RISK FACTORS

Risks Related to the Company's Business and Industry

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic." COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company's business could be materially and adversely affected. The extent to which COVID-19 impacts the Company's business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company's operations may be materially adversely affected.

We are an early stage company, with limited operating history.

We are an early stage company. We were formed as a corporation in Louisiana on June 1, 2016. We have a limited operating history with which you can evaluate our business and prospects. Our prospects must be considered in light of the risks encountered by companies in the early stages of development in highly competitive markets, particularly the markets for food services and food service solutions. You should consider the frequency with which early-stage businesses encounter unforeseen expenses, difficulties, complications, delays and other adverse factors. These risks are described in more detail below.

We may not be able to manage future growth effectively.

If our business plan is successful, we may experience significant growth in a short period of time and potential scaling issues. Should we grow rapidly, our financial, management and operating resources may not expand sufficiently to adequately manage our growth. If we are unable to manage our growth, our costs may increase disproportionately, our future revenues may stop growing or decline and we may face dissatisfied customers. Our failure to manage our growth may adversely impact our business and the value of your investment.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

We operate in a highly competitive and rapidly changing global marketplace.

We operate in a highly competitive and rapidly changing global marketplace. We compete with a variety of organizations that offer services similar to those we offer. Our primary competitors include Discovery Life Sciences, Trans-Hit Biomarkers, Cureline, Proteogenex, Fidelis Research. The principal competitive factors in our field include: number and capacities of clinical sites, the global scale; client support approach; ability to customize operating procedures according to the client protocols; free replacement policy guarantees in case of rejections; skills and technical expertise of people; reputation and client references; contractual terms, including competitive pricing and terms of payments; ability to deliver results reliably and on a timely basis; quality of services and solutions and availability of appropriate resources. If one or more of our competitors grow more rapidly or effectively than we are able to, that would adversely affect our competitive position.

Through our operations, we collect and store certain personal information that our customers provide to purchase products or services, enroll in promotional programs, register on our web site, or otherwise communicate and interact with us.

We may share information about such persons with vendors that assist with certain aspects of our business. Security could be compromised and confidential customer or business information misappropriated. Loss of customer or business information could disrupt our operations, damage our reputation, and expose us to claims from customers, financial institutions, payment card associations and other persons, any of which could have an adverse effect on our business,

financial condition and results of operations. In addition, compliance with tougher privacy and information security laws and standards may result in significant expense due to increased investment in technology and the development of new operational processes.

We operate globally in more than 10 countries but our customers are primarily located in the USA, European Union and Japan.

In 2020, approximately 13% of our revenue was attributable to activities outside the U.S. Our operations are subject to the effects of global competition and geopolitical risks. They are also affected by local economic environments, including inflation, recession, currency volatility and actual or anticipated default on sovereign debt. Political changes, some of which may be disruptive, can interfere with our supply chain, our customers and all of our activities in a particular location. While some of these global economic and political risks can be hedged using derivatives or other financial instruments and some are insurable, such attempts to mitigate these risks are costly and not always successful, and our ability to engage in such mitigation may decrease or become even more costly as a result of more volatile market conditions.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Maurice Cabirac (President), Idola Marie Cabirac (Financial Director), Alla Semikova (Director), and Rostyslav Semikov (CEO). The Company has employment agreements with Maurice Cabirac, Idola Marie Cabirac, and Rostyslav Semikov. The loss of Maurice Cabirac, Idola Marie Cabirac, Alla Semikova, and Rostyslav Semikov or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does have key man life insurance policies on any such people.

The Company is dependent on Maurice Cabirac, Idola Marie Cabirac, Alla Semikova, and Rostyslav Semikov in order to conduct its operations and execute its business plan. However, the Company has purchased the insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Maurice Cabirac, Idola Marie Cabirac, Alla Semikova, and Rostyslav Semikov die or become disabled, the Company will receive the compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and Bulgaria.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

The Company has indicated that it has engaged in certain transactions with related persons.

