on our financial results.

Sustaining and building our product image may pose challenges. Given the fierce competition within our industry, it is imperative for us to consistently maintain and enhance the image of both our existing and new products. We aim to draw customers to our brand by establishing a positive association with quality and unique offerings and to stand out on crowded store shelves as a reliable choice. Various factors, such as litigation, complaints from regulatory bodies, or consumer feedback related to quality issues, illness, or health concerns, could impact the image and reputation of our products. Even when unfounded, such concerns have the potential to harm our product image and overall reputation.

Growing brand awareness is imperative for our success. Several factors may limit our potential to secure and sustain a substantial market share. Establishing and nurturing recognition of our brand name is pivotal, particularly in light of the mainstream market competition in the Seltzer and FMB market. The significance of brand awareness is poised to rise. The effectiveness of our marketing endeavours will play a crucial role in successfully promoting and positioning our brand, products, and services. Consequently, there might be a necessity to augment our financial commitment towards the creation and maintenance of brand awareness. Failure to effectively promote our brand or incurring significant expenses in this regard could have adverse effects on our financial results.

Any interruption in manufacturing could significantly impact our financial outcomes. Extended disruptions to production activities, whether caused by events such as fire, industrial action, or any other unforeseen circumstances, at our primary manufacturing facility or any other location, has the potential to adversely affect our capacity to provide products to our distributors and retailers. In the event of such occurrences, there is a risk of experiencing material adverse effects on our financial results.

Our reliance on preferred suppliers makes us vulnerable to operational disruptions. Our connections with suppliers, providing essential elements like beverage containers, packaging, and flavors crucial for FMB production and distribution, are integral to our operations. Although we have identified alternative suppliers where necessary, any disturbance in the operations of our current suppliers may have adverse effects on our operations.

Our product distribution relies on partnerships with distributors. We currently utilize a network of distributors, in addition to our company's website and limited self-distribution, to reach consumers. The success of our product sales and marketing efforts is closely tied to the performance of these distributors. It's crucial to note that our distributors have the freedom to sell products from our competitors and are not obligated to prioritise our offerings. The termination of relationships with many distributors is a possibility at any time. A potential inability to depend on one or more of our distributors could result in reduced sales, negatively impacting our overall business.

We face potential challenges in licensing, legal, and regulatory domains. The terms of these licenses are subject to state and local laws, which may change due to legislative actions. The loss of licenses or alterations to license terms resulting from legislative changes could have adverse effects on our financial results.

Our products are subject to federal regulations. In the United States, a comprehensive legal framework governs alcoholic beverages, encompassing factors such as the alcohol content in our products and the labelling on our packaging. Violating any of these regulations may result in fines or other penalties, which could have adverse effects on our financial results.

We may face rising expenses without a proportional increase in revenues. Similar to many businesses, we encounter operational and financing expenses that are not directly linked to revenue generation. Factors contributing to potential increases in these operating and financing expenses include, but are not limited to: (1) rising inflation rates, (2) higher taxes and statutory charges, (3) alterations in laws, regulations, or government policies leading to increased compliance costs, (4) significant hikes in insurance premiums, (5) escalating borrowing costs,

and (6) unexpected upturns in the costs of supplies, goods, materials, construction, equipment, or distribution. In the event that our expenses surge due to any of these factors, our financial results may be adversely affected, especially if there is no corresponding increase in revenues.

Historically, we have incurred net operating losses and profitability may not be imminent.

Our track record reflects prior net operating losses, and the execution of our business plan may result in ongoing losses. Although we envision achieving consistent profitability in the future, this outcome is not guaranteed, and our limited operational history does not provide a basis for assuming future profitability with certainty.

The capital sought in this Regulation Crowdfunding offering may not suffice for our business plan, and we plan to seek additional funding.

To realize our long-term objectives, additional funds will be necessary beyond what is raised in this Regulation Crowdfunding offering. The process of securing additional funds in the future comes with uncertainties, and there is no assurance that we will be able to obtain them on acceptable terms or secure them at all. If we resort to equity offerings for future funding, the terms offered to these investors might be more favorable than those extended to investors in this offering. Failure to secure adequate capital in the future could impede our ability to execute on our long-term goals.

