(D) The Company's Business and Business Plan

The Market Opportunity

The wine market has evolved dramatically over the past five to ten years. The changing dynamics of the market are driven by a number of factors that have resulted in the disappearance of

traditional wine brand development and sales. These factors include:

- Wine retailers' need for higher profit margins
- The entry, and rapidly growing influence of Millennial generation wine consumers

Marketing Strategy

The US wine consumer is primed for experimentation. They have become more comfortable with, and knowledgeable about, wine. While COVID has been a problem for On Site (restaurant sales) wine consumption, at home consumption has skyrocketed and added to the opportunity for new brands in multiple chains.

- We offer retailers a consistent and high-quality selection of new experimental brands
- We mix direct-to-consumer eCommerce sales with in-store distribution of a rotating variety of options.

The Team

Jeff Hansen, Co-Founder and Chief Executive Officer

Hansen has a background in the wine industry that spans over 30 years including almost every aspect of the industry. His most important achievements have been in "Brand Building"; developing successful distribution channels in the U.S., Europe, and Asia for some of California's largest and most important wineries. One of Hansen's specialties is in the startup phase. He does this by taking a new concept, idea, and vision to its culmination of a company. Hansen's background includes five generations of production agriculture giving him a natural understanding of production and operations while also understanding how these areas serve Sales.

Matt Sinclair, Co-Founder and President

Sinclair has had over 30 years of entrepreneurial performance and success in growing organizations, including: Procter & Gamble, E&J Gallo Winery and 5.11 Tactical. He is a consummate team builder not only for literally building teams, but for maximizing the output and success of each team member. He drives people to reach new heights of success by earning their trust and respect. His collaborative approach is recognized internally, at every level in the Company, and externally with Company's most important stakeholders. Developing and executing channel strategies that create new ways to solve issues has yielded immeasurable results among staff, as well as those outside who work with the Company. In the end, Sinclair's undeniable sense of accountability might best be summed up by his philosophy that the "buck stops here"!

Christine DeMont, Chief Marketing Officer

A marketing strategy expert that led the successful Gallo launch into the German wine market and was instrumental in the creation of a number of wine brands. She also served in an integral marketing management role with the California Almond Board that resulted in increasing global demand for almonds from 250 million pounds to the current 2 Billion pounds. One of Christine's skills that distinguishes her from most in the wine industry is her ability to find and amplify points of differentiation which yields rapid revenue growth.

Ruggero Mastroserio, Director of Winemaking

Coming from Italy more than 20 years ago, Ruggero was under the tutelage and mentoring of one

of Italy's most renown winemakers. He brought his expertise to California where his European background, combined with his open approach to winemaking in California, continues to yield wines of quality, mystique, excitement and value; he is a master of his craft.

Unprecedented Times and The Right Timing

While COVID is unprecedented, and a difficult time to launch a company, we believe it is the perfect opportunity for our wine brand incubator. The launch of NEXT is best exemplified in Baron Rothschild's quote, "Buy when there's blood in the streets even if the blood is your own." We like to interpret this as, "The best time to build a company is in a down market." While there is panic all around us, we have diligently worked to find numerous opportunities through: strategic pricing; underserved demographics; levity in brands (when people need it most); and brands that give back and lift people up. While the times are most challenging—the needs of consumers are unique, dynamic, and reactionary—all of which fits our focus.

Traction & Validation

The first brand we launched, in the Fall of 2020 (during a COVID year), was Everyday Napa and Everyday Sonoma. The wines have enjoyed immediate success in a rapidly growing list of topic accounts around the U.S.. The exciting part is that the faster we can grow the brands, the faster they reach a point where a company may want to buy the brands!

- The Central Market division of H-E-B – the largest super market company in Texas – made a commitment to our flagship brand Everyday Napa "Big Red" for the year 2021 as one of their featured wine brands.

Forecasted Milestones

Our strategic development plan is quite simple and straightforward:

- NEXT is a Brand Incubation Company - We Create, Incubate, Build and Sell
- Building volume and revenue through fast growing brands
- Constantly researching and working on new brand development
- Build a scalable distribution network that understands brand incubation and development
- Create a dedicated and focused international strategy with specific portfolio of wines/brands
- Build a reputation for creativity in branding

Business Model

We analyze consumer data, uncover market opportunities, and capitalize on cultural moments to create quality wine brands. Our focus on market niches creates potential for significant growth, allowing us to lead with quality while remaining focused on delivering the best value possible at every price level.

If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.1 - 0.2% ²
Payment Deadline	2028-01-01
Maximum Payment Multiple	1.7 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	0.62%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.1% and a maximum rate of 0.2% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$30,000	0.1%
\$37,500	0.1%
\$45,000	0.2%
\$52,500	0.2%
\$60,000	0.2%

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company’s offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Number of Shares Outstanding	8,450,000
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	Yes
How these securities differ from the revenue sharing notes being offered to investors	These are Founders shares

Name of Security	Common "B"

Name of Security	Preferred "A"
Number of Shares Outstanding	0
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	Yes
How these securities differ from the revenue sharing notes being offered to investors	Shares reserved for equity investors

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Jeffery Hansen	70%
Mathew Sinclair	25%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its

business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

Creditor	Amount	Interest Rate	Maturity Date	Other Important Terms
Matt Sinclair	\$30,000	5%	12/31/2022

(R) Transactions Between the Company and "Insiders"

The Company has not entered into any business transactions, including stock Purchases, salaries, property rentals, consulting arrangements, guaranties, or other agreements with any individual identified in Section 227.201 (r)(1)-(4) of Regulation Crowdfunding during the 12 months preceding this Offering.