Please see the section of this Memorandum entitled "Transactions with Related Persons and Conflicts of Interest" for further details.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company's operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company's business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company's business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company's supply chain processes, restrictions on the export or shipment of products necessary to run the Company's business, business closures in impacted areas, and restrictions on the Company's employees' or consultants' ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

If the Company's employees or employees of any of the Company's vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work they can be replaced and the Company's operations are not subject to disruption.

Privacy laws and regulations could restrict our ability or the ability of our customers to obtain, use or disseminate patient information, or could require us to incur significant additional costs to re-design our products.

State, federal and foreign laws, such as the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA), regulate the confidentiality of sensitive personal information and the circumstances under which such information may be released. These and future laws could have an adverse impact on our results of operations. Other health information standards, such as regulations under HIPAA, establish standards regarding electronic health data transmissions and transaction code set rules for specified electronic transactions, for example transactions involving claims submissions to third party payors. These also continue to evolve and are often unclear and difficult to apply. In addition, under the federal Health Information Technology for Economic and Clinical Health Act (HITECH Act), which was passed in 2009, many businesses that were previously only indirectly subject to federal HIPAA privacy and security rules became directly subject to such rules because the businesses serve as "business associates" to our customers. On January 17, 2013, the Office for Civil Rights of the Department of Health and Human Services

released a final rule implementing the HITECH Act and making certain other changes to HIPAA privacy and security requirements. Compliance has increased the requirements applicable to some of our businesses. Failure to maintain the confidentiality of sensitive personal information in accordance with the applicable regulatory requirements, or to abide by electronic health data transmission standards, could expose us to breach of contract claims, fines and penalties, costs for remediation and harm to our reputation.

If we are found to have violated laws protecting the privacy or security of patient health information, we could be subject to civil or criminal penalties, which could increase our liabilities and harm our reputation or our business.

There are a number of U.S. federal and state laws and foreign laws protecting the privacy and security of individually identifiable health information, or "protected health information" including patient records, and restricting the use and disclosure of that protected health information that we are subject to. In the United States, the U.S. Department of Health and Human Services promulgated health information privacy and security rules under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and then significantly strengthened and broadened the applicability of HIPAA under the Health Information Technology for Economic and Clinical Health Act (HITECH, together HIPAA). HIPAA applies to health care providers engaging in certain standard transactions electronically; health plans and health care clearing houses. These entities are referred to as "covered entities." Certain HIPAA provisions also apply to "business associates" of covered entities, or third party providers of services to covered entities that involve the use or disclosure of protected health information. HIPAA's privacy rules protect medical records and protected health information in all forms by limiting its use and disclosure, giving individuals the right to access, amend and seek accounting of their own health information and limiting, in some circumstances, the use and disclosure of protected health information to the minimum amount reasonably necessary to accomplish the intended purpose of the use or disclosure. HIPAA's security standards require both covered entities and business associates to implement administrative, physical and technical security measures to maintain the security of protected health information in electronic form. Covered entities and business associates must conduct initial and ongoing risk assessments to ensure the ongoing effectiveness of security measures and maintain a written information security plan. We are a business associate and as such, we must comply with HIPAA and ensure that all aspects of our operations comply with relevant HIPAA standards. We are subject to random audit by federal authorities, and enforcement by both state and federal regulators. We are also subject to investigation in response to complaints. If we are found to be in violation of the HIPAA requirements, we could be subject to civil or criminal penalties as well as fines, which could increase our liabilities and harm our reputation or our business.

Beyond HIPAA, most states have adopted data security laws protecting the personal data of state residents. Personal data subject to protection typically includes name coupled with social security number, state-issued identification number, or financial account number. Most states require specific, technical security measures for the protection of all personal data, including employee data, and impose their own breach notification requirements in the event of a loss of personal data. State data security laws generally overlap and apply simultaneously with HIPAA. Non-U.S. privacy protection requirements such as the European Union's Data Protection Directive governing the processing of personal data, may be stricter than the U.S. law and violation would impose similar or more severe penalties. These laws could create liability for us or increase our cost of doing business, and any failure to comply could result in harm to our reputation, and potentially fines and penalties.