We will persist in utilizing debt financing, potentially involving the pledge of all company assets as collateral.

In conjunction with seeking equity financing, we are actively pursuing debt financing and lines of credit to facilitate effective cash flow management and the execution of our business plan. The nature of debt financing may necessitate the pledging of all company assets as collateral for loans, creating a risk of asset seizure by the lender in the event of loan default.

Our performance may be affected by shifts in employment laws or regulations. With operations across six states, we maintain employees that adhere to numerous federal and state labor laws governing our interactions with them. These laws encompass aspects such as minimum wage, overtime pay, healthcare reforms, and compliance with various federal and state healthcare regulations, as well as factors like unemployment tax rates, workers' compensation rates, citizenship requirements, and union membership. Alterations in federal or state laws influencing our relationships with employees have the potential to negatively impact our operational outcomes.

There is a risk of employee misconduct or improper activities adversely affecting the company.

Like any business, we are vulnerable to the possibility of employee fraud or other forms of misconduct. Employee misconduct may encompass intentional or negligent violations of laws or regulations, inaccurate reporting to regulators, non-compliance with applicable standards, providing misleading financial information, or failing to disclose unauthorized activities to management. Furthermore, sales, marketing, and business practices are subject to extensive laws and regulations aimed at preventing fraud, misconduct, kickbacks, self-dealing, and other abusive practices. These regulations may impose limitations or prohibitions on a range of activities, including pricing, discounting, marketing, promotion, sales commissions, and customer incentive programs. Employee misconduct could involve improper or illegal activities, potentially leading to regulatory sanctions and causing significant damage to our reputation.

Unfavorable economic conditions may adversely affect our outcomes.

Fluctuations in the overall economic environment could have a negative impact on discretionary consumer spending, potentially affecting our revenue. During economic downturns, consumers often curtail spending on luxury items, including premium-priced alcohol. This shift in consumer behavior could significantly impact our financial results in a material and adverse manner.

Our future plans are staked on assumptions and analyses crafted by our management team.

Should these assumptions prove inaccurate or the analysis be misapplied, our financial results could be adversely affected. The alignment of actual operating results and business developments with the assumptions and analyses prepared by our management is contingent on various factors beyond our control, including but not limited to: (1) Our ability to secure adequate capital for sustaining and expanding our business. (2) Effective management of the company's growth. (3) Successful management of relationships with key vendors. (4) Market demand for our products. (5) Timing and costs associated with new and ongoing marketing and promotional efforts. (6) New and existing Competitors. (7) Retention of key management personnel, integration of hires, and attraction, retention, and motivation of qualified employees. (8) The overall strength and stability of domestic and international economies. (9) Consumer spending patterns.

We plan to pursue additional equity or debt financing in the future, potentially diluting your investment in this offering.

Our intention to secure further equity or debt financing may lead to dilution for existing shareholders, including investors in this offering. Additionally, it could involve the issuance of securities with superior rights, preferences, and privileges compared to other shareholders. Any future equity offerings would consequently result in a dilution of your stake in the company.

You will not wield substantial influence over the company's management. The day-to-day operations and strategic decisions will be the exclusive purview of our executive officers and directors. Your ability to vote on matters related to company management will be restricted, if at all, and you will neither possess the right nor the power to actively participate in the management or be represented on the company's board of directors. Consequently, anyone considering the purchase of our stock should be prepared to delegate all facets of management to our executive officers and directors.

Investing in our shares is speculative, and returns are not guaranteed.

investors face significant risks, including the possibility of a complete loss of their investment. The speculative nature of investing in our stock means that positive returns are not assured. Individuals should only invest an amount that they are prepared to lose entirely.

We have a history of not paying dividends, and we do not foresee doing so in the near future.

