IDEATION

RANGE OF MOTION

Provide range of motion while preventing neck from reaching extreme points

DECELERATION

Slow down head after impact where brain injuries occur

INNOVATION

Fill the gaps other gear can't provide for athletes on the field

KATO COLLAR

PATENTED DESIGN

2 Stage deceleration acts as an airbag for the brain

DISCREET

Sits under shoulder pads and enables active, full range of motion

CUSTOMIZABLE

Interchangeable pads for fit, comfort, protection and style

LIGHTWEIGHT

Lightweight design: The player won't even know it's there

EFFECTIVE

Testing shows up to 30% decrease in deceleration of head

SCIENCE

DR. CHARLES LEDONIO CLINICAL TRIALS DIRECTOR INNOVATIVE SURGICAL DESIGNS

By decelerating the brain movement within the skull after impact, Kato Collar addresses the key issue of head and neck injury forces thus promoting player safety.

INFLUENCE

ANDREW TROXEL HEAD FOOTBALL COACH

Athletes stated that the Kato Collar helped to slow the movement of the head backwards when they were blocking and tackling. Personally, I saw one of our athletes take a forceful tackle out of bounds and had he not been wearing a Kato Collar the force of the impact with the ground would have likely inhibited his ability to return to play. We fully intend to outfit our athletes with Kato Collars for the foreseeable future.

MARCUS GOODEN FIELD TESTER

My junior year I got a pretty bad stinger affecting my left shoulder and arm. Going into my senior year those stingers continued. I had one or two a game. I talked to Jeff, and he suggested I wear the collar. Deep into the season, I took his advice. As I wore the collar, I couldn't believe it but, the stingers wore off. And I actually didn't have any moving forward."

ANDY LAGUNO ASSOCIATE ATHLETIC DIRECTOR

There has been a dramatic difference in reducing the number of Brachial Plexus injuries with our football players, and players like the comfort with the ability to have full range of motion and the ability to extend their head and neck upwards in their stance. I would strongly recommend this product for all levels of football.