Risks Related to the Securities

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C/A and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

Upon conversion of the Crowd Notes, Purchasers who are not “Major Investors” will grant a proxy to vote their underlying securities to the intermediary or its affiliate, and, thus, will not have the right to vote on any matters coming before the shareholders of the Company for a vote. By granting this proxy you are giving up your right to vote on important matters, including significant corporate actions like mergers, amendments to our certificate of incorporation, a liquidation of our company and the election of our directors.

Upon conversion of the Crowd Notes and by virtue of a provision contained in the Crowd Notes, if you are not a Major Investor, that is, an investor who has purchased at least \$25,000 in principal amount of the Crowd Notes, you will grant a proxy to the intermediary or its affiliate to vote the underlying securities that you will acquire upon conversion on all matters coming before the shareholders for a vote. The intermediary does not have any fiduciary duty to you to vote in a manner that is in your best interests. Accordingly, the intermediary may vote its proxy in a manner that may not be in the best interests of you as a security holder. For example, the intermediary may vote the proxy in favor of an amendment to our charter that adversely affects the rights of the holders of your class of securities in order to allow for a new investment to occur where the new investor requires senior rights.

The Crowd Note will not be freely tradable until one year from the initial purchase date. Although the Crowd Note may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Crowd Note. Because the Crowd Note have not been registered under the Securities Act of 1933, as amended (the “Securities Act”) or under the securities laws of any state or non-United States jurisdiction, the Crowd Note have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Crowd Note may also adversely affect the price that you might be able to obtain for the Crowd Note in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

You will not have a vote or influence on the management of the Company.

All decisions with respect to the management of the Company will be made exclusively by the officers, directors, managers or employees of the Company. You, as a Purchaser of Crowd Notes, will have no ability to vote on issues of Company management and will not have the right or power to take part in the management of the company and will not be represented on the board of directors or managers of the Company. Accordingly, no person should purchase a Security unless he or she is willing to entrust all aspects of management to the Company.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

The Company has the right to end the Offering early.

The Company may also end the Offering early; if the Offering reaches its target Offering amount after 30-calendar days but before the deadline, the Company can end the Offering with five business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

There is no present market for the Securities, and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Purchasers will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which the Purchasers will be able to demand repayment of their investment. With respect to Purchasers who invest less than \$25,000 in the Securities, the Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and such Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Such Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or, with respect to those Purchasers who invest less than \$25,000, elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Affiliates of the Company, including officers, directors and existing shareholders of the Company, may invest in this Offering and their funds will be counted toward the Company achieving the Minimum Amount.

There is no restriction on affiliates of the Company, including its officers, directors and existing shareholders, investing in the Offering. As a result, it is possible that if the Company has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and the Company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them may be invested in this Offering.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, and more than thirty (30) days remain before the Offering Deadline, an intermediate close of the Offering can occur, which will allow the Company to draw down on the first \$75,000 of the proceeds of the offering committed and captured during the relevant period, as well as every \$125,000 raised after. The Company may choose to continue the Offering thereafter. Purchasers should be mindful that this means they can make multiple investment commitments in the offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Purchasers previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether it will successfully effectuate its current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other things, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 250,000 Crowd Notes for up to \$250,000.00. The Company is attempting to raise a minimum amount of \$50,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount totaling the Minimum Amount by August 9, 2021 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$250,000.00 (the "Maximum Amount") and the additional Securities will be allocated on at the Company's discretion.

The price of the Securities does not necessarily bear any relationship to the Company's asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Evolve Bank & Trust until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions.