Cash dividends on our stock have never been distributed, and our current expectation is that we will not pay cash dividends in the foreseeable future. Future earnings are anticipated to be reinvested into the development and expansion of the company. The decision to pay dividends will hinge on factors such as earnings, financial condition, and other relevant business and economic considerations, as deemed appropriate by management. In the absence of dividend payments, the value of our stock may be influenced, as investors would only realize returns by selling their stock, which might not occur on favorable terms or at all if there is no market for our stock.

We employed a non-standard approach to establish our offering price. Our offering price determination deviates from the use of GAAP financials and is instead based on a measurement tied to past and projected sales volume (Cases). Potential future investors or purchasers of your shares may not endorse this valuation methodology, which could potentially constrain the value you might realize if you choose to sell your shares.

Our management holds significant discretion over the utilization of proceeds from this offering.

Our management is empowered to make decisions in the company's best interest, including the discretionary allocation of proceeds from this offering to our operations. While we outline our intended uses, evolving circumstances and unforeseen opportunities may lead to variations in the actual deployment of proceeds compared to what is disclosed here.

Our offering is not registered under federal or state securities laws, relieving us from compliance with regulations governing public companies.

We have utilized exemptions from securities registration requirements in accordance with relevant state and federal securities laws. Consequently, investors in our company will not enjoy the benefits typically associated with such registration. Prospective investors are thus tasked with independently evaluating the sufficiency of disclosure and fairness of the terms of this offering or seeking advice from their personal advisors.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 93.5% Working Capital - Maintain a positive cash position and ensure we are ready for all opportunities

6.5% Wefunder fee

If we raise: **\$1,200,000**

Use of Proceeds: 30% Sales & Marketing - develop key markets and retail partners.

10% Product Innovation - engaging strategic partners to produce exceptional beverages at scale.

20% Team - Recruit best-in-class members to bring The Divinely Different Mission to the world

33.5% Working Capital - Maintain a positive cash position and ensure we are ready for all opportunities

6.5% Wefunder fee

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see Appendix B, Investor Contracts.
The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **preferred stock** in the Company ("Preferred Stock"), when and if the Company sponsors an equity offering that involves **Preferred Stock**, on the standard terms offered to other Investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving **preferred stock**, **Investors will receive a number of shares of preferred stock** calculated using the method that results in the greater number of **preferred stock**:

- a. the total value of the Investor's investment, divided by the price of **preferred stock** issued to new Investors multiplied by the discount rate (80%), or
- b. if the valuation for the company is more than **\$40,400,000.00** (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
 - i. the Valuation Cap divided by
 - ii. the total amount of the Company's capitalization at that time.

For investors up to the first **\$500,000.00** of the securities, investors will receive a valuation cap of **\$33,666,667.00** and a discount rate of 80%.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Excludes Options, Promised Options, and Preferred Stock

Equity Financing means a bona fide transaction or series of transactions, in each case, which occurs after the Issue Date with the principal purpose of raising capital, pursuant to which the Company issues and sells Preferred Stock at a fixed valuation, including but not limited to, a pre-money or post-money valuation, and in which the aggregate gross cash proceeds received by the Company exceed **\$3,000,000**. For clarity, an Equity Financing shall be deemed to occur on the date on which the Company actually receives \$3,000,000 in gross proceeds from such Equity Financing

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **preferred stock**, Investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

1. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
2. On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
3. Senior to payments for Common Stock.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have

in the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- ☐ Yes
☒ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

- i. the Investor or
- ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):
 - A. the Purchase Amount may not be amended, waived or modified in this manner,
 - B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and
 - C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

	Securities (or Amount)	Securities (or Amount)	Voting Rights
2019-2020			

Class or Security	Authorized	Outstanding	Rights
Voting Common Stock	12682359	4,196,401	Yes ▾
Non-Voting Common Stock	1,531,586	31,428	No ▾
Preferred Stock	8,219,279	7,216,858	Yes ▾

**Securities Reserved for
Issuance upon Exercise or Conversion**

Warrants:	352,712
Options:	1,500,000

Describe any other rights:

The rights, preferences, powers, privileges and the restrictions, qualifications and limitations of the non-voting common stock are identical with those of the voting common stock other than in respect of voting rights as set forth herein, and for all purposes under the Certificate of Incorporation, the voting common stock and non-voting common stock shall together constitute a single class of shares of the capital stock of the corporation. Preferred Stock have preferential payment in the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation over Common Stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting

and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **shares of Preferred Stock**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Stock**, investors may receive a number of shares of **Preferred Stock** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Stock** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Stock** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **board of directors**. Among the factors we may consider in determining the price of **Preferred Stock** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **stock (including both common stock and Preferred Stock)** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

dilution of the investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

The Modern Asian Alcohol Company.

