Turning buildings into Teslas—Greener, healthier, + more valuable buildings to fight climate change. Family guy. BOD @ New York Federal Reserve Bank Advisory Board / NYC Tech / Sunrise Movement / Sierra Club

New York, New York, United States

## Summary

BlocPower makes buildings healthier, smarter, greener and more valuable. I am a Climate Tech Founder focused on building community wealth in underserved communities + averting climate disaster. Lessons learned from: software, sustainability, policy, financial innovation in the financially underserved real estate climate tech sector. Focused on: Climate Tech, fintech, Startups, Business Development, Marketing Strategy, Finance, Community Organizing, and Venture Capital. Columbia Business School MBA, Second District Board member at New York Federal Reserve Bank, Echoing Green Fellow

---

## Experience

### BlocPower

#### Founder

July 2013 - Present (9 years 9 months)

Greater New York City Area

BlocPower is a smart buildings platform that markets, engineers, and finances renewable energy and energy efficiency technologies to buildings in underserved market segments. BlocPower partners with governments, utilities, building owners, and community members to generate energy bill savings and reduced carbon emissions, and generates financial returns and improved public health. At scale, our technology can lead to a 2-7% reduction in US GHG emissions in the next two to three years.

### Jalia Ventures