In the event that \$75,000 in investments is committed and received by the escrow agent and more than thirty (30) days remain before the Offering Deadline, the Company may conduct the first of multiple closings of the Offering (an "Intermediate Close"), provided all investors receive notice that an Intermediate Close will occur and funds will be released to the Company, at least five (5) business days prior to the Intermediate Close (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Investors who

committed on or before such notice will have until 48 hours before the Intermediate Close to cancel their investment commitment.

In the event the Company does conduct the first of multiple closes, the Company agrees to only withdraw \$75,000 from escrow and will only conduct the Intermediate Close if more than thirty (30) days remain before the Offering Deadline. The Company may only conduct another Intermediate Close before the Offering Deadline if: (i) the amount of investment commitments made and received in escrow exceeds \$125,000 since the time of the last Intermediate Close; and (ii) more than thirty (30) days remain before the Offering Deadline.

If a Purchaser does not cancel an investment commitment before an Intermediate Close or before the Offering Deadline, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing, and the Purchaser will receive Securities in exchange for his or her investment as soon as practicable thereafter.

The Company has agreed to return all funds to investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of any subsequent closes.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$100.00.

The Offering is being made through MicroVenture Marketplace, Inc., the Intermediary. The following two fields below sets forth the compensation being paid in connection with the Offering.

Commission/Fees

At the conclusion of the Offering, the Issuer shall pay to the Intermediary a fee consisting of five percent (5%) commission based on the amount of investments raised in the Offering and paid upon distribution of funds from escrow at the time of closing.

Stock, Warrants and Other Compensation

The Intermediary will receive a number of Crowd Notes of the Issuer equal to two percent (2%) of the total number of Securities sold by the Issuer in the Offering.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

The Securities

We request that you please review our organizational documents in conjunction with the following summary information.

Authorized Capitalization

See “CAPITALIZATION AND OWNERSHIP” above.

General

A Crowd Note is similar to a SAFE (Simple Agreement for Future Equity) security where an investor makes a cash investment in our company, but gets company stock at a later date in connection with a specific event. Although the security is called a Crowd Note, the Crowd Note is not a debt instrument. It is intended to be an alternative to a convertible note that is beneficial for both our company and you as an investor.

Valuation Cap

For the first \$100,000.00 of Securities sold in the Offering, the Valuation Cap is equal to \$7,500,000.00 (\$7.5 million). For Securities sold in the offering between \$100,000.00 and \$250,000.00, the Valuation Cap is equal to \$8,000,000.00 (\$8 million).

Events Triggering Conversion of Crowd Notes

If you are a Major Investor, which is defined as an investor who invests at least \$25,000 in this offering, then the specified event upon which the Crowd Note would convert into capital stock of our company is (i) a Qualified Equity Financing, which we define below, or (ii) a Corporate Transaction, which we define below, if instead of receiving two times (2X) the outstanding principal of your Crowd Note, your Crowd Note is converted immediately prior to the closing of the Corporate Transaction..

If you are not a Major Investor, then the Crowd Note will only convert into capital stock of our company upon the earlier of (i) our company’s election to convert your Crowd Note, including upon a Qualified Equity Financing if our company elects to convert your Crowd Note then, or (ii) a Corporate Transaction, if instead of receiving two times (2X) the outstanding principal of your Crowd Note, your Crowd Note is converted immediately prior to the closing of the Corporate Transaction.

Qualified Equity Financing

The Crowd Note defines “Qualified Equity Financing” as the first sale (or series of related sales) by us of our preferred stock following the closing of this offering from which we receive gross proceeds of not less than \$1,000,000.00 (excluding the aggregate amount of securities converted into preferred stock in connection with such sale or series of related sales).

