Co-Founder and CEO
 Perceiver AI
 Feb 2018 – Present · 3 yrs 3 mos
 Greater New York City Area

At Perceiver AI (tm), our mission is to elevate the science of artificial intelligence. With the goal to have a meaningful and massive impact on industries and the world's toughest problems, especially those for which neural network based technologies are not well suited.

Perceiver generates optimal AI based algorithms and models without the need for humans to pre-analyze data. It also provides full transparency into the "thought process" that generates output because the algorithms and models are delivered as code, which can be immediately used in any software or hardware application. February 14, 2018: Howie was senior to Dan but didn't manage directly

Howie and I worked together at Axial. When he arrived, Howie inherited technical infrastructure that was not built to handle the company's growth and engineers that felt undervalued. Over the course of his tenure, he rebuilt the code base from scratch into a platform built to scale and injected energy and enthus... See more

Technology Executive able to transition business vision to delivered digital products through high performing teams
February 9, 2018: Howie was a client of Jose's

Howie is an amazing technology executive. He has a natural ability to overcome organizational problems in a calm and assertive way. Howie is one of those guys that has seen everything in every permutation possible; plain and simple panicking is not in his playbook. Howie understands both in breadth and de... See more
