Re: HNR Acquisition Corp
Amendment No. 5 to Preliminary Proxy Statement on Schedule 14A
Filed September 28, 2023
File No. 001-41278

Dear Diego Rojas:

We have reviewed your filing and have the following comment(s).

Please respond to this letter within ten business days by providing the requested information or advise us as soon as possible when you will respond. If you do not believe a comment applies to your facts and circumstances, please tell us why in your response.

After reviewing your response to this letter, we may have additional comments.

Amendment No. 5 to Preliminary Proxy Statement on Schedule 14A

What happens if a substantial number of public stockholders vote in favor of the Purchase Proposal and exercise their redemption rights?, page 20

1. We note your response to prior comment 24. Please expand your disclosure here to include a cross-reference to the risk factor titled "Unless the Company completes a Preferred Stock PIPE Investment, HNRA may not have sufficient funds to meet the minimum cash amount provided for in the MIPA for Closing."

Summary of the Proxy Statement

Impact of Purchase on HNRA's Public Float, page 33

2. We note your revised disclosure in response to prior comment 5 reflects the automatic conversion of OpCo Preferred Units into Class A common shares on the two year anniversary of closing under the 50% and Maximum Redemption scenarios. Please expand to reflect the automatic conversion of OpCo Preferred Units assuming no redemptions.

Summary of the Proxy Statement

Opinion of RSI & Associates, page 41

3. We note the revisions made in response to prior comment 7; however, the PV10 value presented for proved developed producing reserves on pages 41 and 126 appears inconsistent with the PV10 value presented in the Cobb reserve report as of December 31, 2022 (dated June 30, 2023). Please correct the PV10 value or explain why a revision is not needed.

Unaudited Pro Forma Combined Financial Information

Note 4 - Adjustments to Unaudited Pro Forma Combined Financial Information, page 95

4. We note your response to prior comment 10 where you explain that under each scenario it is presumed that the holders of the OpCo Class B units have exercised the Exchange Right and OpCo has elected to issue Class A common shares to the holders of the OpCo Class B units; therefore, you have not presented any noncontrolling interest for the OpCo Class B units issued to the sellers of POGO. Please detail for us your rationale for assuming the holders of the OpCo Class B units will exercise the Exchange Right as of the date of the business combination as your pro forma financial statements depict.
5. We note in response to prior comment 11 you have reclassified the remaining deferred underwriter commission as a current liability. Please reference the \$1,300,000 adjustment amount on the pro forma balance sheet to an explanatory note.
6. Please revise Note (B) to indicate you are reflecting the reclassification of \$48.5 million of cash and investments held in the Trust Account rather than \$48.3 million. In addition, revise Note (C) to indicate you are reflecting net cash proceeds of \$27,380,000 from the Debt Commitment Letter rather than \$26,880,000.
7. Please revise Notes (N) and (Q) to reflect the correct amounts which correspond to the adjustment amounts on the pro forma balance sheet. That is, the pro forma adjustment amounts assuming 50% redemption and maximum redemption are \$13,247,213 and \$1,752,787, respectively.