If the Crowd Note converts into equity in connection with a Qualified Equity Financing, then we will convert the Crowd Note into shares of our preferred stock that are issued in connection with the Qualified Equity Financing, which we refer to as Conversion Shares, equal to the quotient obtained by dividing the outstanding principal amount of the Crowd Note by the Conversion Price, which is defined below. The issuance of Conversion Shares will be on the same terms and conditions applicable to the stock sold in the Qualified Equity Financing; provided, however, that if you are not a Major Investor, you will receive shares of a shadow series, as we describe below, with certain limited rights. The Conversion Price applicable to a Qualified Equity Financing is the lower of:

(i) the product of (a) one minus any applicable Discount, and (b) the price paid per share for preferred stock by the investors in the Qualified Equity Financing, or

(ii) the quotient resulting from dividing (a) the Valuation Cap by (b) the total number of our shares of capital stock that are outstanding on a fully diluted basis (assuming for this purpose the exercise, exchange or conversion of all securities exercisable or exchangeable for, or convertible into, our capital stock), immediately prior to the closing of the Qualified Equity Financing.

Any investor who is not a Major Investor will receive a shadow series of preferred stock upon conversion of such investor's Crowd Note. A shadow series is a series of our preferred stock that is identical in all respects to the shares of preferred stock issued in the Qualified Equity Financing (e.g., if the Company sells Series A Preferred Stock in the Qualified Equity Financing, the shadow series would be Series A-1 Preferred Stock), except that the liquidation preference per share of the shadow series shall equal the Conversion Price and the following additional differences will apply:

(i) shadow series shareholders will grant their vote on any matter that is submitted to a vote or for the consent of the stockholders of our company (except for on matters required by law) by irrevocable proxy; and

(ii) shadow series shareholders will receive quarterly business updates from the company through the Platform but will have no additional information or inspection rights (except with respect to such rights which are required by law).

Corporate Transaction and Corporate Transaction Payment

The Crowd Note defines "Corporate Transaction" as

(i) the closing of the sale, transfer or other disposition of all or substantially all of our assets,

(ii) the consummation of the merger or consolidation of our company with or into another entity (except a merger or consolidation in which the holders of capital stock of our company immediately prior to such merger or consolidation continue to hold at least 50% of the voting power of the capital stock of our company or the surviving or acquiring entity),

(iii) the closing of the transfer (whether by merger, consolidation or otherwise), in one transaction or a series of related transactions, to a person or group of affiliated persons (other than an underwriter of our securities), of securities of our company if, after such closing, such person or group of affiliated persons would hold 50% or more of the outstanding voting stock of our company (or the surviving or acquiring entity), or

(iv) the initial public offering, liquidation, dissolution or winding up of our company; provided, however, that a transaction shall not constitute a Corporate Transaction if its sole purpose is to change the state of our incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held our securities immediately prior to such transaction.

In the event of a Corporate Transaction (defined above), you will receive the higher value of (i) an amount equal to two times (2X) the price you paid for your Crowd Note (i.e., 2x your principal amount) or (ii) the number of shares of preferred stock of the Company calculated by (a) multiplying the

price you paid for your Crowd Note by the total number of our shares of capital stock that are outstanding on a fully diluted basis (assuming for this purpose the exercise, exchange or conversion of all securities exercisable or exchangeable for, or convertible into, our capital stock), immediately prior to the closing of the Qualified Equity Financing, and (b) dividing the product of that calculation by the Valuation Cap.

If there are not enough funds to pay you and other Crowd Note investors in full, then proceeds from the respective transaction will be distributed with equal priority and pro rata among the Crowd Note investors in proportion to their Purchase Price.

Termination of Crowd Note

The Crowd Notes will terminate upon the earlier of: (a) a conversion of the entire Purchase Price under the Crowd Notes into Conversion Shares; or (b) the payment of amounts due to the investor pursuant to a Corporate Transaction.

No Voting Rights, No Shareholders Agreement and No Anti-Dilution Rights

The Crowd Notes do not have any voting rights. Further, upon conversion of the Crowd Notes into Conversion Shares, shadow series shareholders shall grant their vote on any matter that is submitted to a vote or for the consent of the members of the Company (except for on matters required by law) by irrevocable proxy.

The Company does not have any shareholder/equity holder agreements in place.