(S) The Company's Financial Condition

Historical milestones

NEXT Wine Company started operations on January 2, 2020 with a team of highly regarded wine industry veterans. Unbeknownst to the Founders and management team, approximately 75 days after launching the company, the Country started shutting down as a result of COVID. Needless to say, not only a major milestone, but an unforeseen setback! Despite COVID, the Company achieved impressive results during 2020:

- Sales revenue of more than \$1.25 million

- A small net profit of less than \$3,000
- The launch of the Company's flagship brand, Everyday NAPA and Everyday SONOMA
- Distribution launched in 11 states
- Laid the foundation for exponential growth in 2021

Historical financial performance is not necessarily predictive of future performance.

Forecasted milestones

Below outlines the 2020 recap as well as rebounding market forecasts for 2021:

- Since COVID became a reality a little more than two months after the company launched, most forecasts and key milestones were delayed by nearly one year.
- Despite the delays, the company was successful in launching its "flagship" brands Everyday Napa and Everyday Sonoma, late in Q-3.
- The Everyday wine brands are expected to achieve national distribution in 2021, with sales in markets that reach over 90% of the U.S. wine consumers.
- Diversity brands - the Alexis-George Winery portfolio (a partnership between NEXT Wine and the African American owned Alexis-George Winery).
 - During 2020, the social events, such as "Black Lives Matter," had a significant and unexpected benefit for this portfolio.
 - Going from a methodical roll out of the wine brands, to having some of the most important buyers in the U.S. asking for our wines represents a major milestone.
 - The Alexis-George portfolio will experience accelerated distribution in iconic national accounts that include, but are not limited to: Trader Joe's, Walmart, Hyatt Corp., Kimpton Hotel Group, Hilton Hotel Group, Club Corp, and others.
 - Great Milestones will be achieved in 2021, yet the full extent of what will occur during 2021 is evolving every week.
- Sales for the traditional holiday wine brand "The Ugly" (aka Ugly Sweater) declined slightly in 2020 based on buyers from key accounts cancelling meetings during the traditional holiday buying period (June - August).
 - While COVID is still impacting the normal flow of business, buyers are taking meetings and reengaging. Holiday brand sales are expected to be up significantly over 2020, and also exceed 2019 sales.
 - We are forecasting that 80-90% national distribution will be achieved, up from approximately 50% distribution in 2020.
- While 2020 was only a partial year, NEXT Wine still generated over \$1.2 million in sales, and made a small profit.
 - The biggest impact 2020 had on our business plan is that we were unable to fully establish our distribution Foundation.

- Therefore, the major focus in 2021 will be to complete the build out of our national distribution infrastructure (our Foundation), which will position the company for exponential growth in the future.
- International sales were also delayed.
 - Brazil - our 2020 plan to roll out our brands have been pushed to April/May 2021
 - We spent the past year building a sales infrastructure for both direct to consumers and the wholesale trade segment.
 - Brazil will generate positive results in 2021
 - China - our largest international market was plagued in 2019 and 2020 with a debilitating trade war.
 - Regaining lost business and new customer development will occur in 2021
 - Southeast Asia - we will achieve new milestones in markets such as Cambodia where we currently have almost 10,000 bottles of wine being prepared now (March 2021) for shipment.
- A recap of key 2021 Forecasted Milestones:
 - Full national distribution for the Everyday Wine brands
 - The UGLY (holiday brand) will regain momentum and reach 80% national distribution
 - Alexis-George (diversity brand) has the opportunity to become the highest volume African-American wine brand in the U.S.
 - The international market place will reopen, and while slower than we want, important new business will be developed and existing markets will return to positive growth trends.
 - With so much uncertainty still resulting from COVID, it is more difficult to accurately forecast, but reaching 3X growth in 2021 versus 2020 is within reason.

Other outstanding debt or equity

As of March 2021, NEXT Wine Company has debt of \$30,000 outstanding and an average cash balance of \$25,000. This debt is from one of the Company's Founders and will be paid back over the next six to nine months. In addition to the NEXT Wine Company's outstanding debt and the debt raised on Mainvest, NEXT Wine Company will require additional capital from debt and/or equity sources.

No other outstanding debt or equity

The capital raised through Mainvest will make up the first round of NEXT Wine Company's fundraising. With the growth plan outlined, NEXT Wine Company will raise additional funds in subsequent funding rounds.

Limited operating history

NEXT Wine Company was established in January 2020, less than three months before the U.S.

virtually shut down as a result of COVID. The majority of the Company's operations occurred in the second half of 2020, with the first year total revenues exceeding \$1.2 million. While the management team, collectively, has more than 100 years of industry experience, NEXT is, officially, and early stage company. Accordingly, there are limited financial statements and information for investors to review. When evaluating this investment opportunity, investors should consider factors outlined in the risk section as well.

Subsequent events to historical financials

Since the latest available financial statements of NEXT Wine Company, we have had the following material changes and trends:

- January and February were a little slower than expected, which resulted in lower sales
- Contrarily, March is making up for the slow start to the year.
 - New market openings and sales results in the market have yielded results beyond our expectations
 - The better than expected results has put pressure on capital needed to fill orders.
- NEXT Wine is looking at short term borrowing to fill orders and bridge the company from now until new capital may come through Mainvest portal.

Financial liquidity

NEXT Wine Company has a low liquidity position due to its cash requirements to build inventory to fill orders. NEXT Wine does NOT face a challenge for growing distribution and expanding sales, it is only handicapped by capital that is needed to fill orders and expand distribution.

Other challenges

NEXT Wine Company has had the following other challenges that are not otherwise captured in the Financial Condition Section, the Risks Section, or the Financial Statements:

- Capital - we are in a Capital intensive industry. The availability and deployment of capital dictate the speed in which the marketing plan can be executed.
