Form 10-Q for the quarterly period ended June 30, 2022

Item 4. Controls and Procedures, page 22

1. You have concluded that disclosure controls and procedures were ineffective as of June 30, 2022, as "...the limited internal resources available for disclosure controls and procedures represent a material weakness in our internal control over financial reporting related to accounting for complex financial instruments". Please tell us when this material weakness arose and the underlying changes in your internal controls that resulted in this material weakness. In this regard, we note management concluded that disclosure controls and procedures were effective in prior periods.

In closing, we remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