The Securities do not have anti-dilution rights.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Purchaser of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities were transferred: i) to the Company, ii) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act, iii) as part of an IPO or iv) to a member of the family of the Purchaser or the equivalent, to a trust controlled by the Purchaser, to a trust created for the benefit of a family member of the Purchaser or the equivalent, or in connection with the death or divorce of the Purchaser or other similar circumstances. “Member of the family” as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother / father / daughter / son / sister / brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Purchaser must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

Financial Statements

**AUDUBON BIOSCIENCE CO.
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020**

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Nature of Operations

Audubon Bioscience Co was incorporated in Louisiana on June 1, 2016. The Company provides biosamples, their clinical data, lab tests, and other related services to scientists who work on research and development of new diagnostics and treatments in the field of precision medicine, primarily cancer research. The Company has not raised any outside investment capital to date.

Risks and Uncertainties

The Company is subject to customary risks and uncertainties associated with development and expansion of its business including, but not limited to, the need for protection of proprietary technology, dependence on key personnel, costs of services provided by third parties, product development of its eCommerce platform, expansion into new geographies, and limited operating history.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Revenue Recognition

The Company recognizes revenue when services are rendered and performance obligations under the terms of contracts with customers are satisfied. Cost for customers are calculated on the type and number of samples provided and vary on cancer and other disease sub-types, depending on how rare they are and difficult to find. For the year ending December 31, 2020, the Company recognized ~\$4.19 million in revenue.

Marketing

The Company expenses advertising and marketing costs as they are incurred.

Accounts Payable

The Company receives professional services from attorneys, accountants, and other parties that help the business operate. The Company makes payments on these outstanding balances monthly and the balance carries a 0% interest rate.

Income Taxes

The Company is taxed as a Louisiana C corporation. The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

Stockholders' Equity

As of December 31, 2020, the Company authorized 10,000,000 shares of common stock, at a par value of \$0.0001. As of December 31, 2020, the Company has 8,085,000 shares of common stock issued and outstanding.

Subsequent Events

Anticipated Crowdfunded Offering

The Company anticipates offering (the "Crowdfunded Offering") Crowd Notes for up to \$250,000 in a securities offering to be considered exempt from registration under Regulation CF. The Crowdfunded Offering is anticipated to be made via MicroVentures, a FINRA-approved Regulation CF funding portal (the "Intermediary"). The Intermediary will be entitled to receive customary cash and securities consideration for services rendered in the Crowdfunded Offering.

COVID-19

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic." COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company's business could be materially and adversely affected. The extent to which COVID-19 impacts the Company's business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company's operations may be materially adversely affected.

Management's Evaluation

Management has evaluated subsequent events through December 31, 2020, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.

That means, in connection with equity financing of at least \$1 million, the company has the option to convert the Crowd Note into non-voting preferred shares (Conversion Shares) at a price based on the lower of (A) a 20% discount to the price per share paid for preferred shares by investors in the Qualified Equity Financing or (B) the price per share based on a \$7.5 million valuation cap (instead of \$8 million).

Opportunity

The global biobanking industry was estimated to be a \$65 billion industry in 2020 and is expected to grow steadily over the next several years.ⁱ Biobanks are effectively a type of biorepository that collects and stores biological samples for research and clinical settings. These organizations are crucial for research purposes. They can provide the human biological sample and associate data infrastructure for individuals and groups seeking out biospecimen types for their clinical research. Traditionally, biobanks are in clinical and academic settings; however, studies have pointed to the increasing need for biobanks to operationalize across different locations to better serve customers in a consistent, sustainable fashion.ⁱⁱ

Texas and Louisiana-based Audubon Bioscience provides biospecimen solutions across its global network of clinics. The company offers each customer a customized set of services given their specified protocols to help them accelerate their research and development initiatives. In aggregate, The company has over 100 clinical sites in 12 countries globally and has worked with customers in pharma, biotech, and other healthcare agencies.

