"A Day in the Life" Video:

00:02

With over 1.3 million apps worldwide wouldn't it be great if there was one app that adapts

00:10

to your needs introducing min faux whether it's ordering your kids school lunch at the

00:17

breakfast-table Teriyaki chicken or donating to your favorite charity Minfo is an app that

00:27

interfaces with any message be it marketing campaigns community messages and in-store

00:33

promotions allowing consumers to engage with whatever interests them. The secret is encoding

00:40

the sound that is being transmitted via the Minfo platform and when an ad plays on TV radio or

00:46

online. "Hey Siri, Open Minfo"

00:55

There are also meant for zones that will send you information within a certain space such as a cafe

01:00

use Minfo to view menus and order your meal

01:05

you can also receive minfads from friends

01:08

sharing specials and offers via email or social media, all within minfo

01:14

getting the most out of the brand's you love has never been easier

01:18

the app also has a QR code scanner for

01:21

print campaigns or anywhere you see a QR code

01:24

Minfo changes the way you interact with brands businesses charities and the community

01:31

"Nadine, Hi! Thanks for the minfad

01:34

I got a couple of pairs."

01:38

So why not download it today and get minfing.