Divinely Nectar, INC. is a hard seltzer supplier that launched the one of the first Asian-inspired hard seltzers. Leveraging aggressive social media marketing, the Company swiftly and impressively achieved success in promoting a set of Asian fruit flavors unavailable elsewhere, leading to rapid expansion into markets nationwide.

Milestones

Divinely Nectar, INC. was incorporated in the State of Delaware in March 2021. The company was started as an LLC in 2020.

Since then, we have:

- Over 8,000,000 cans sold (as of April 2024)
- 120% avg Year over Year growth since 2021
- 1,700,000+ members in our community
- Carried in 2,100 stores, across 7 states
- Over 800,000,000 organic views across the Nectar Media Company (including UTI podcast).
- Stocked in all your favourite retailers: COSTCO, RALPHS, SAFEWAY, HEB, FRED MEYER, FOODLAND & MORE

Historical Results of Operations

Our company was organized in 2020 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2023, the Company had revenues of \$3,404,451 compared to the year ended December 31, 2022, when the Company had revenues of \$2,457,152. Our gross margin was 18.45% in fiscal year 2023, compared to 15.64% in 2022.
- *Assets.* As of December 31, 2023, the Company had total assets of \$3,828,445, including \$282,237 in cash. As of December 31, 2022, the Company had \$2,216,817 in total assets, including \$141,296 in cash.
- *Net Loss.* The Company has had net losses of \$3,883,657 and net losses of \$2,826,495 for the fiscal years ended December 31, 2023 and December 31, 2022, respectively.
- *Liabilities.* The Company's liabilities totaled \$1,508,671 for the fiscal year ended December 31, 2023 and \$1,550,730 for the fiscal year ended December 31, 2022.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$304,113 in debt, \$10,060,000 in equity, and \$4,567,500 in SAFEs.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 18 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Divinely Nectar, INC. cash in hand is \$585,450.19, as of May 2024. Over the last three months, revenues have averaged \$370,644/month, cost of goods sold has averaged \$235,267/month and operational expenses have averaged

\$225,890/month, for an average burn rate of \$90,513 per month. Our intent is to be profitable in 10 months.

Since the date our financials cover, we invested in inventory and reduced the monthly burn rate by reducing the quantity of the sales team. Additionally, we hibernated several projects that were not performing, but held value for future endeavours. We optimised our partner relationships in both operations and sales/distribution.

Average revenues in the next 3-6 months are forecasted to reach \$500,000 per month while expenses (excluding cost of goods) are forecasted around \$300,000 per month.

The material changes we would see to expenses will come in the form of investing in our Sales and Marketing teams via headcount and the resulting execution of work they will deliver. With regards to revenue, the growth comes with the expanded retail distribution into national grocery chains alongside new innovation hitting the market.

Currently, we are not profitable but with the current round of raising, we expect to be profitable by Q2 2025.

Outside of Wefunder, we are raising from VCs, Angel investors, Family Offices as well as Friends and Family. We are also a revenue driving business which covers in excess of 70% of costs.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?

☐ Yes ☒ No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?

☐ Yes ☒ No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

INSTRUCTIONS TO QUESTION 30: Final order means a written directive or declaratory statement issued by a federal or state agency, described in Rule 503(a)(3) of Regulation Crowdfunding, under applicable statutory authority that provides for notice and an opportunity for hearing, which constitutes a final disposition or action by that federal or state agency.

No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the affiliation arose if the affiliated entity is not (i) in control of the issuer or (ii) under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

https://wefunder.com/nectarhardseltzer/annual_report

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