Product

Audubon Bioscience offers biospecimen solutions to a wide variety of customers looking to accelerate their research and development processes. Biobanks are critical infrastructure for research and clinical care, with commercial biobanks serving four main functions:

- Collect biospecimens and associated data
- Process the biospecimens and associated data
- Store the biospecimens and associated data
- Distribute the biospecimens and associated data

For example, in cancer research and development, the company would play an important role in helping organizations research and develop potential diagnostics.

Use of Proceeds

Intermediary Fees	Equipment Purchases	Future Wages	General Working Capital
The company has earmarked a portion of funds from this raise towards intermediary fees from the campaign.	Audubon Bioscience intends to put a portion of this raise towards equipment purchases to help it expand its biospecimen procurement capabilities. INDUSTRY AND MARKET ANALYSIS

Biotechnology (Biotech)

According to Global Markets Insights, the biotechnology (biotech) industry surpassed \$417 billion in 2018 and is anticipated to achieve an 8.3% compound annual growth rate (CAGR) over the forecast period 2019 to 2025, reaching \$729 billion by 2025.ⁱⁱⁱ Growth drivers for the industry include an increasing number of chronic diseases, the presence of favorable government initiatives in developed countries, innovative technologies, and rising demand for agriculture-based products.^{iv}

Biobanking

Grandview Research estimated that the global biobanking market totaled \$65 billion in 2020 and is projected to grow at an 6.2% CAGR from 2021 to 2028. A biobank is a repository that collects, stores, and distributes human samples. The field of biobanking has benefited from the integration of technology, data analytics, and automation. This adoption is expected to help the market grow as well as the proliferation of disease-oriented biobanks, population-based biobanks, tissue banks, and blood banks. Finally, investments in the industry for drug development and the increasing prevalence of diseases like cancer are expected to increase biobanks' prevalence.^v

Notably, the virtual biobanking market segment is projected to grow particularly rapidly. Virtual biobanking lowers time constraints and allows researchers to perform research more efficiently. Virtual biobanking has also

MICROVENTURES

helped commercial biobanks generate higher revenue. Due to these inherent advantages, numerous software companies are in product development to increase the adoption of a virtual bio banking system.^{vi}

Cancer Immunotherapy

According to a recent research report by Reports and Data, the global cancer immunotherapy market is forecasted to grow from ~\$78 billion in 2019 to ~153 billion in 2027, representing a CAGR of 13.9%. Primary market drivers include the increasing prevalence of cancer globally and growing adoption and acceptance of new, advanced treatment options outside of conventional chemotherapy and radiation treatment options.^{vii} In the U.S. alone, The American Cancer Society estimated that over 1.8 million Americans would be diagnosed with cancer in 2020, equating to roughly 4,950 new cases every day.^{viii} Along with lifestyle habits and genetic predisposition, cancer diagnoses are expected to increase due to an aging population, as 80% of all cancers in the U.S. are diagnosed in people 55 years or older. The U.S. Census Bureau projects that the U.S. population age 65 years or older will nearly double from 2016 to 2060. Due to aging baby boomers, nearly one in four Americans will be 65 years or older by 2060, up from 2016's 15% figure.^{ix}

The cancer immunotherapy market is segmented across a wide range of technology, including cell therapies, adoptive cell transfer, immune system modulators, monoclonal antibodies, vaccines, and other technologies. The global cancer immunotherapy market is expected to grow at a CAGR of 10.6% from 2019 to 2026, reaching \$115 billion by 2026. The monoclonal technology segment creates laboratory-produced antibodies that mimic the immune system response to a foreign pathogen. This segment represents about 27% of the total market. The lung cancer segment accounted for approximately 34% of the market among application type.^x

Venture Financings

Highlights from venture capital financings in biotechnology companies from 2010 to 2020 are as follows:^{xi}

- Capital invested reached a 10-year high in 2020 with \$42.87 billion invested during the year, a 75% increase from 2019.
- Median pre-money valuation of \$24 million in 2020 marked a 10-year high and a 59% increase over 2019.

12. Waiver of Jury Trial. THE UNDERSIGNED IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY WITH RESPECT TO ANY LEGAL PROCEEDING ARISING OUT OF THE TRANSACTIONS CONTEMPLATED BY THIS SUBSCRIPTION AGREEMENT.

13. Dispute Resolution.

a) General Rule. Any dispute under this Subscription Agreement will be resolved through arbitration, not through the court system. All arbitration will be conducted in the state where the executive office of the Company is located at such time, unless both parties agree otherwise in writing in a specific case. All arbitration will be conducted before a single arbitrator in following the rules of the American Arbitration Association. Except as required by law, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

b) Appeal of Award. Within thirty days of a final award by the single arbitrator, either party may appeal the award for reconsideration by a three-arbitrator panel. d) No Class Action Claims. NO ARBITRATION SHALL PROCEED ON A CLASS, REPRESENTATIVE, OR COLLECTIVE BASIS. No party may join, consolidate, or otherwise bring claims for or on behalf of two or more individuals or unrelated corporate entities in the same arbitration unless those persons are parties to a single transaction. An award in arbitration shall determine the rights and obligations of the named parties only, and only with respect to the claims in arbitration, and shall not (i) determine the rights, obligations, or interests of anyone other than a named party, or resolve any claim of anyone other than a named party, or (ii) make an award for the benefit of, or against, anyone other than a named party. No administrator or arbitrator shall have the power or authority to waive, modify, or fail to enforce this paragraph, and any attempt to do so, whether by rule, policy, and arbitration decision or otherwise, shall be invalid and unenforceable. Any challenge to the validity of this paragraph shall be determined exclusively by a court and not by the administrator or any arbitrator. If this paragraph shall be deemed unenforceable, then any proceeding in the nature of a class action shall be handled in court, not in arbitration.

14. Governing Law. This Subscription Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to conflict of law principles thereof.

After heart disease¹, cancer is the 2nd leading cause of deaths in the US.²³

Audubon Bioscience is a private biobank that works in the field of cancer research. We help our partners fight cancer more effectively. We do it by providing biospecimen solutions to cancer research scientists enabling them to perform such research.

We started in 2016 in New Orleans. This year we moved our headquarters to Houston, TX where the largest cancer clinics and research centers are. Directly and through a group of affiliated companies we partner with over a hundred clinical sites. We operate in 10 countries around the world. Our team is international and consists of about 70 people, 15 of them are medical doctors.

The biobanking industry is a \$38 billion industry. We're expecting it to be in the neighborhood of \$58 billion.

We finished our first six months of operations [at] \$117,000. In 2019, we finished the year at \$1.8 million and we expect to double that for 2020 and triple it by the year 2023.

[Text Overlay: Audubon Annual Revenue: 2018 \$0.17 million (Q3, Q4), 2019 \$1.8 million, 2020 \$3.8 million.]

Here at Audubon, we select and contract with cancer clinics in various countries. In each clinic we collaborate with a group of experienced staff. The patients who meet research-specific requirements are consented via ethical informed consent and then the tissue or blood samples are procured, and the data is analyzed. Some samples like blood and urine can be processed locally and then shipped off while tissues are transferred immediately to partners' labs such as the CSD Lab in the Ukraine.

What's often difficult for clients outside of academic institutions to obtain biospecimens, we at Audubon want to change that globally and have a partnership that fosters more collaborations between all.

Biospecimen needs are growing fast and it's more feasible to fulfill requests in a processional or boutique style approach. Instead of having the bank samples sitting in the freezer for years and years we can just send out samples directly to researchers and ship them overnight.

[Rosty]

We want to become our world's best private Biobank and Biospecimen Contract Research Organization in the field of cancer research. We want to double the number of people, sites and revenue in 2 years and triple [it] in 3 years.

[Rosty]

As we expand, we need additional funding to support such a growth. For that we need to hire more local staff, contract more clinical sites and purchase more equipment. We would appreciate you becoming our partner to help make it happen.
